MAINTENANCE AND CARE

Proper care will help maintain the appearance and longevity of your sofa.

- **Upholstery Cleaning:** The sofa features polyester upholstery. For general cleaning, vacuum regularly using a soft brush attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild, water-free solvent or dry-cleaning product. Always test on an inconspicuous area first. Do not use harsh chemicals or abrasive cleaners.
- **Wood Frame Care:** Wipe the solid wood frame with a soft, damp cloth. Avoid using silicone-based polishes or cleaners that may damage the finish.
- **Prevent Fading:** Avoid prolonged exposure to direct sunlight, which can cause the fabric to fade over time.
- **Avoid Sharp Objects:** Keep sharp objects away from the upholstery to prevent tears or snags.

TROUBLESHOOTING

If you encounter any issues with your sofa, please refer to the following common solutions:

- **Sofa feels wobbly:** Check all bolts and connections, especially the legs. Tighten any loose hardware using the provided Allen wrench.
- **Cushions appear flat:** Fluff and rotate the seat and back cushions regularly to help them regain their shape and distribute wear evenly.
- **Squeaking noises:** Ensure all frame connections are tight. If the noise persists, it may indicate friction between components. Re-check assembly steps.
