## JALOSOFO AC DC Adapter

# JALOSOFO Power Cord for Braun Trimmers and Clippers

Instruction Manual

## 1. PRODUCT OVERVIEW

---

This JALOSOFO AC DC Adapter is a replacement power cord designed to charge and power a wide range of Braun trimmers and clippers. It provides a stable and safe power supply for your grooming devices.

### 1.1 Compatible Models

This power cord is compatible with the following Braun trimmer and clipper models:

- Braun 5513, 5516
- Braun MGK Series: MGK3010, MGK3020, MGK3021, MGK3025, MGK3210, MGK3220, MGK3221, MGK3225, MGK3921
- Braun BT Series: BT3000, BT3020, BT3021, BT3022, BT3221, BT3222, BT3240

## 2. SAFETY INFORMATION

Your safety is paramount. This power cord is designed with multiple protection features to ensure safe operation. Please read and adhere to the following safety guidelines:

- **Short Circuit Protection:** Prevents damage from electrical shorts.
- **Overcurrent Protection:** Safeguards against excessive current flow.
- **Over Temperature Protection:** Automatically shuts down if temperatures become too high.
- **Over Charge Protection:** Protects your device from being overcharged.
- **Overvoltage Protection:** Shields against voltage spikes.
- **Over Load Protection:** Prevents damage from excessive power draw.

### Important:

- Do not expose the power cord to water or excessive moisture.
- Do not attempt to disassemble or modify the adapter.
- Ensure the power cord is fully inserted into both the wall outlet and your device.
- Keep out of reach of children.

- If the cord or adapter appears damaged, discontinue use immediately.

### 3. SETUP INSTRUCTIONS

---

Setting up your JALOSOFO power cord is straightforward:

1. **Verify Compatibility:** Before connecting, ensure your Braun trimmer or clipper model is listed in the compatible models section (Section 1.1).
2. **Inspect the Cord:** Check the power cord and adapter for any visible damage. Do not use if damaged.
3. **Connect to Device:** Insert the small barrel connector end of the power cord firmly into the charging port of your Braun trimmer or clipper.
4. **Plug into Outlet:** Insert the two-prong plug of the AC adapter into a standard 100V-240V wall electrical outlet.

## 4. OPERATING INSTRUCTIONS

---

Once connected, the power cord will begin to supply power to your device. If your device has a charging indicator, it should activate. Please note that this replacement charger may not feature a charge indicator light, so you may need to estimate charging time based on your device's specifications.

- For optimal battery life, avoid constantly leaving your device plugged in after it is fully charged, if your device's battery technology recommends it.
- The adapter is designed for continuous use during operation of the trimmer/clipper if needed.

## 5. MAINTENANCE

---

Proper care will extend the life of your power cord:

- **Cleaning:** Wipe the adapter and cord with a dry, soft cloth. Do not use liquid cleaners.
- **Storage:** When not in use, store the power cord in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharp bends or kinks in the cable, especially near the connectors, as this can

damage the internal wires. Do not wrap the cable too tightly around the adapter.

- **Connector Care:** Keep the barrel connector free of dust and debris to ensure a good connection.

## 6. TROUBLESHOOTING

If your device is not charging or receiving power, consider the following:

- **Check Connections:** Ensure both ends of the power cord are securely plugged in – the barrel connector into your device and the two-prong plug into a functional wall outlet.
- **Verify Outlet:** Test the wall outlet with another known working appliance to confirm it is supplying power.
- **Device Compatibility:** Double-check that your trimmer or clipper model is explicitly listed as compatible with this power cord (refer to Section 1.1).
- **Inspect for Damage:** Examine the power cord and adapter for any signs of physical damage, such as cuts, frayed wires, or bent pins. If damaged, do not use.
- **No Charge Indicator:** Be aware that this replacement charger may not have a visual charge indicator. The absence of a light does not necessarily mean it is not charging. Allow sufficient time for charging.
- **Device Issue:** If the power cord is confirmed to be working and compatible, the issue might lie with

your trimmer or clipper's battery or charging port.

## 7. SPECIFICATIONS

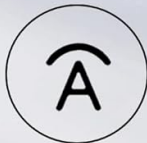

---

Feature	Specification
Brand	JALOSOFO
Input Voltage	100V-240V AC
Input Frequency	50Hz-60Hz
Output Voltage	2.3 Volts DC
Output Current	0.75 Amps
Wattage	1 Watt
Cable Length	4.9 FT / 1.5 M
Color	Black
Material	Plastic
Safety Certifications	ETL, FCC, RoHS Listed
Main Power Connector Type	2 Pin (North American Type A)
