SETUP AND CONNECTION

The Y02 Arcade Stick supports three primary connection methods: Wired, Bluetooth Wireless, and 2.4G Wireless. Choose the method most suitable for your device.

THREE CONNECTION MODES

Support wired, Bluetooth wireless, 2.4G wireless the third mock examination connection

Wired

Bluetooth Wireless

2.4G wireless

Figure 3: Visual representation of the three available connection modes for the Y02 Arcade Stick.

1. Wired Connection

1. Connect one end of the USB cable to the Y02 Arcade Stick.
2. Connect the other end of the USB cable to an available USB port on your PC, console (PS4, Switch in docked mode), or TV box.
3. The device should automatically recognize the arcade stick.

2. Bluetooth Wireless Connection (for Android, iOS, Switch, PS4)

1. Ensure the Y02 Arcade Stick is powered on.
2. On your device (phone, tablet, Switch, PS4), navigate to the Bluetooth settings.
3. Search for new devices. The arcade stick should appear as "Y02" or similar.
4. Select the arcade stick to pair. Once paired, the indicator light on the stick will confirm connection.

3. 2.4G Wireless Connection (for PC, TV Box)

1. Insert the 2.4G USB receiver (if included) into an available USB port on your PC or TV box.

2. Ensure the Y02 Arcade Stick is powered on and in 2.4G mode (refer to specific mode switch if available, otherwise it might auto-detect).
3. The connection should be established automatically.

OPERATING INSTRUCTIONS

Basic Controls

- **Joystick:** Directional control for movement and menu navigation.
- **Action Buttons (A, B, X, Y, R, L, R2, L2, M1, M2):** Perform in-game actions such as attacks, jumps, and special moves.
- **SELECT/BACK Button:** Typically used for selecting options or going back in menus.
- **START/MENU Button:** Used to pause games, open in-game menus, or confirm selections.
- **HOME Button:** Returns to the system's home screen or main menu.

TURBO Function

The TURBO function allows for continuous rapid input of a button press, useful for certain game mechanics.

ONE CLICK CONTINUOUS SENDING
CONTINUOUS ATTACK

TURBO

Support for adjusting burst speed:

<div>Low gear</div> <div>8 times per second</div> <div> </div>	<div>Mid range</div> <div>15 times per second</div> <div> </div>	<div>High gear</div> <div>25 times per second</div> <div> </div>
--	--	--

Figure 4: Illustration of the TURBO function and its three adjustable speed settings.

1. **To activate TURBO:** Press and hold the desired action button, then press the **TURBO** button once. The button will now continuously send input.
2. **To adjust TURBO speed:** While holding the **TURBO** button, move the joystick **UP** for faster speed or **DOWN** for slower speed. There are typically three speeds: Low (approx. 8 times/sec), Mid (approx. 15 times/sec), and High (approx. 25 times/sec).
3. **To deactivate TURBO:** Press and hold the action button that has TURBO enabled, then press the **TURBO** button again.

Macro Programming

The Y02 Arcade Stick supports macro programming, allowing you to record a sequence of button presses and assign them to a single button (e.g., M1 or M2).

(Specific instructions for macro programming are not detailed in the provided product information. Please refer to the manufacturer's official website or contact support for detailed steps if needed.)

COMPATIBILITY

The Y02 Wireless Arcade Stick is designed for broad compatibility across various gaming platforms.

MULTI PLATFORM APPLICABILITY

Figure 5: The Y02 Arcade Stick's wide range of compatible platforms.

- **Consoles:** PlayStation 4 (PS4), Nintendo Switch.
- **Computers:** PC (Windows operating systems).
- **Mobile Devices:** Android phones and tablets, iOS (MFI certified) phones and tablets.
- **Other:** TV Set-top boxes.

MAINTENANCE

- Keep the arcade stick clean by wiping it with a soft, dry cloth.
- Avoid exposing the device to extreme temperatures, direct sunlight, or high humidity.
- Do not use abrasive cleaners or solvents, as they may damage the surface.
- Store the arcade stick in a cool, dry place when not in use.
- Avoid dropping or subjecting the device to strong impacts.

TROUBLESHOOTING

Common Issues and Solutions

Problem	Possible Cause	Solution
Arcade stick does not power on.	Low battery or no power.	Ensure the device is charged or connected via USB.
Cannot connect wirelessly.	Incorrect pairing mode, interference, or out of range.	Ensure correct pairing procedure is followed. Move closer to the device. Check for other wireless devices causing interference.
Buttons or joystick unresponsive.	Connection issue or software glitch.	Reconnect the arcade stick. Restart the game or device. Check for firmware updates if available.
TURBO function not working.	Incorrect activation.	Ensure you are pressing the desired action button and then the TURBO button correctly.

If you encounter issues not listed here, please refer to the manufacturer's support resources or contact customer service.
