NOVUS B0CGNGGQT4

NOVUS 1 Inch Flat Iron Straightener
Instruction Manual

INTRODUCTION

Thank you for choosing the NOVUS 1 Inch Flat Iron Straightener. This professional hair styling tool is designed to provide efficient and safe hair straightening with its advanced features, including 3D floating plates, adjustable temperature settings, fast heating, and dual voltage capability. Please read this manual thoroughly before use to ensure proper operation and maintenance.

SAFETY INFORMATION

To reduce the risk of burns, electrocution, fire, or injury to persons, please observe the following safety precautions:

- Always unplug the appliance immediately after using.
- Do not use while bathing or in a shower.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- Do not reach for an appliance that has fallen into water. Unplug immediately.
- This appliance should never be left unattended when plugged in.
- Close supervision is necessary when this appliance is used by, on, or near children or individuals with certain disabilities.
- Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.

- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped, damaged, or dropped into water.
- Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
- Never use while sleeping.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not use an extension cord with this appliance.
- The appliance is hot when in use. Do not let eyes or bare skin touch heated surfaces.
- Do not place the appliance directly on any surface while it is hot or plugged in.
- Always store the appliance in a location free from moisture.

PRODUCT FEATURES

- **3D Floating Plates:** Plates glide over hair without pulling, providing faster straightening and increased shine. They smooth and polish each strand for easier styling.
- **5 Adjustable Temperature Settings:** Temperature range from 285°F to 430°F, allowing adjustment according to hair type and desired style. Features a digital LCD display for easy temperature monitoring.
- **Dual Voltage for Travel:** Supports 100-240V worldwide dual voltage, making it suitable for international travel.
- **PTC Rapid Heating:** Equipped with the latest PTC heating technology for continuous and stable heat, ensuring quick and effective styling.
- **Automatic Shut-Off:** Features a 60-minute automatic shutdown for enhanced safety.
- **360-Degree Swivel Cord:** Allows for free movement and prevents tangling during use.
- **Safety Lock:** A push-to-safe lock is included for convenient and safe storage.

GETTING STARTED

1. **Unpack:** Carefully remove the flat iron from its packaging. Retain packaging for future storage or transport.
2. **Inspect:** Check the appliance for any signs of damage. Do not use if the cord or plug is damaged.
3. **Plug In:** Insert the power plug into a suitable electrical outlet. Ensure the voltage matches the appliance's requirements (100-240V).
4. **Unlock (if applicable):** If the flat iron is in the locked position for storage, slide the safety lock button to release the plates.

OPERATION

1. **Power On:** Press and hold the power button (usually indicated by a power symbol) until the LCD display illuminates.
2. **Adjust Temperature:** Use the temperature control buttons (often '+' and '-' or a single button to cycle) to select your desired heat setting. The LCD display will show the current temperature. Recommended temperatures vary by hair type:
 - **285°F:** For fine, delicate, or color-treated hair.
 - **320°F - 360°F:** For normal or medium hair.
 - **395°F:** For thick, coarse, or very curly hair.

5 Temperature Settings

Create a variety of hairstyles as you like

Image: Visual guide to the five adjustable temperature settings and their suitability for different hair types.

3. **Heat Up:** Allow the flat iron to heat up to the selected temperature. The PTC heating technology ensures rapid heat-up.
4. **Prepare Hair:** Ensure hair is clean, dry, and detangled. For best results, apply a heat protectant spray.
5. **Straighten Hair:** Take a small section of hair (about 1-2 inches wide). Place the section between the heating plates, close the plates gently, and glide the straightener slowly and evenly from roots to ends. Repeat as necessary for desired straightness. The 3D floating plates will adjust to the hair thickness, preventing pulling.
6. **Power Off:** After use, press and hold the power button to turn off the appliance. The flat iron features a 60-minute automatic shut-off for safety, but it is recommended to manually turn it off.
7. **Unplug:** Disconnect the power cord from the electrical outlet.

CARE AND MAINTENANCE

- **Cleaning:** Ensure the flat iron is unplugged and completely cool before cleaning. Wipe the heating plates and exterior with a soft, damp cloth. Do not use abrasive cleaners or immerse the appliance in water.
- **Storage:** Once cool, engage the safety lock to keep the plates closed for compact storage. Store the flat iron in a dry place, away from moisture and out of reach of children. Do not wrap the power cord tightly around the appliance, as this can damage the cord.
- **Cord Care:** Regularly inspect the power cord for any damage. If the cord becomes twisted, gently untwist it. The 360-degree swivel cord is designed to minimize tangling during use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Flat iron does not turn on.	Not plugged in, power outlet issue, or internal fault.	Ensure the plug is fully inserted into a working outlet. Try a different outlet. If still not working, contact customer support.
Flat iron not heating up.	Not powered on, temperature not set, or internal heating element issue.	Ensure the device is powered on and a temperature is selected. Allow time for heating. If problem persists, contact customer support.
Temperature changes unexpectedly during use.	Accidental pressing of temperature control buttons.	Be mindful of hand placement during use to avoid inadvertently pressing buttons.
Hair gets pulled or snagged.	Hair not properly detangled, or plates not fully closed.	Ensure hair is thoroughly detangled before straightening. Take smaller sections of hair. The 3D floating plates are designed to minimize pulling.
Automatic shut-off activates too soon.	Normal operation (60-minute auto shut-off).	This is a safety feature. If you require longer styling time, you may need to restart the device.

SPECIFICATIONS

Feature	Detail
Product Dimensions	13 x 3.5 x 3.5 inches
Weight	1.01 Pounds
Brand	NOVUS
Model Number (ASIN)	B0CGNGGQT4
Material	Ceramic Tourmaline
