Winco UC-2415K

Winco UC-2415K Utility Cart User Manual

INTRODUCTION

This manual provides instructions for the assembly, operation, and maintenance of your Winco UC-2415K Utility Cart. Please read this manual thoroughly before use to ensure safe and efficient operation.

SAFETY INFORMATION

- Do not exceed the maximum weight capacity of 330 pounds.
- Ensure all components are securely assembled before use.
- Engage wheel brakes when the cart is stationary to prevent unintended movement.
- Distribute weight evenly across shelves.
- Avoid using the cart on uneven or sloped surfaces without proper precautions.
- Keep hands and feet clear of moving parts, especially casters.

PACKAGE CONTENTS

Before assembly, verify that all parts are present:

- 3 x Polypropylene Shelves
- 4 x Posts (likely aluminum or plastic)
- 4 x Swivel Casters (2 with brakes)
- Assembly Hardware (e.g., screws, washers, if applicable)

SETUP AND ASSEMBLY

Assembly is required. Follow these steps to set up your utility cart:

1. **Attach Casters:** Carefully turn one of the shelves upside down. Insert the stems of the four swivel casters into the designated holes at each corner of the shelf. Ensure they are firmly seated. Two of the casters have brakes; it is recommended to place these on the same side for easier access.

2. **Install Posts:** Insert the bottom ends of the four posts into the corner sockets of the shelf with the attached casters. Ensure they are fully inserted and stable.
3. **Add Middle Shelf:** Slide the middle shelf down over the four posts, aligning the corner holes with the posts. Press down firmly until the shelf is securely in place.
4. **Add Top Shelf:** Place the top shelf onto the remaining exposed ends of the posts, aligning the corner holes. Press down firmly until the shelf is securely in place. The top shelf often has integrated handles.
5. **Final Check:** Once all shelves are in place, gently rock the cart to ensure all connections are secure and the cart is stable.

OPERATING INSTRUCTIONS

1. **Loading the Cart:** Distribute items evenly across the three shelves, ensuring the total weight does not exceed 330 pounds. Place heavier items on lower shelves for better stability.
2. **Maneuvering:** The cart is equipped with four swivel casters for easy movement. Use the integrated handles on the top shelf to push or pull the cart.
3. **Braking:** When the cart needs to remain stationary, engage the brakes on the two designated casters by pressing down on the lever. To release, lift the lever.

MAINTENANCE

To ensure the longevity and hygiene of your Winco Utility Cart:

- **Cleaning:** The polypropylene shelves are designed for easy cleaning. Wipe down all surfaces with a damp cloth and mild detergent. Rinse thoroughly and dry. Avoid abrasive cleaners that may damage the plastic.
- **Caster Care:** Periodically check casters for debris (e.g., hair, string) that may impede movement. Clean as necessary.

- Lubricate caster axles if movement becomes stiff.
- **Inspection:** Regularly inspect all connections and hardware to ensure they remain tight and secure. Tighten any loose screws or fittings.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cart is difficult to move.	Caster brakes are engaged; debris in casters; overloaded cart.	Release brakes; clean casters; reduce load.
Cart feels wobbly or unstable.	Loose connections; uneven load distribution.	Check and tighten all assembly points; redistribute load evenly.
Brakes not holding.	Brake mechanism worn or damaged.	Inspect brakes for damage. Contact customer support if replacement is needed.

SPECIFICATIONS

Feature	Detail
Model Number	UC-2415K
Product Dimensions (L x W x H)	32"D x 16"W x 36.5"H
Material	Plastic (Polypropylene shelves, Plastic frame)
Color	Black
Number of Shelves	3
Weight Capacity	330 Pounds
Caster Type	4 Swivel Casters (2 with brakes)
Item Weight	17.5 Pounds
Assembly Required	Yes
