Merkury Smart MI-BW250-999

Merkury Smart A19 Color Changing Light Bulbs User Manual

Model: MI-BW250-999 | Brand: Merkurs Smart

INTRODUCTION

Welcome to the user manual for your Merkurs Smart A19 Color Changing Light Bulbs. These smart LED bulbs are designed to enhance your home lighting experience with convenience, control, and extensive customization options. They integrate seamlessly with popular voice assistants and offer remote management capabilities through the Merkurs Smart app.

KEY FEATURES

- **Voice Control:** Compatible with Amazon Alexa and Google Assistant for hands-free operation.
- **WiFi Connectivity:** Easy setup with your 2.4GHz WiFi network, no hub required.
- **Remote Management:** Control your lights from anywhere using the Merkurs Smart app.
- **Millions of Colors:** Personalize your space with a vast spectrum of colors.
- **Tunable White:** Adjust white light from warm amber (2700K) to cool daylight (6500K).
- **Dimmable:** Smooth brightness adjustment from 1% to 100%.
- **Scheduling & Automation:** Create custom schedules and routines to automate lighting.
- **Energy Efficient:** 9W LED equivalent to 60W incandescent A19 bulbs.
- **Group Control:** Combine multiple smart devices for synchronized control.

KEY FEATURES

Accent your space with bright multicolor LED light bulbs. Add color and vibrancy to any room!

SETUP INSTRUCTIONS

- 1. Download the Merkury Smart App:** Search for "Merkury Smart" in your mobile device's app store (iOS or Android) and download the application.
- 2. Create an Account:** Open the app and follow the prompts to create a new user account.
- 3. Install the Bulb:** Screw the Merkury Smart A19 bulb into a standard E26 light socket.
- 4. Power On:** Turn on the light switch. The bulb should begin to blink rapidly, indicating it's in pairing mode. If it doesn't blink, turn the light switch OFF and ON three times quickly until it starts blinking.
- 5. Connect to WiFi:**
 - In the Merkury Smart app, tap the "+" icon in the top right corner to add a new device.
 - Select "Lighting" or "Smart Bulb" from the device list.

- Confirm that the bulb is blinking rapidly.
- Enter your 2.4GHz WiFi network name and password. *Note: These bulbs only support 2.4GHz WiFi networks.*
- Follow the on-screen instructions to complete the pairing process. Once connected, the bulb will stop blinking and glow steadily.

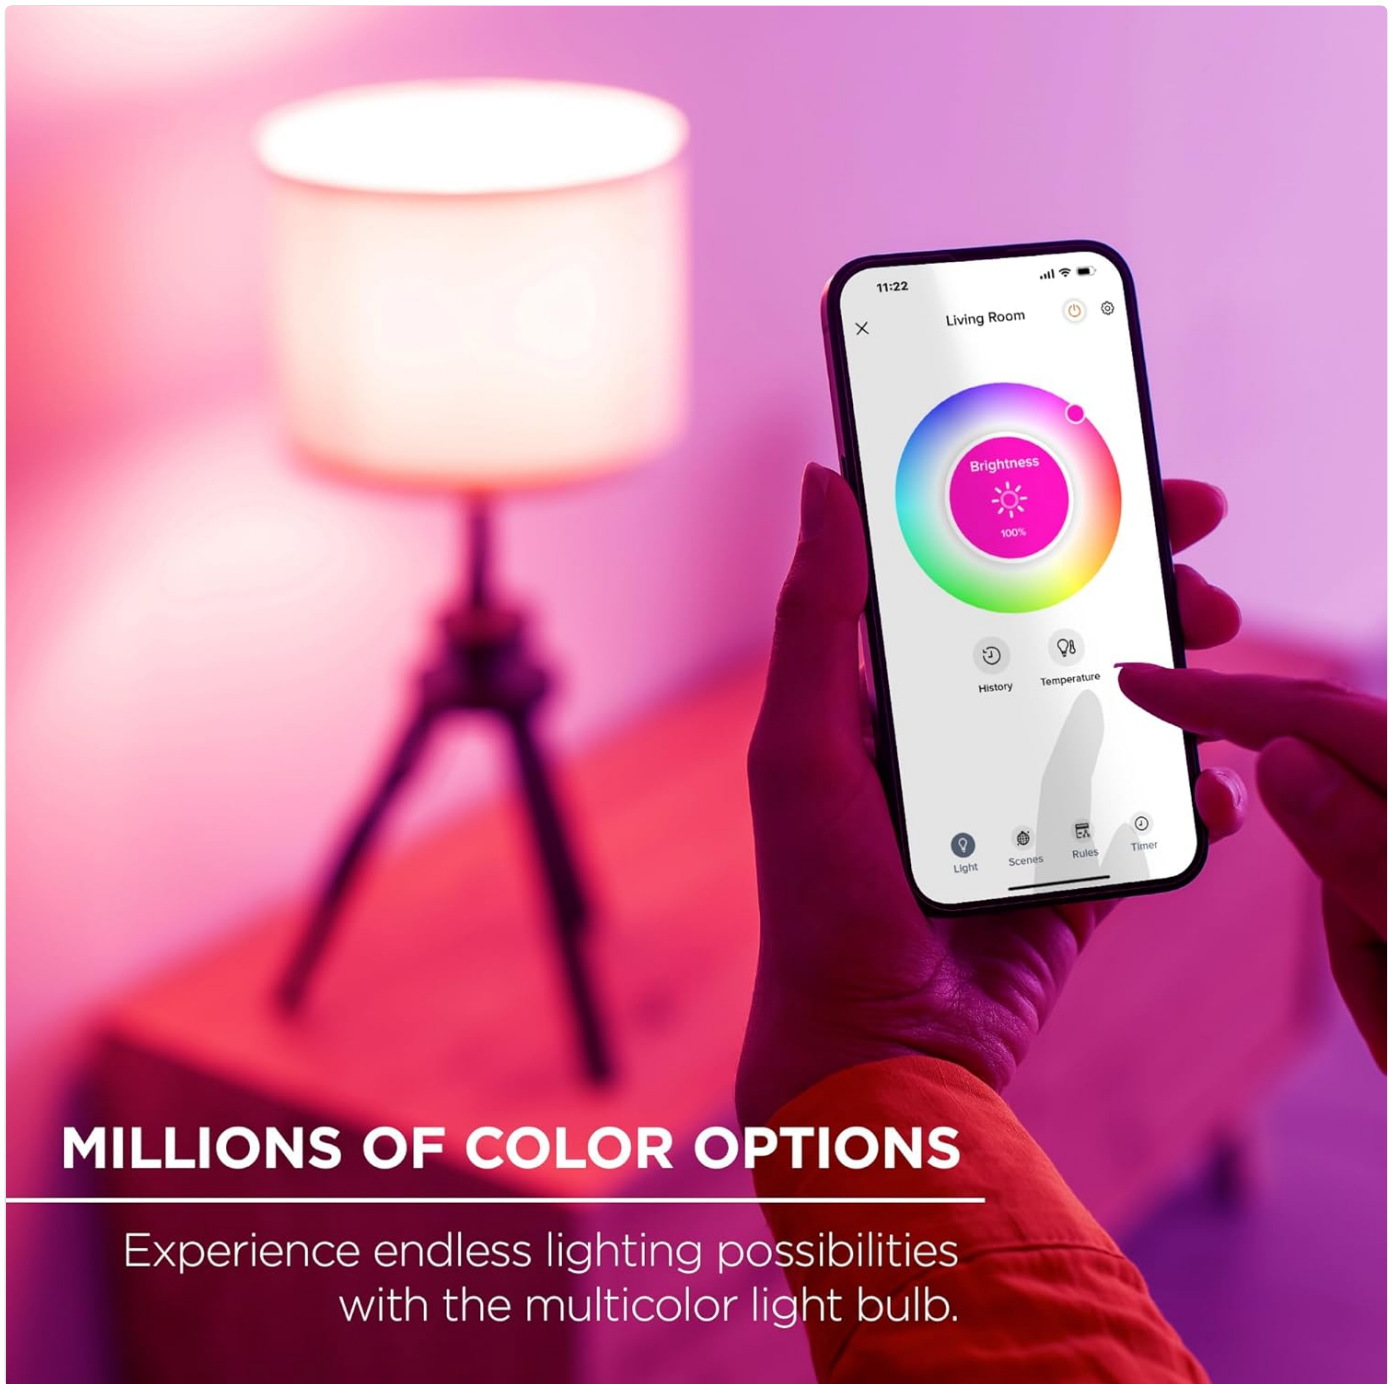

6. **Rename Your Bulb (Optional):** After successful pairing, you can rename your bulb within the app for easier identification (e.g., "Living Room Lamp," "Bedroom Light").

OPERATING INSTRUCTIONS

App Control

The Merkurs Smart app provides comprehensive control over your light bulbs from anywhere with an internet connection.

- **On/Off:** Tap the power icon next to the bulb's name to turn it on or off.
- **Brightness Adjustment:** Use the slider or percentage input to dim or brighten the light from 1% to 100%.
- **Color Selection:** Access the color palette to choose from millions of colors.
- **White Tone Adjustment:** Switch to white light mode to adjust the color temperature from warm to cool.
- **Scenes:** Select pre-set scenes or create custom scenes for different moods or activities.
- **Schedules:** Set daily or weekly schedules for automatic on/off times.
- **Group Control:** Group multiple bulbs together to control them simultaneously.

MILLIONS OF COLOR OPTIONS

Experience endless lighting possibilities
with the multicolor light bulb.

Voice Control (Alexa & Google Assistant)

Integrate your Mercury Smart bulbs with Amazon Alexa or Google Assistant for convenient voice commands.

1. **Link Account:** In your Alexa or Google Home app, search for the "Mercury Smart" skill/action and link your Mercury Smart account.
2. **Discover Devices:** Once linked, ask your voice assistant to "Discover devices" or manually add them through the app.
3. **Voice Commands:**
 - "Alexa/Hey Google, turn on [Bulb Name]."
 - "Alexa/Hey Google, turn off [Bulb Name]."
 - "Alexa/Hey Google, set [Bulb Name] to 50%."
 - "Alexa/Hey Google, change [Bulb Name] to blue."

- "Alexa/Hey Google, make [Bulb Name] warmer."

Color Changing, Tunable White, and Dimmable Functions

- **Millions of Colors:** Use the color picker in the Mercury Smart app to select any color from the spectrum. This allows for personalized ambiance for any occasion.
- **Tunable White:** Adjust the white light temperature to suit your mood or activity. Options range from warm white (2700K) for relaxation to cool daylight (6500K) for focus.
- **Dimmable:** Fine-tune the brightness from 1% to 100% to create the perfect lighting level. This feature is accessible via the app or voice commands.

Scheduling and Automation

Automate your lighting to fit your daily routine using the scheduling features in the Mercury Smart app.

- **Set Timers:** Schedule lights to turn on or off at specific times.
- **Create Routines:** Design complex automations based on time, sunrise/sunset, or other smart device triggers.

DAILY SCHEDULE

Set lights to turn on every morning or off at bedtime automatically.

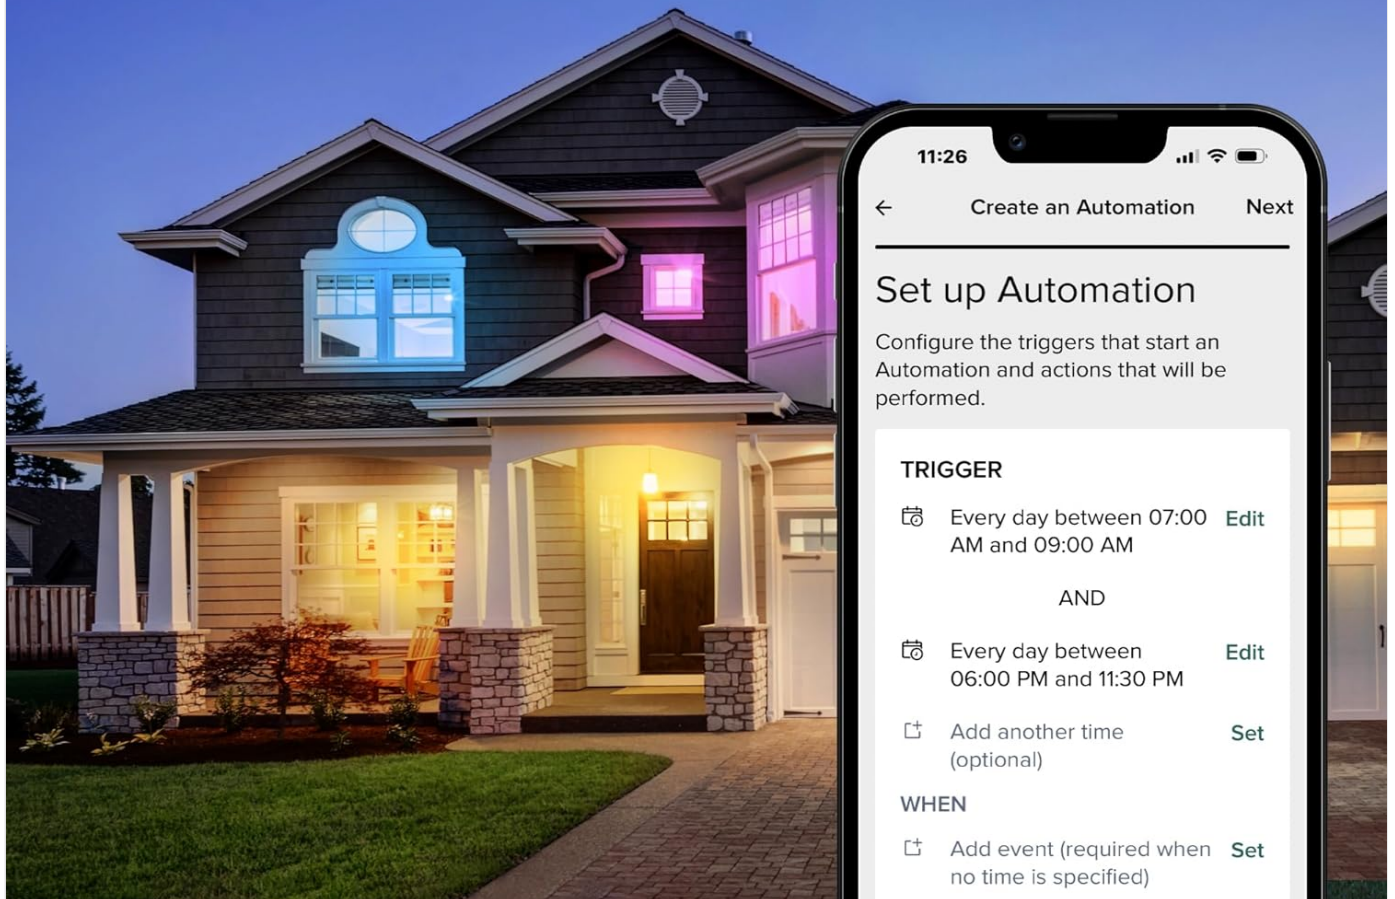

Image: Setting up daily schedules and automations within the app.

Group Control

Manage multiple Merkurs Smart devices simultaneously by creating groups within the app.

- **Combine Devices:** Group several bulbs in one room or across different rooms to control them with a single command or tap.
- **Synchronized Control:** Adjust brightness, color, or turn on/off all grouped lights at once.

Image: Example of group control for multiple smart light bulbs.

MAINTENANCE

Merkury Smart LED bulbs are designed for long-lasting performance with minimal maintenance.

- **Cleaning:** Ensure the bulb is powered off and cool before cleaning. Wipe with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** If storing the bulb for an extended period, keep it in a cool, dry place away from direct sunlight.
- **Firmware Updates:** Periodically check the Merkurs Smart app for available firmware updates to ensure optimal performance and access to new features.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bulb not connecting to WiFi / Not blinking rapidly.	Incorrect pairing mode; 5GHz WiFi network; Weak WiFi signal.	Turn the light switch OFF and ON three times quickly to reset the bulb into rapid blinking pairing mode. Ensure your phone is connected to a 2.4GHz WiFi network during setup. Move the bulb closer to your WiFi router.
Bulb is offline in the app.	WiFi disconnected; Power outage; Router issues.	Check your home WiFi connection. Ensure the light switch is ON. Restart your WiFi router. If issues persist, try re-pairing the bulb.
Voice commands not working.	Account not linked; Incorrect device name; Voice assistant not connected to internet.	Verify that your Merkury Smart account is correctly linked in the Alexa/Google Home app. Ensure you are using the exact device name configured in the Merkury Smart app. Check the internet connection of your voice assistant device.
