### Key Features:

- **Metal Body and Metal Chassis:** Ensures durability and a premium feel.
- **Real Riders Wheels:** Authentic rubber tires for enhanced realism.
- **Detailed Replica:** Accurate representation of the Alfa Romeo Giulia Sprint GTA.

### 3. SETUP

The Hot Wheels Alfa Romeo Giulia Sprint GTA is a ready-to-display collectible. No assembly is required.

#### Unboxing:

1. Carefully remove the model from its packaging. Avoid tearing or bending the card if you intend to preserve it.
2. Inspect the model for any manufacturing defects or shipping damage.

#### Display:

Place the model on a flat, stable surface away from direct sunlight, extreme temperatures, and high humidity to prevent damage or fading.

## 4. OPERATING

---

This Hot Wheels model is a static collectible and is not designed for motorized operation or complex interactive play. Its primary function is for display and light handling.

### Handling Guidelines:

- Handle the model by its body, avoiding excessive pressure on delicate parts like mirrors or spoilers (if applicable).
- Avoid dropping the model, as this can cause paint chips, bent axles, or broken components.
- While the wheels are functional, prolonged or rough rolling on abrasive surfaces may cause wear to the Real Riders tires.

## 5. MAINTENANCE

---

Regular maintenance will help preserve the appearance and condition of your Hot Wheels collectible.

### Cleaning:

- Use a soft, dry microfiber cloth to gently wipe away dust.
- For stubborn dirt, lightly dampen the cloth with water. *Do not use harsh chemicals, abrasive cleaners, or solvents*, as these can damage the paint finish.
- Avoid excessive rubbing, especially on decals or painted details.

### Storage:

If storing the model, keep it in a cool, dry place, ideally in its original packaging or a protective display case, to prevent dust accumulation and environmental damage.

## 6. TROUBLESHOOTING

---

Most issues with a die-cast model are related to physical damage from mishandling. This section addresses common concerns.

### Common Issues and Solutions:

Problem	Possible Cause	Solution
Paint chips or scratches	Physical impact, abrasive cleaning, or rough handling.	These are typically permanent. Handle with care to prevent future damage. For minor chips, touch-up paint may be used by experienced modelers.
Bent axles or non-rolling wheels	Excessive force on wheels, dropping the model.	Gently attempt to straighten bent axles if possible. If wheels are seized, check for debris. Severe damage may require professional repair or replacement parts (not typically available for Hot Wheels).

Problem	Possible Cause	Solution
Dust accumulation	Exposure to open air.	Regularly clean with a soft, dry microfiber cloth. Consider a display case for long-term protection.
