

## PETKIT B0CGLPDS1X

# PETKIT Pet Grooming Vacuum Kit User Manual

Brand: PETKIT | Model: B0CGLPDS1X

## INTRODUCTION

---

Thank you for choosing the PETKIT Pet Grooming Vacuum Kit. This comprehensive 5-in-1 system is designed to provide a professional grooming experience for your pets at home, effectively collecting pet hair and dander to maintain a clean environment. This manual provides detailed instructions for the safe and efficient operation, maintenance, and troubleshooting of your grooming kit.

## SAFETY INFORMATION

---

**Please read all safety instructions carefully before using the product.**

- Always ensure the device is unplugged before cleaning or performing maintenance.
- Do not operate the device with a damaged cord or plug.
- Keep the device away from water or wet surfaces. Do not immerse the main unit in water.
- This product is intended for pet grooming only. Do not use it for human hair or other purposes.
- Supervise children and pets when the device is in use.
- Ensure all attachments are securely connected before operation.
- Do not block the air vents during operation.
- Store the device in a cool, dry place when not in use.

## PACKAGE CONTENTS

---

*Image: All components of the PETKIT Pet Grooming Vacuum Kit, including the main vacuum unit, grooming brush, deshedding tool, paw trimmer, fur clipper, and various guide combs.*

Your PETKIT Pet Grooming Vacuum Kit includes the following items:

- Main Vacuum Unit
- Grooming Brush
- Deshedding Tool
- Paw Trimmer
- Fur Clipper
- 4 Guide Combs for Fur Clipper (various lengths)
- Flexible Hose
- Power Adapter
- User Manual (this document)

## SETUP

---

Follow these steps for initial setup of your PETKIT Grooming Vacuum Kit:

1. **Unpack Components:** Carefully remove all items from the packaging and ensure all listed components are

present.

2. **Connect Hose:** Attach the flexible hose to the suction port on the main vacuum unit. Ensure it clicks securely into place.
3. **Select Attachment:** Choose the desired grooming attachment (e.g., grooming brush, deshedding tool, fur clipper) and connect it to the end of the flexible hose.
4. **Connect Power:** Plug the power adapter into the main vacuum unit and then into a standard electrical outlet.
5. **Prepare Pet:** Ensure your pet is calm and comfortable before beginning the grooming process. Introduce the device slowly to avoid startling them.

## OPERATING INSTRUCTIONS

---

### Using the Grooming Vacuum

*Image: The PETKIT grooming vacuum in action, demonstrating its high-speed suction motor, optimized air duct design, and three adjustable power modes for efficient hair collection during grooming.*

The PETKIT grooming vacuum features a high-speed suction motor and optimized air duct design to effectively collect up to 99% of pet hair during grooming, keeping your home clean.

- **Power On/Off:** Press the power button on the main unit to turn the device on or off.
- **Adjust Suction Power:** The unit offers 3 adjustable power modes. Press the mode button to cycle through low, medium, and high suction settings to suit your pet's comfort and grooming needs.
- **Grooming Brush:** Use the grooming brush attachment to gently brush your pet's coat. The vacuum will simultaneously collect loose hair, preventing it from scattering.
- **Deshedding Tool:** For pets with thick undercoats, the deshedding tool helps remove loose fur effectively. Brush in the direction of hair growth.

## Using the Hair Clipper

# UPGRADED HAIR CLIPPER

- ✓ Portable wireless clipper
- ✓ Safe & sharp blade
- ✓ Denser blades for a smooth look

\*It comes with 4 guide combs for different lengths of hair.

*Image: A user demonstrating the upgraded portable wireless hair clipper on a small dog, highlighting its safe and sharp blades, and denser blades for a smooth cut. Four guide combs are shown below.*

The upgraded hair clipper features precision-cut blades for a smooth and comfortable grooming experience without pulling your pet's hair. It is portable and wireless for ease of use.

- **Attach Guide Comb:** Select one of the 4 provided guide combs (different lengths) and attach it securely to the clipper head for desired hair length.
- **Power On:** Turn on the hair clipper.
- **Clipping:** Gently move the clipper against the direction of hair growth, ensuring smooth and even strokes.
- **Paw Trimmer:** The specialized paw trimmer is ideal for delicate areas like paws, ears, eyes, and hips. Use it without a guide comb for precise trimming.

## Brush Features

# DEEP INTO UNDERCOAT TO REMOVE LOOSE FUR

*Image: A deshedding brush being used on a cat, illustrating its ability to reach deep into the undercoat to remove loose fur effectively.*

## ONE-CLICK HAIR REMOVAL

*Image: A demonstration of the one-click hair removal feature on the grooming brush, showing how collected fur is easily pushed off the bristles for quick cleaning.*

## CURVED PINS TO AVOID FLYING HAIR

140° bent bristles to collect more hair

*Image: A close-up view of the grooming brush's curved pins, designed with a 140° bend to effectively collect more hair and prevent flying fur.*

# SAFE FOR SKIN

## Round tips to prevent scratching skin

*Image: A close-up view of the grooming brush's bristles, showing the round tips designed to prevent scratching and ensure safety for your pet's skin.*

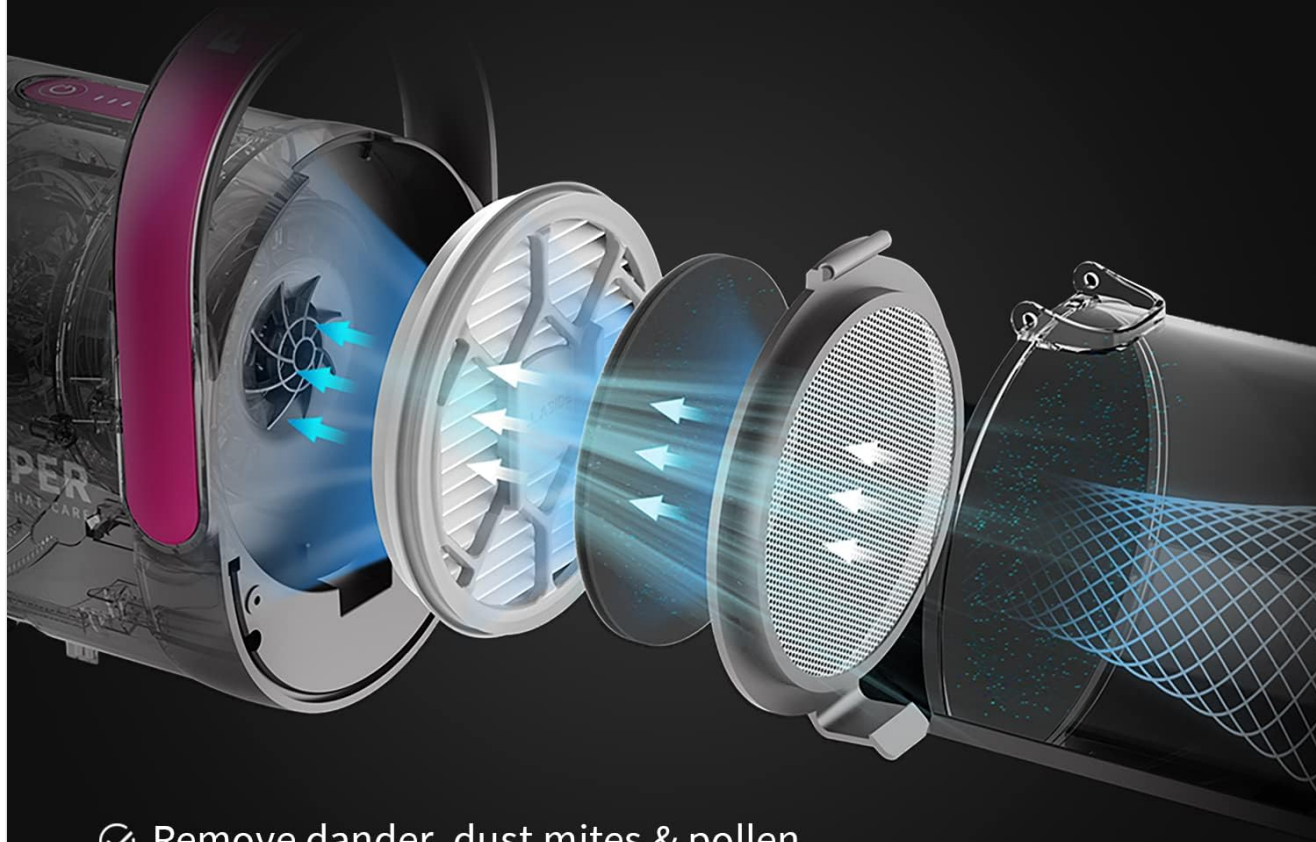

The brushes are designed not only to keep your pet's appearance smooth but also to massage the skin, improving blood circulation. Key features include:

- **Deep Undercoat Removal:** Designed to reach deep into the undercoat to effectively remove loose fur.
- **One-Click Hair Removal:** Easily clean the brush by pressing a button to retract the bristles and remove collected hair.
- **Curved Pins:** The 140° bent bristles are optimized to collect more hair and minimize flying fur during grooming.
- **Safe for Skin:** Features round tips on the bristles to prevent scratching and ensure a gentle experience for your pet.

## MAINTENANCE

---

# HIGH-DENSITY HEPA FILTRATION

- ✓ Remove dander, dust mites & pollen
- ✓ Reduce exposure to allergy
- ✓ Prevent secondary air pollution

*Image: A diagram illustrating the high-density HEPA filtration system within the PETKIT grooming vacuum, showing how it removes dander, dust mites, and pollen, reduces allergy exposure, and prevents secondary air pollution.*

Regular maintenance ensures optimal performance and longevity of your PETKIT Grooming Vacuum Kit.

- **Emptying the Dustbin:** The 1.4L dust cup is designed for easy emptying. Simply press the release button to detach the dustbin and empty collected hair.
- **Cleaning the Dustbin:** The dustbin is water washable. Rinse it thoroughly with water and ensure it is completely dry before reattaching it to the main unit.
- **Cleaning the Filter:** The device features a high-density HEPA filtration system. Periodically remove the filter and gently tap it to dislodge accumulated dust and hair. The filter is also water washable; rinse it and allow it to air dry completely before reinserting. Regular cleaning of the filter helps maintain suction efficiency and prevents secondary air pollution.
- **Cleaning Attachments:** After each use, clean the grooming brush, deshedding tool, and clipper blades to remove any remaining hair. Use a soft, damp cloth for the main unit.

## TROUBLESHOOTING

---

If you encounter any issues with your PETKIT Grooming Vacuum Kit, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Device does not turn on.	Not plugged in; Power outlet issue; Damaged power cord.	Ensure power cord is securely plugged into both the unit and a working outlet. Check the outlet with another device. Contact customer support if cord is damaged.
Low suction power.	Dustbin full; Filter clogged; Hose or attachment blocked.	Empty the dustbin. Clean the HEPA filter. Check hose and attachments for blockages and clear them.
Clipper not cutting effectively.	Blades are dull or clogged with hair.	Clean hair from clipper blades. Ensure blades are properly aligned. If blades are dull, consider replacement (contact support).
Unusual noise during operation.	Blockage in hose or unit; Loose component.	Check for and remove any blockages in the hose or attachments. Ensure all components are securely fastened. If noise persists, contact customer support.

## SPECIFICATIONS

Attribute	Value
Brand	PETKIT
Model	B0CGLPDS1X
Product Type	Pet Grooming Vacuum Kit
Dustbin Capacity	1.4 Liters
Noise Level	Under 60dB (at max power mode)
Filtration System	High-density HEPA
