EVEREADY AA 10 Count

Eveready Ultima Alkaline AA Battery (10 Count) Instruction Manual

1. PRODUCT OVERVIEW

The Eveready Ultima Alkaline AA Battery is designed to provide reliable power for a wide range of electronic devices. Utilizing advanced alkaline technology, these batteries offer extended performance compared to standard zinc-carbon batteries. They are suitable for high-drain devices and incorporate features to protect your equipment.

Key Features:

- **High-Power Performance:** Engineered with alkaline technology for sustained energy output, providing 400% longer lasting performance in comparison to standard batteries for high energy-consuming devices.
- **Device Compatibility:** Ideal for high-drain devices such as toys, flashlights, Bluetooth mice, remote controls, and other household electronics.
- **Anti-Leak TurboLock Technology:** Designed to prevent leakage, offering protection for your valuable electronic devices against potential damage.
- **Long Shelf Life:** Maintains charge for up to 10 years when stored under proper conditions, ensuring readiness when needed.

2. SETUP INSTRUCTIONS

Follow these steps to correctly install Eveready Ultima Alkaline AA batteries into your devices:

1. **Identify Battery Compartment:** Locate the battery compartment on your electronic device. This is typically found on the back or bottom of the device.
2. **Open Compartment:** Open the battery compartment cover. This may involve sliding a latch, pressing a button, or unscrewing a small screw.
3. **Observe Polarity:** Inside the compartment, observe the positive (+) and negative (-) polarity markings. These indicate the correct orientation for battery insertion.
4. **Insert Batteries:** Insert the Eveready Ultima Alkaline AA batteries according to the polarity markings. Ensure the positive (+) end of the battery aligns with the positive (+) terminal in the compartment, and the negative (-) end aligns with the negative (-) terminal.
5. **Close Compartment:** Securely close the battery compartment cover. Ensure it is latched or screwed shut to prevent batteries from dislodging.
6. **Test Device:** Power on your device to confirm proper battery installation and functionality.

3. OPERATING GUIDELINES

Eveready Ultima Alkaline AA batteries are designed for single use and are not rechargeable. For optimal performance and safety, adhere to the following guidelines:

- **Correct Battery Type:** Always use the correct size and type of battery specified by your device manufacturer.
- **Replace All Batteries:** When replacing batteries in a device that uses multiple cells, replace all batteries simultaneously with new ones of the same type and brand. Mixing old and new batteries, or different types, can lead to reduced performance or leakage.
- **Remove from Unused Devices:** Remove batteries from devices that will not be used for extended periods to prevent potential leakage and damage.
- **Avoid Short Circuits:** Do not short-circuit batteries by connecting the positive and negative terminals directly. This can cause heat generation, leakage, or rupture.

- **Do Not Recharge:** These are primary (non-rechargeable) batteries. Attempting to recharge them can cause leakage, fire, or explosion.
- **Keep Away from Children:** Store batteries out of reach of small children to prevent accidental ingestion. If a battery is swallowed, seek immediate medical attention.

4. CARE AND MAINTENANCE

Proper care and maintenance ensure the longevity and safe operation of your Eveready Ultima Alkaline AA batteries:

- **Storage:** Store batteries in a cool, dry place at room temperature, away from direct sunlight and extreme temperatures. Avoid storing them in refrigerators or freezers.
- **Original Packaging:** Keep unused batteries in their original packaging until ready for use to prevent accidental short-circuiting.
- **Clean Contacts:** Periodically clean battery and device contacts with a clean, dry cloth to ensure good electrical connection.
- **Disposal:** Dispose of used batteries responsibly according to local regulations. Do not dispose of batteries in fire, as they may explode or leak.

5. TROUBLESHOOTING

If your device is not functioning correctly with Eveready Ultima Alkaline AA batteries, consider the following:

- **Device Not Powering On:**

- Check if batteries are inserted with correct polarity (+/-).
- Ensure battery and device contacts are clean and free of corrosion.
- Replace all batteries with a fresh set to rule out depleted cells.
- Verify the device itself is functional by testing with known good batteries.

- **Short Battery Life:**

- Ensure the device is not a high-drain application that rapidly consumes power.
- Avoid mixing old and new batteries, or different battery types, as this can reduce overall performance.
- Check for any device malfunctions that might cause excessive power draw.

- **Battery Leakage:**

- While Eveready Ultima batteries feature Anti-Leak Turbolock Technology, leakage can occur under extreme conditions (e.g., prolonged over-discharge, extreme heat, physical damage).
- If leakage occurs, carefully remove the battery, clean the compartment with a cotton swab dipped in vinegar (for alkaline residue), and dispose of the battery properly. Avoid direct contact with skin and eyes.

6. PRODUCT SPECIFICATIONS

Feature	Detail
---------	--------

Battery Type	Alkaline
Battery Size	AA
Voltage	1.5 Volts
Reusability	Single Use (Non-Rechargeable)
Net Quantity	10 Count
Item Weight	130 Grams (for the pack)
Item Dimensions (L x W x H)	22 x 12.8 x 1.6 Centimeters (packaging)
Shelf Life	Up to 10 years (when stored properly)
Country of Origin	Vietnam

7. WARRANTY INFORMATION

Eveready Ultima Alkaline AA Batteries come with a warranty of **10 Years from Manufacturing Date**. This warranty covers manufacturing defects. Please retain your purchase receipt for warranty claims. For specific terms and conditions, refer to the product packaging or contact customer support.

8. CUSTOMER SUPPORT

For any queries, assistance, or support regarding your Eveready Ultima Alkaline AA Batteries, please contact the manufacturer:

- **Manufacturer:** Eveready Industries India Ltd.
- **Address:** 2, Rainey Park, Kolkata, West Bengal, India - 700019
- **Importer Contact Information:** Eveready Industries India Ltd., 2, Rainey Park, Kolkata, West Bengal, India - 700019
- **Packer Contact Information:** Eveready Industries India Ltd., 2, Rainey Park, Kolkata, West Bengal, India - 700019
