What's in the Box

- 1x JOYROOM Portable Wireless Charger (Model: JR-WQW01)
- 1x 3.3ft USB-C Charging Cable

- 1x User Manual

Product Overview

The JOYROOM Portable Wireless Charger is a compact, keychain-style power bank specifically designed for Apple Watch models. It features a built-in magnetic charging module for secure attachment and efficient power transfer. The device includes a digital display to show the precise battery level, allowing for accurate power management.

Setup

1. **Initial Charging of the Power Bank:** Before first use, fully charge your JOYROOM Portable Wireless Charger using the provided 3.3ft USB-C charging cable. Connect the USB-C cable to the charger's port and plug the other end into a compatible USB power adapter (not included). The digital display will show the charging progress.
2. **Power On:** Press the power button once to turn on the charger. The digital display will illuminate, showing the current battery percentage.

 **Power on**
Press once

 **Power off**
Press twice

Don't worry if you forget to turn it off,
the charger can be auto shutdown after
removing the device for 30s

Operating Instructions

1. **Charging Your Apple Watch:** Place your Apple Watch onto the magnetic charging module of the JOYROOM charger. The built-in magnetic suction module will automatically align the watch for optimal charging. Ensure the charger is powered on.
2. **Monitoring Battery Level:** The precise digital display on the charger shows the remaining power percentage, allowing you to monitor the charger's battery status.
3. **Automatic Shut-off:** The charger is designed to auto-shutdown after 30 seconds if no device is detected or after charging is complete, conserving power.
4. **Manual Power Off:** To manually turn off the charger, press the power button twice.

More Stable Charging

Enhanced Magnetic Force & Automatic Alignment

Compatibility

The JOYROOM Portable Wireless Charger is compatible with all Apple Watch series, including:

- Apple Watch Series 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11
- Apple Watch SE, SE2, SE3
- Apple Watch Ultra, Ultra 2, Ultra 3

Widely Compatibility

Specially Designed for
Apple Watch

Image: A visual guide demonstrating the wide compatibility of the JOYROOM charger with numerous Apple Watch models, from Series 1 to Ultra 3.

Charging Performance

- **Battery Capacity:** True 2000mAh capacity.
- **Apple Watch Series (1-11/SE):** Fully charges in approximately 1.5-2 hours. Can provide 3-4 full charges.
- **Apple Watch Ultra (1-3):** Fully charges in approximately 2.5-3 hours. Can provide 2 full charges.
- **Fast Charging:** Capable of charging an Apple Watch to 50% in 30-60 minutes (exact time depends on the specific Apple Watch model's battery capacity).

Safety Information

The JOYROOM Portable Wireless Charger is equipped with multiple protection features to ensure safe charging:

- Over-voltage Protection
- Over-current Protection
- Short Circuit Protection
- Over-temperature Protection

The product has received FCC & UL professional security certifications.

Over-temperature Protection

Image: Certifications (FCC & UL) and safety icons (Over-voltage, Over-current, Short-circuit, Over-temperature Protection) are displayed, emphasizing the product's safety standards.

Maintenance

- Keep the charger dry and away from moisture.
- Avoid exposing the charger to extreme temperatures (hot or cold).
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the charger in a safe place when not in use, ideally attached to your keys or backpack using the reinforced keychain.

Troubleshooting

- **Device not charging:**
 - Ensure the JOYROOM charger is powered on (press the power button once).
 - Check if the charger itself has sufficient battery level. Recharge if necessary.
 - Verify that your Apple Watch is correctly aligned and securely attached to the magnetic charging module.
 - Ensure the Apple Watch is compatible with the charger (all Apple Watch series are supported).
- **Digital display not working:**
 - Press the power button once to activate the display.
 - If the display remains off, the charger's battery might be completely depleted. Connect it to a power source for charging.
- **Slow charging:**
 - Ensure the charger has a high enough battery percentage. Charging performance may decrease at very low battery levels.
 - Confirm proper alignment of the Apple Watch on the magnetic module.

Specifications

Feature	Detail
Model Number	JR-WQW01
Battery Capacity	2000mAh
