Important Safety Instructions

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- **WARNING:** To reduce the risk of electrocution:
- Always unplug this appliance immediately after using.

- Do not use while bathing.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- Do not reach for an appliance that has fallen into water. Unplug immediately.
- **WARNING:** To reduce the risk of burns, electrocution, fire, or injury to persons:
- An appliance should never be left unattended when plugged in.
- Close supervision is necessary when this appliance is used by, on, or near children or individuals with certain disabilities.
- Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped, damaged, or dropped into water. Contact customer service for examination and repair.
- Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
- Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint, hair, and the like.
- Never use while sleeping.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not use an extension cord with this appliance.
- Do not direct hot air towards eyes or other heat-sensitive areas.
- Attachments may be hot during use. Allow them to cool before handling.
- Do not place appliance on any surface while it is operating.
- While using the appliance, keep your hair away from the air intake vents.

Product Overview and Components

The Cosy Companions High-Speed Ionic Hair Dryer is designed for efficient and gentle hair drying. It features a powerful brushless motor, ionic technology, and intelligent temperature control.

Key Features:

- **High-Speed Brushless Motor:** Equipped with a 150,000 RPM motor for powerful airflow and fast drying.
- **Negative Ionic Technology:** Releases 500 million negative ions to reduce frizz, lock in moisture, and enhance hair shine.
- **Low Noise Operation:** Utilizes 8 layers of damping noise reduction technology, operating at only 51dB.
- **Intelligent Temperature Control:** Measures air temperature over 100 times per second to prevent heat damage.
- **LED Temperature Indicator:** Displays heat settings with different LED colors (Red for hot, Orange for warm, Green for cool).
- **Lightweight and Portable Design:** Weighs 0.82 lbs (373g) for comfortable handling and travel.
- **Magnetic Attachments:** Includes a smoothing nozzle and a diffuser for versatile styling.

Included Components:

- Cosy Companions High-Speed Ionic Hair Dryer

- Magnetic Smoothing Nozzle
- Magnetic Diffuser

Setup

Before using your hair dryer, ensure it is properly assembled and connected to a power source.

1. **Unpacking:** Carefully remove all components from the packaging.
2. **Attaching Nozzles:** The hair dryer comes with magnetic attachments. To attach a nozzle (smoothing nozzle or diffuser), simply align it with the front of the hair dryer and it will snap into place magnetically. Ensure it is securely attached before use.
3. **Power Connection:** Plug the hair dryer into a standard 120V electrical outlet. Ensure the ALCI safety plug is functioning correctly.

Operating Instructions

Familiarize yourself with the controls for optimal performance and styling.

Power On/Off and Speed Settings:

1. Locate the power switch on the handle.
2. Slide the switch to the 'I' position for low speed or 'II' position for high speed.

3. To turn off the hair dryer, slide the switch to the 'OFF' position.

Heat Settings:

1. Press the heat button located below the power switch to cycle through temperature settings.
2. The LED ring on the back of the dryer indicates the current heat setting:
    - **Red:** Hot Air (approximately 80°C)
    - **Orange:** Warm Air (approximately 50°C)
    - **Green:** Cool Air (approximately 30°C)
3. Press and hold the heat button for 3 seconds to alternate between hot and cool air quickly.

Image: Close-up of the hair dryer handle showing the speed switch and heat button with LED indicators.

Using Attachments:

- **Smoothing Nozzle:** Use this attachment for precise drying and straightening. Direct the airflow down the hair shaft for a smooth finish.
- **Diffuser:** Ideal for enhancing natural curls and waves. Attach the diffuser and gently cup sections of hair, lifting towards the scalp. Use a low heat and speed setting to minimize frizz.

Maintenance

Regular maintenance ensures the longevity and optimal performance of your hair dryer.

1. **Cleaning the Air Intake Filter:** The air intake vent is located at the bottom of the handle. Over time, lint and hair can accumulate, affecting performance. Regularly check and clean this filter to maintain proper airflow.
2. **Exterior Cleaning:** Wipe the exterior of the hair dryer with a soft, damp cloth. Do not use abrasive cleaners or solvents.
3. **Storage:** When not in use, store the hair dryer in a cool, dry place, away from moisture and direct sunlight. Do not wrap the power cord tightly around the appliance.

Troubleshooting

If you encounter issues with your hair dryer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Hair dryer does not turn on.	No power supply; ALCI plug tripped.	Ensure the power cord is securely plugged in. Press the 'RESET' button on the ALCI safety plug. Check the circuit breaker.
Weak airflow.	Air intake filter is blocked.	Clean the air intake filter at the bottom of the handle to remove lint and hair.
Hair dryer overheats and shuts off.	Air intake or outlet blocked; prolonged use.	Unplug the dryer and allow it to cool down. Clean any blockages from the air intake/outlet. Reduce usage time.
Hair is still frizzy after drying.	Incorrect heat/speed setting; improper technique.	Ensure ionic technology is active (indicated by green/orange LED). Use lower heat and speed settings. Direct airflow down the hair shaft.

If the problem persists after attempting these solutions, please contact customer support.

Specifications

Feature	Detail
Model Number	ZCY883
Product Dimensions	12 x 4.8 x 4.4 inches
Item Weight	13.12 ounces (373g)
Wattage	1500 watts
Voltage	120 volts
Motor Speed	150,000 RPM
Wind Speed	36 m/s
Negative Ions	500 million
Temperature Settings	3 (Hot, Warm, Cool)
Speed Settings	2 (Low, High)
