## BetaConnect BCRK5G

# Wireless Android Auto Car Adapter User Manual

Model: BCRK5G | Brand: BetaConnect

## 1. INTRODUCTION

---

The BetaConnect Wireless Android Auto Car Adapter is designed to convert your car's existing wired Android Auto system into a wireless experience. This device allows you to access all Android Auto features on your car's display without the need for a physical cable connection to your smartphone. It features a simple plug-and-play setup, advanced audio quality over 5GHz WiFi, and supports firmware updates for enhanced performance and compatibility.

## 2. SETUP GUIDE

Setting up your BetaConnect adapter is a straightforward process. Ensure your car supports wired Android Auto before proceeding.

1. **Connect the Adapter:** Plug the BetaConnect adapter into your car's Android Auto-enabled USB port.
2. **Wait for Indicator:** Allow a few moments for the adapter to power on and for its indicator light to blink blue, signifying it is ready for pairing.
3. **Open Bluetooth Settings:** On your Android smartphone, navigate to the Bluetooth settings menu.
4. **Pair with BetaConnect:** Locate and select the BetaConnect device in the list of available Bluetooth devices to pair. The device name will typically appear as "BetaConnect-B0AXXXXX".
5. **Confirm Connection:** Once paired, Android Auto should automatically launch on your car's infotainment screen.

**Note:** For the 2024 upgraded version, a separate application is no longer required for initial setup. Firmware updates can be managed via the BetaConnect App if needed.

### 3. OPERATING INSTRUCTIONS

---

Once successfully set up, the BetaConnect adapter provides a seamless wireless Android Auto experience.

- **Automatic Connection:** After the initial pairing, the adapter will automatically connect to your smartphone when you start your car, provided Bluetooth is enabled on your phone.
- **Wireless Freedom:** Enjoy all the features of Android Auto, including navigation, music streaming, messaging, and calls, without needing to physically connect your phone to the car's USB port. Your phone can remain in your pocket or bag.
- **Stable Performance:** The adapter utilizes 5GHz WiFi for fast and stable data transmission, ensuring advanced audio quality and responsive interaction with Android Auto.

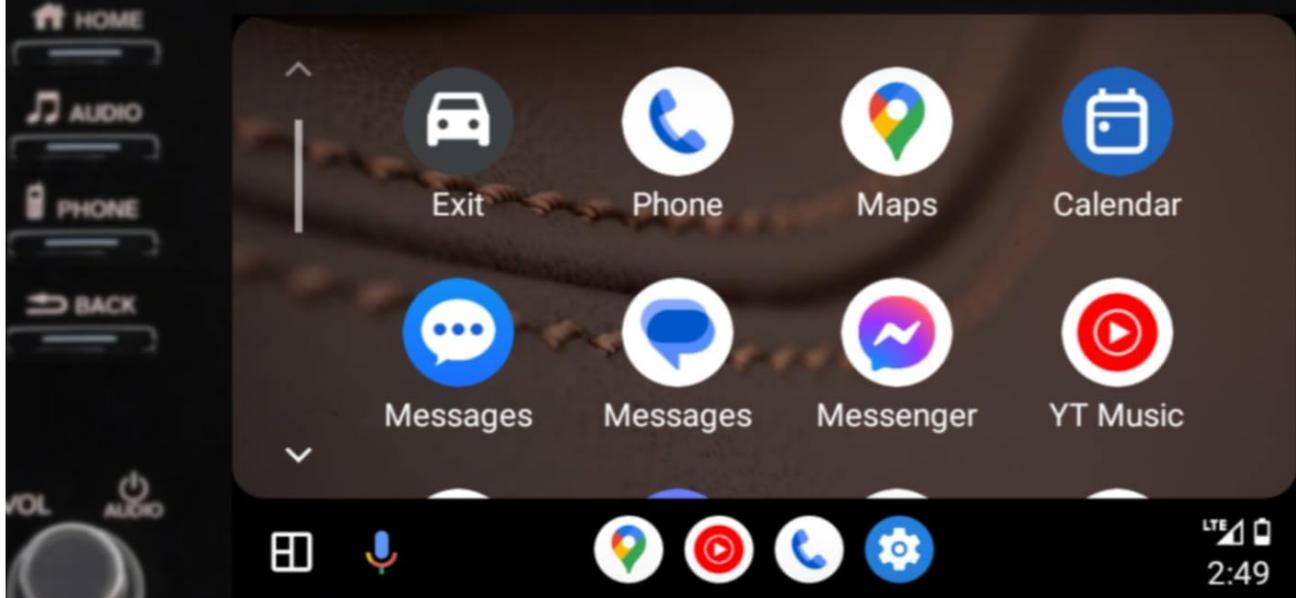

**Keep your phone in your  
pocket or bag.**

**Go completely wireless  
with BetaConnect!**

**Android Auto**

## 4. MAINTENANCE

---

To ensure the longevity and optimal performance of your BetaConnect adapter, consider the following maintenance tips:

- **Keep Clean:** Regularly wipe the adapter with a soft, dry cloth to remove dust and debris. Avoid using liquid cleaners.
- **Protect from Extremes:** Do not expose the adapter to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- **Firmware Updates:** Periodically check for and install the latest firmware updates via the BetaConnect App. Firmware updates often include performance improvements, bug fixes, and expanded compatibility.

## 5. TROUBLESHOOTING

---

If you encounter issues with your BetaConnect Wireless Android Auto Car Adapter, refer to the following common troubleshooting steps:

Problem	Possible Cause / Solution
Adapter does not connect or frequently disconnects.	<ul style="list-style-type: none"> <li>• Ensure your car's USB port is active and provides sufficient power.</li> <li>• Verify that your car supports wired Android Auto.</li> <li>• Try a different USB cable to connect the adapter to the car.</li> <li>• Unplug the adapter and plug it back in.</li> <li>• Restart your smartphone and car's infotainment system.</li> <li>• Unpair and re-pair the BetaConnect device in your phone's Bluetooth settings.</li> <li>• Check for and install the latest firmware updates for the adapter.</li> </ul>
Audio quality issues or lag.	<ul style="list-style-type: none"> <li>• Ensure there are no strong Wi-Fi interferences in the car environment.</li> <li>• Confirm your phone is connected to the adapter's 5GHz WiFi for optimal performance.</li> <li>• Update the adapter's firmware to the latest version.</li> </ul>
Android Auto does not launch automatically.	<ul style="list-style-type: none"> <li>• Ensure Bluetooth is enabled on your smartphone.</li> <li>• Verify that the BetaConnect adapter is successfully paired with your phone.</li> <li>• Check Android Auto settings on your phone to ensure it's configured for automatic launch.</li> </ul>
