INVIROX ULTRA K9 BLACK

INVIROX Ultra K9 Dog Training Collar User Manual

Model: ULTRA K9 BLACK

Brand: INVIROX

PRODUCT OVERVIEW

The INVIROX Ultra K9 Dog Training Collar is a top-notch training system designed to enhance communication with your dog. Featuring 124 training levels across four powerful modes (Beep, Vibration, Static Stimulation, and Night-Light), it offers precise control for dogs weighing 8 lbs to 150 lbs. The system boasts a 3/4 mile (1100 yards) range, IP67 waterproof rating for the collar, and IP65 for the remote, ensuring reliable performance in various conditions. Safety features like a keypad lock prevent accidental corrections, making it a safe and effective tool for professional-level dog training.

PACKAGE CONTENTS

- Remote Control
- Dog Training Collar (Receiver)
- Adjustable Collar Strap
- USB Charging Cable
- Test Light Tool
- Long and Short Contact Points (Probes)
- Wrist Strap / Lanyard

GETTING STARTED

Charging the Devices

Before first use, fully charge both the remote control and the collar receiver. The remote control battery lasts up to 45 days, and the collar receiver battery lasts up to 15 days per single charge. Use the provided USB charging cable.

Attaching the Collar

The collar is suitable for dogs as light as 8 lbs up to 150 lbs. The collar strap has a length of 27 inches and can be adjusted to fit various neck sizes. Ensure the contact points make proper contact with your dog's skin for effective stimulation. For dogs with longer hair, use the longer contact points provided.

MADE BY **VETERANS**

124 LEVELS OF CONTROL

Image: The collar is designed to fit all dog sizes, from 8 lbs to 150 lbs, as shown on various breeds.

Remote Control and Collar Overview

The ergonomic remote features a clear display and dedicated buttons for each mode. It includes a keypad lock to prevent accidental corrections. The collar receiver has a built-in night-light for visibility in low-light conditions.

The advertisement features a black and white dog, possibly a German Shepherd, wearing a glowing blue collar. The dog is shown in a dynamic, jumping pose against a dark background with a hexagonal pattern. To the left of the dog is a black remote control with a digital display showing '04' and several buttons. The remote is labeled 'INVIXO'. In the top right corner, there is a circular badge with the text 'Remote IP65' and 'E-Collar IP67', and a yellow banner with the word 'WATERPROOF'.

LIMITLESS K9 GEAR
ENDLESS POSSIBILITIES

PRECISE OPERATION

100% SAFETY

Image: Detail of the remote control showing the keypad lock feature and tactile buttons for blind operation, ensuring precise control.

OPERATING MODES

The Ultra K9 offers four distinct training modes:

- **Beep Mode:** Provides an audible tone. Adjustable from levels 1-8.
- **Vibration Mode:** Delivers a gentle vibration. Adjustable from levels 1-16.
- **Static Stimulation Mode:** Provides static correction. Adjustable from levels 1-99.
- **Night-Light Mode:** Activates a light on the collar for visibility in low-light conditions.

Range and Waterproofing

The system offers an impressive 3/4 mile (1100 yards) range, allowing for training in large open areas. Both the collar and remote are designed for durability in various weather conditions. The collar is IP67 waterproof, and the remote is IP65 waterproof.

EFFECTIVE TRAINING GUIDELINES

For effective and humane training, always start with the lowest correction level and gradually increase as needed. Use consistent commands and positive reinforcement. The collar is a communication tool, not a punishment device. It is recommended to consult with a professional dog trainer if you are new to e-collar training.

CARE AND MAINTENANCE

To ensure the longevity of your INVIROX Ultra K9 collar, regularly wipe down the collar and receiver with a damp cloth. Avoid using harsh chemicals or abrasive cleaners. Ensure the charging ports are

dry before plugging in the charger. Store the device in a cool, dry place when not in use.

For optimal battery performance, charge both the remote and collar regularly, even if not in constant use. Avoid completely draining the batteries before recharging.

TROUBLESHOOTING COMMON ISSUES

Problem	Possible Solution
Collar/Remote not turning on	Ensure devices are fully charged. Press and hold the power button for a few seconds until the indicator light appears.
No correction felt by dog	Check collar fit; ensure contact points are touching the skin. Adjust contact points if dog has long hair. Increase stimulation level gradually. Test the collar using the provided test light tool.
Remote display not working properly	Ensure the remote is charged. Try turning the remote off and on again. If the issue persists, contact customer support.
Accidental corrections	Utilize the keypad lock feature on the remote to prevent unintended button presses.
