SETUP AND ASSEMBLY INSTRUCTIONS

This product requires assembly. It is highly recommended that two adults perform the assembly. Ensure you have

ample space and all components before beginning.

1. Unpacking and Part Identification

1. Carefully unpack all components from the boxes. Note that the product may arrive in multiple packages over several days.
2. Lay out all parts on a clean, soft surface (e.g., a carpet or blanket) to prevent scratches.
3. Refer to the included parts list (not provided in this manual, but typically included with the product) to identify and count all hardware and structural components. Contact customer support immediately if any parts are missing or damaged.

2. Frame Assembly

1. Begin by assembling the main vertical support posts. Connect them using the horizontal crossbars as indicated in the product's specific assembly diagram.
2. Attach the bed frame rails to the vertical posts. Ensure all bolts are finger-tightened initially.
3. Install the full-length guardrails onto the bed frame.
4. Secure the ladder to the designated attachment points on the bed frame.

3. Desk and Shelf Installation

1. Attach the desk surface to the frame supports underneath the bed.
2. Install the two shelves above the desk, ensuring they are level and securely fastened.

4. Slat Installation

1. Place the 20 heavy-duty metal slats across the bed frame. Ensure each slat is properly seated and secured according to the product's specific instructions.
2. Verify that the support bar is correctly installed for added security.

5. Final Tightening and Inspection

1. Once all components are in place, systematically tighten all bolts and fasteners using the provided tools. Do not overtighten.
2. Gently shake the assembled bed to check for stability. If any wobbling occurs, re-check all connections and tighten as necessary.
3. Ensure all guardrails are firmly attached and there are no sharp edges or exposed hardware.

The black finish of the metal frame is visible.

OPERATING AND USAGE GUIDELINES

To ensure safe and proper use of your BIADNBZ Loft Bed, please follow these guidelines:

- **Bed Usage:** The top bunk is intended for sleeping only. Do not jump on the bed.
- **Ladder Use:** Always use the ladder to access and exit the loft bed. Face the ladder when climbing up or down.
- **Desk and Shelves:** The integrated desk and shelves are designed for light use, such as holding books, a laptop, or study materials. Do not overload the shelves or desk.
- **Weight Distribution:** Distribute weight evenly on the bed. Avoid concentrating heavy loads in one area.
- **Children:** Supervise young children around the loft bed to prevent accidents.

It shows the wooden-look surfaces of the desk and shelves, providing a functional workspace and storage area. The sturdy metal frame supporting these components is also visible.

MAINTENANCE

Regular maintenance will help prolong the life and ensure the safety of your loft bed.

- **Cleaning:** Wipe down the metal frame and wooden surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Fastener Check:** Periodically (e.g., every 3-6 months) check all bolts, screws, and fasteners to ensure they are tight. Re-tighten as necessary to maintain stability.
- **Structural Integrity:** Inspect the bed frame, guardrails, and ladder for any signs of damage, bending, or wear. If any damage is found, discontinue use and contact customer support for replacement parts or advice.
- **Mattress Condition:** Ensure your mattress remains within the recommended thickness (4-6 inches) to maintain effective guardrail height.

TROUBLESHOOTING

If you encounter any issues with your BIADNBZ Loft Bed, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose fasteners; uneven floor; incorrect assembly.	◦ Ensure all bolts and screws are securely tightened. ◦ Check if the bed is on a level surface. Adjust if necessary. ◦ Review assembly instructions to confirm all parts are correctly installed.
Squeaking noises.	Loose connections; metal-on-metal friction.	◦ Tighten all fasteners. ◦ Apply a small amount of silicone lubricant or wax to metal-on-metal contact points if tightening does not resolve the issue.
Missing parts or damaged components upon arrival.	Shipping damage; packaging error.	◦ Do not proceed with assembly. ◦ Contact BIADNBZ customer support immediately with your purchase details and a description of the missing/damaged parts.
