Dpofirs Dpofirpsf7vo0zt6

User Manual: Zello Wireless PTT Button

Brand: **Dpofirs** | Model: **Dpofirpsf7vo0zt6**

PRODUCT OVERVIEW

The Dpofirs Zello Wireless PTT Button is a robust and waterproof remote control designed for seamless communication using the Zello Push-to-Talk application on Android devices. It offers convenient, hands-free operation, enhancing communication efficiency in various environments, from outdoor activities to professional settings.

Key features include:

- **Convenient and Efficient Communication:** Enables quick and effortless communication by simply pressing a button, eliminating the need to handle your phone.
- **Waterproof Design (IP67):** Ensures full functionality even in challenging weather conditions, providing reliability against rain and splashes.
- **Robust and Durable Construction:** Built to withstand accidental drops and impacts, making it suitable for active and professional use.
- **Wireless and Hands-Free Operation:** Allows users to keep their phone safely stored while communicating, ideal for activities requiring both hands.
- **Versatile Compatibility:** Designed to work seamlessly with the Zello Push-to-Talk app on Android devices.

SETUP GUIDE

Follow these steps to set up your Dpofirs Zello Wireless PTT Button:

1. **Battery Installation:** For first-time use, it is necessary to install the button cell battery. The button cell is designed for easy replacement.
2. **Charge Phone:** Ensure your Android device has sufficient battery life.
3. **Install Zello App:** Download and install the Zello Push-to-Talk application from your device's app store.
4. **Pairing with Zello:**
 - Open the Zello application on your Android device.
 - Navigate to the settings or options menu within Zello to find the "Push-to-Talk Buttons" or "Bluetooth Devices" section.
 - Follow the on-screen instructions to pair the Dpofirs Wireless PTT Button with your Zello app. The button will

typically appear as a discoverable Bluetooth device.

- Once paired, you can assign the PTT button to activate the push-to-talk function within Zello.

OPERATING INSTRUCTIONS

Using your Dpofirs Zello Wireless PTT Button is straightforward:

1. **Activate Zello:** Ensure the Zello app is running on your paired Android device.
2. **Initiate Communication:** To speak, simply press and hold the PTT button. Your voice will be transmitted through the Zello network to your designated contacts or channels.
3. **End Communication:** Release the PTT button to stop transmitting.
4. **Hands-Free Use:** The wireless design allows you to keep your phone in a pocket or mounted securely while using the PTT button for communication, ideal for activities like driving, cycling, or hiking.

SET UP DESIGNATED PERSONNEL

EASY PUSH TO TALK WHILE DRIVING

MAINTENANCE

To ensure the longevity and optimal performance of your PTT button:

- **Cleaning:** Wipe the button with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Water Exposure:** While the device is IP67 waterproof, meaning it can withstand submersion up to 1 meter for 30 minutes, it is recommended to dry it thoroughly after exposure to water to prevent mineral buildup or residue.
- **Battery Replacement:** The button operates on a button cell battery. When the battery is depleted (indicated by reduced functionality or no response), it can be easily replaced. Refer to the product packaging or manufacturer's guidelines for the specific battery type. The battery offers a long standby time, with working days exceeding 200 days.
- **Storage:** Store the device in a cool, dry place when not in use.

NO CHARGING REQUIRED BUTTON CELL IS EASY TO REPLACE

Push to
talk

Long standby time, low power consumption
working days > 200 days
When using for the first time
it is necessary to install the battery before use

TROUBLESHOOTING

If you encounter issues with your Dpofirs Zello Wireless PTT Button, try the following solutions:

- **Button Not Responding:**
 - Ensure the battery is correctly installed and not depleted. Replace if necessary.
 - Check if the button is properly paired with your Zello app. Re-pair if the connection is lost.
 - Ensure Bluetooth is enabled on your Android device.
- **Voice Not Transmitting:**
 - Verify that the Zello app is open and active on your phone.
 - Check your internet connection (Wi-Fi or mobile data) as Zello requires it for communication.
 - Ensure Zello has microphone permissions on your device.

- **Intermittent Connection:**

- Move closer to your paired Android device to ensure a stable Bluetooth connection.
- Restart both your Android device and the PTT button (by removing and reinserting the battery if possible).
