7. TROUBLESHOOTING

If you encounter issues with your Bestier L-Shaped Corner Desk, refer to the following common problems and solutions:

- **Check Power Connection:** Ensure the desk's main power cord is securely plugged into a functional wall outlet.
- **Power Strip Switch:** Verify that the power switch on the integrated power strip is in the 'ON' position.
- **Circuit Breaker:** Check your home's circuit breaker panel to ensure the outlet is receiving power.

- **Power Connection:** Confirm the desk is powered on and the power strip is active.
- **Control Button/Remote:** Ensure you are using the LED control button or remote correctly. Try cycling through modes.
- **Connections:** Check if the LED strip's power cable is securely connected to its power source (usually within the desk's wiring).

7.3 Desk Instability or Wobbling

- **Tighten Fasteners:** Re-check and tighten all assembly screws and bolts.
- **Level Surface:** Ensure the desk is placed on a flat, level surface. Use the adjustable feet (if present) to compensate for uneven flooring.
