Type-C Charging

Image: POGOLAB Mini Guitar Amp being charged via its USB-C port.

The amplifier has a built-in 2400mAh rechargeable lithium battery. Before first use, fully charge the device.

- Connect the provided USB charging cable to the DC 5V port on the amplifier.
- Plug the other end of the USB cable into a compatible USB power adapter (not included).
- A red indicator light will illuminate during charging. The light will turn off when fully charged.
- A full charge takes approximately 2 hours and provides up to 3 hours of playing time.

4.2 Powering On/Off

- To turn ON the amplifier, rotate the POWER switch clockwise. The MASTER LED will light up.
- To turn OFF the amplifier, rotate the POWER switch counter-clockwise until it clicks.

5. OPERATING INSTRUCTIONS

5.1 Connecting Your Guitar

- Ensure the amplifier is powered on.
- Connect your electric guitar to the INPUT jack (6.35mm) using a standard guitar cable.

5.2 Switching Channels (Clean/Drive)

TWO CHANNELS SOUND EFFECTS FOR SWITCH

Image: POGOLAB Mini Guitar Amp with indicators for Clean and Drive channels.

The amplifier features two distinct sound channels:

- Press the DR/CL switch to toggle between Clean and Drive modes.
- A green LED indicates the Clean channel is active.
- A red LED indicates the Drive channel is active.
- Adjust the DRIVE VOL and DRIVE knobs to fine-tune the sound of the Drive channel.

5.3 Bluetooth Connectivity

Image: POGOLAB Mini Guitar Amp demonstrating wireless Bluetooth connection with a smartphone.

Connect your smartphone or other Bluetooth-enabled device to play backing tracks or music.

- Press the BT button to activate Bluetooth mode. The BT LED indicator will blink.
- On your device, search for Bluetooth devices and select "S3" to pair.
- Once paired, the BT LED will remain solid.
- Adjust the AUX VOL knob to control the volume of the Bluetooth audio.

5.4 Headphone Use

For private practice, connect headphones to the 3.5mm Headphone Output jack.

- Plug your headphones into the dedicated headphone jack.
- The main speaker output will be muted automatically.
- Adjust the MASTER volume knob to control headphone volume.

5.5 Tone and Volume Adjustment

- Use the TONE knob to adjust the equalization of your guitar sound.
- The MASTER knob controls the overall output volume of the amplifier.

6. MAINTENANCE

- Clean the amplifier with a soft, dry cloth. Do not use liquid cleaners.
- Avoid exposing the amplifier to extreme temperatures, direct sunlight, or high humidity.
- Do not attempt to disassemble or repair the unit yourself. Contact support for assistance.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from guitar	Guitar cable not connected properly; Volume knobs too low; Amplifier not powered on.	Ensure cable is secure; Increase MASTER volume; Turn on amplifier.
Poor sound quality	TONE or DRIVE settings incorrect; Low battery.	Adjust TONE and DRIVE knobs; Recharge amplifier.
Bluetooth not connecting	Bluetooth not activated; Device not in pairing mode.	Press BT button (LED blinking); Ensure device is discoverable.
Amplifier not charging	USB cable or adapter faulty; Charging port damaged.	Try a different USB cable/adapter; Contact support.
