- **3.5mm Audio Jack:** For wired connection when battery is depleted or for non-Bluetooth devices.
- **MicroSD Card Slot:** For playing music directly from a MicroSD card.
- **LED Indicator:** Shows connection status and charging status.

SETUP

1. Charging the Headphones

Before first use, fully charge your headphones. Connect the Micro-USB charging cable to the headphone's Micro-USB port and the other end to a USB power source (e.g., computer, wall adapter). The LED indicator will show the charging status and turn off or change color when fully charged.

Charging time: Approximately 1.5 hours.

2. Power On/Off

- **To Power On:** Long press the Play/Pause button until the LED indicator lights up and you hear a power-on prompt.
- **To Power Off:** Long press the Play/Pause button until the LED indicator turns off and you hear a power-off prompt.

3. Bluetooth Pairing

After powering on, the headphones will automatically enter pairing mode if not connected to a device. The LED indicator will flash, indicating it's ready to pair.

1. Ensure your headphones are powered on and in pairing mode.
2. On your mobile device (smartphone, tablet, laptop), enable Bluetooth.
3. Search for available Bluetooth devices. Select "KSIX Retro 2" from the list.
4. Once connected, the LED indicator will stop flashing and remain solid, and you will hear a connection confirmation.

The headphones will automatically attempt to reconnect to the last paired device when powered on.

OPERATING INSTRUCTIONS

1. Music Playback

- **Play/Pause:** Press the Play/Pause button.
- **Volume Up:** Press the '+' button.
- **Volume Down:** Press the '-' button.
- **Next Track:** Long press the '+' button.
- **Previous Track:** Long press the '-' button.

2. Call Management

Thanks to the integrated microphone, you can manage calls directly from your headphones.

- **Answer Call:** Press the Play/Pause button.
- **End Call:** Press the Play/Pause button during a call.
- **Reject Call:** Long press the Play/Pause button when an incoming call rings.

3. Audio Modes

- **Activate Voice Assistant:** Long press the Play/Pause button (after a short press to play/pause, if music is playing) to activate your device's voice assistant.
- You can then use voice commands for calls, music control, and other functions.

ENVIRONMENTAL NOISE CANCELLATION (ENC)

The KSIX Retro 2 headphones feature ENC technology, which significantly reduces background noise during phone calls.

¡Adiós ruido innecesario!

ENC elimina el sonido de fondo cuando se
realizan llamadas

ENC uses the headphone's microphone to detect external sounds and generates an opposing sound wave to cancel them out. This ensures that your voice is captured with high clarity, preventing unwanted background noise from being heard by the person you are speaking with.

BATTERY INFORMATION

The KSIX Retro 2 headphones offer extended battery life for uninterrupted listening.

- **Battery Life:** Up to 8 hours of continuous music playback.
- **Charging Time:** Approximately 1.5 hours for a full charge.
- **Low Battery:** The LED indicator will flash or change color to indicate low battery. A voice prompt may also sound.
- **Wired Use:** If the battery runs out, you can continue using the headphones by connecting the included 3.5mm audio jack cable to your device.

MAINTENANCE

- Clean the headphones regularly with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Avoid exposing the headphones to extreme temperatures, humidity, or direct sunlight.
- Store the headphones in a cool, dry place when not in use.
- Do not attempt to disassemble or repair the headphones yourself, as this will void the warranty.
- Keep the charging port and audio jack free of dust and debris.

Troubleshooting

Problem	Possible Cause	Solution
Headphones do not power on.	Low battery.	Charge the headphones fully.
Cannot pair with device.	Bluetooth is off on device; headphones not in pairing mode; device too far.	Ensure Bluetooth is enabled on your device. Power off and on headphones to enter pairing mode. Move device closer to headphones.
No sound.	Volume too low; incorrect audio mode; not connected.	Increase volume on headphones and device. Check if headphones are in the correct audio mode (Bluetooth, FM, MicroSD). Ensure headphones are successfully paired.
Poor call quality.	Weak signal; environmental noise.	Move to an area with better signal. ENC should reduce background noise, but extreme noise may still affect quality.
MicroSD card not recognized.	Card inserted incorrectly; unsupported file format; faulty card.	Reinsert the MicroSD card correctly. Ensure files are in MP3 format. Try a different MicroSD card.
