# buuo Self Heating Coffee Mug Instruction Manual

Brand: buuo | Model: B0CGV9V7K3

## 1. INTRODUCTION AND OVERVIEW

---

Thank you for choosing the buuo Self Heating Coffee Mug. This innovative 14 oz temperature control smart mug is designed to keep your beverages at the perfect temperature for extended periods, enhancing your daily coffee or tea experience. Featuring a double-sided LED display for real-time temperature, fast heating capabilities, and a long-lasting battery, this mug is ideal for home, office, or on-the-go use.

## 2. PRODUCT FEATURES

---

- **Always the Perfect Temperature:** Choose from three precise temperature settings: Warm (120°F), Hot (135°F), or Piping Hot (150°F) to ensure your drink is always at your preferred heat.

# 3 Temperature settings One-click switch on

120°F/40°C

Low-temp

135°F/55°C

Middle-temp

150°F/65°C

High-temp

Figure 2: Three distinct temperature settings for personalized beverage enjoyment.

- **Long-Lasting Battery Performance:** Equipped with a built-in 2550 mAh lithium battery, the mug can maintain a temperature of 120°F for up to two hours on a full charge, perfect for extended use.
- **Convenient Operation:** Features a simple one-button design for ease of use. The dual-sided LED display provides real-time temperature readings, accommodating both left and right-handed users.

# HUMANIZATION DESIGN

Double Sided & Real-Time LED Display  
Obtain real-time temperature at the first time

Figure 3: The mug's humanized design with a double-sided LED display.

- **Durable & Safe Design:** Crafted with a scratch-resistant coating and sturdy 304 stainless steel. It is IPX7 waterproof for safe hand washing and includes an auto shut-off feature to prevent overheating when empty. A non-slip base ensures stability.

Figure 4: The mug is IPX7 waterproof for easy and safe cleaning.

- **Versatile for Every Occasion:** Seamlessly fits into any lifestyle, whether at home, in the office, or during outdoor activities, ensuring your favorite beverages are always at the right temperature.

### 3. SETUP

---

1. **Unpack:** Carefully remove all components from the packaging: the buuo Self Heating Coffee Mug, the charging base, and the spill-proof lid.
2. **Initial Charge:** Before first use, fully charge the mug. Place the mug onto the charging base. Connect the charging base to a power source using the provided cable. The LED display will indicate charging status.
3. **First Use:** For optimal performance, ensure the mug is fully charged before its initial use.

### 4. OPERATING INSTRUCTIONS

Operating your buuo Self Heating Coffee Mug is simple and intuitive.

Figure 5: Quick guide to using your buuo Self Heating Mug.

- Power On:** Place the mug onto the charging base. Press the power button located on the base once to turn on the heating function. The LED display will illuminate, showing the current temperature.
- Select Temperature:** With each subsequent press of the power button, cycle through the three temperature settings: 120°F (Warm), 135°F (Hot), and 150°F (Piping Hot). The display will show the selected temperature.
- Pour Beverage:** Pour your desired hot or cold beverage into the mug. The mug will begin to heat or maintain the liquid at the selected temperature.
- Use Lid (Optional):** For best heat retention and to prevent spills, place the spill-proof lid securely on the mug.
- Power Off:** To turn off the heating function, press and hold the power button until the display turns off. The mug will also automatically shut off when empty to prevent overheating.

## Estimated Use Time

The following table provides estimated heat retention times based on various settings:

### ESTIMATED USE TIME AT VARIOUS SETTINGS OF BUUO

Each sip remains as inviting as the first.

Estimated Use Time at Various Settings of BUUO				
Temp. Setting	OFF COASTER		ON COASTER	
	With lid	Without lid	With lid	Without lid
WARM 120°F/48°C	4h 20min	2h 10min	Indefinite	Indefinite
HOT 135°F/57°C	3h 30min	1h 40min	Indefinite	Indefinite
PIPING 150°F/65C	3h 10min	1h	Indefinite	Indefinite

\*Data based on 14 oz mug, coffee brewed at 195-205°F (average brew temperature), mug start temperature of 176°F, fully charged battery.

*\*Data based on 14 oz mug, coffee brewed at 195-205°F (average brew temperature), mug start temperature of 176°F, fully charged battery.*

## 5. MAINTENANCE

Proper care ensures the longevity and performance of your buuo mug.

- Cleaning:** The mug is IPX7 waterproof and safe for hand washing. Do not submerge the charging base in water. Use a soft sponge and mild detergent to clean the mug's interior and exterior. Rinse thoroughly.
- Drying:** Ensure the mug is completely dry before placing it back on the charging base.
- Storage:** Store the mug and charging base in a cool, dry place when not in use.

## 6. TROUBLESHOOTING

If you encounter any issues with your buuo Self Heating Coffee Mug, please refer to the following common solutions:

Problem	Possible Cause	Solution
Mug not heating or not reaching desired temperature.	Low battery; Mug not properly seated on base; Incorrect temperature setting; Initial liquid temperature too low.	Ensure mug is fully charged. Verify mug is correctly placed on the charging base. Check that the desired temperature setting is selected. For best results, pour in already hot liquid.
Short battery life.	Frequent use on highest temperature setting; Battery degradation over time.	Lower temperature setting for longer battery life. Keep mug on charging base when not actively holding it to maintain charge.
LED display not working.	Mug not powered on; Battery depleted; Malfunction.	Press the power button to turn on. Charge the mug fully. If issue persists, contact customer support.
Charging issues (e.g., incorrect plug).	Incompatible power adapter/plug for region.	Ensure you are using the correct power adapter and plug type for your region. Do not use incompatible adapters.

If the problem persists after attempting these solutions, please contact buuo customer support for further assistance.

## 7. SPECIFICATIONS

Feature	Detail
Capacity	14 ounces
Maximum Temperature	150°F (65°C)
Product Dimensions	4.1 x 4.1 x 4.1 inches
Item Weight	1.18 pounds
Material	Premium Stainless-Steel Body with Scratch Resistant Ceramic Coating
Power Source	Battery Powered (2550 mAh Lithium Battery)
Waterproof Rating	IPX7
UPC	717164574031
Model Number (ASIN)	B0CGV9V7K3
Manufacture Year	2023
Country of Origin	China
