Acebaff CK241GL+CM621GL

Acebaff CK241GL+CM621GL Wireless Backlit Keyboard and Mouse Combo User Manual

INTRODUCTION

This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your Acebaff CK241GL+CM621GL Wireless Backlit Keyboard and Mouse Combo. Please read this manual thoroughly before use to ensure optimal performance and longevity of your devices.

PACKAGE CONTENTS

- 1 x Acebaff Wireless Backlit Keyboard
- 1 x Acebaff Wireless RGB Mouse
- 1 x 2.4GHz USB Receiver (stored in the mouse)
- 1 x Type-C Charging Cable
- 1 x User Manual

SETUP

1. Charging the Devices

Before first use, it is recommended to fully charge both the keyboard and mouse.

- Connect the provided Type-C charging cable to the charging port on the keyboard and mouse, and then to a USB power source.
- The keyboard has a 1000mAh battery, and the mouse has a 500mAh battery.
- A low battery indicator will alert you when charging is needed. Both devices can be used while charging.

Image: The keyboard and mouse connected via Type-C cable for charging, highlighting power-saving features and battery capacities.

2. Connecting the Keyboard and Mouse

The keyboard and mouse connect wirelessly via a single 2.4GHz USB receiver.

1. Locate the USB receiver. It is typically stored in a compartment on the underside of the mouse.
2. Plug the 2.4GHz USB receiver into an available USB port on your computer.
3. Turn on the power switch for both the keyboard and the mouse. The power switch for the keyboard is located on the top right, and for the mouse, it is on the bottom.
4. The devices are plug-and-play and should connect automatically within a few seconds. No additional software installation is required.

No Delays, No Dropouts

One USB Receiver Connects
Both the Keyboard and Mouse

- 2.4G Wireless Connection
- 2 in1 Receiver and Plug and Play
- 10m/33ft Wireless Range

OPERATING INSTRUCTIONS

1. Keyboard Features

- **Backlight Control:** The keyboard features a 7-color rainbow backlight. Adjust brightness using **Fn + End** keys. There are 4 adjustable brightness levels: Off, 30%, 60%, and 100%. Note: The keyboard backlight is rainbow only and cannot be adjusted to a single color.
- **Shortcut Keys:** The keyboard includes 11 independent shortcut keys and 13 F1-F12 function keys for enhanced productivity.
- **Phone/Tablet Holder:** An integrated 8.46-inch holder accommodates phones and tablets up to 12.9 inches, allowing for convenient multi-tasking. Note: This holder is for viewing only and does not connect or interact with the keyboard. Thick protective cases may not be supported.
- **Dual System Compatibility:** Dedicated buttons allow switching between Windows and Mac OS layouts.
- **Ergonomics:** The keyboard features a foldable stand for an 8-degree typing angle and anti-slip rubber feet for stability.

Build in Phone & Tablet Holder

- Compatible with phones and tablets from 5.8 to 12.9 inches
- Easy access to videos, documents and other entertainments with phone and tablets

Note: The keyboard can only hold phones and tablets ,Not work with them

Note : Thick protective cases may not be supported

3. Power Saving Features

- **Automatic Backlight Off:** The keyboard backlight automatically turns off after 90 seconds of inactivity to conserve power.
- **Auto-Sleep Mode:** Both the keyboard and mouse will enter sleep mode after 10 minutes of inactivity. Move the mouse or press any key to wake them up.
- **Independent Power Switches:** Both devices have separate power switches to manually turn them off and save battery life when not in use.

MAINTENANCE

1. Cleaning

- Turn off both the keyboard and mouse before cleaning.

- Use a soft, damp cloth to wipe the surfaces. Avoid using harsh chemicals or abrasive materials.
- For dust and debris between keys, use compressed air.

2. Battery Care

- Charge the devices regularly to maintain battery health.
- Avoid exposing the devices to extreme temperatures, which can affect battery performance.
- If storing for an extended period, charge the devices to about 50% and turn them off.

TROUBLESHOOTING

Problem	Possible Solution
Keyboard/Mouse not responding	• Ensure both devices are powered on. • Check if the USB receiver is securely plugged into your computer. • Try plugging the USB receiver into a different USB port. • Ensure devices are within the 10m (33ft) wireless range. • Recharge the keyboard and mouse if the battery is low.
Backlight not working on keyboard	• Press Fn + End to cycle through brightness levels and ensure it's not set to 'Off'. • Check if the keyboard has sufficient battery charge. • Ensure the separate backlight switch (if present) is on.
Mouse RGB lighting not changing	• Press the LED Mode Switch on the bottom of the mouse to cycle through the 22 RGB effects. • Check mouse battery level.
Keys feel sticky or unresponsive	• Clean around and under the affected keys using compressed air. • If a specific key is consistently sticking, gently try to reseal it.
Short battery life	• Ensure the keyboard and mouse are fully charged. • Utilize the independent power switches to turn off devices when not in use. • Reduce keyboard backlight brightness or turn it off when not needed.
