3. SETUP AND USAGE

3.1 Adjusting the Leash Length

The leash features an adjustable buckle to customize its length. This allows for various wearing styles, including shoulder strap, waist belt, or a traditional hand-held leash.

3.2 Wearing Styles

The leash can be worn in multiple ways to suit your activity and preference:

- **Crossbody:** Loop the leash across your body, over one shoulder and under the opposite arm. Adjust the length so your dog walks comfortably beside you.
- **Waist Belt:** Wrap the leash around your waist and secure it. This provides hands-free control, ideal for running or hiking.

- **Traditional Hand-held:** The leash can also be used as a standard hand-held leash by holding the main strap or the dedicated foam handle.

3.3 Connecting to Your Dog

Attach the sturdy metal clip at the end of the leash to your dog's collar or harness. Ensure the connection is secure before walking.

3.5 Anti-Tangling Design

The latches and hooks are designed to rotate 360 degrees, minimizing leash entanglement and ensuring your dog's safety and freedom of movement.

4. MAINTENANCE

4.1 Cleaning Instructions

The leash is made from tear-resistant polyester fabric. To clean, hand wash with mild soap and water. Rinse thoroughly and air dry. Do not use harsh chemicals or bleach.

4.2 Storage

Store the leash in a dry place away from direct sunlight when not in use to prolong its lifespan.

5. TROUBLESHOOTING

5.1 Leash Entanglement

The leash is designed with 360-degree rotating latches to minimize tangling. If entanglement occurs, gently untwist the leash. Ensure your dog is accustomed to walking on a hands-free leash to prevent sudden movements that could cause tangles.

5.2 Excessive Pulling

While the leash is durable, it is recommended for dogs weighing within 50kg/110lbs. For dogs that are strong pullers, consider additional training to ensure a comfortable and safe walking experience for both you and your pet.
