3-Link TB1

3-Link TB1 Solar Wireless Security Camera User Manual

Model: TB1 | Brand: 3-Link

INTRODUCTION

Thank you for choosing the 3-Link TB1 Solar Wireless Security Camera. This manual provides essential information for setting up, operating, and maintaining your camera to ensure optimal performance and enhance your home security. This camera is designed for outdoor use, offering reliable surveillance with the convenience of solar power.

Key Features:

- **No Monthly Fee:** Utilize SD card storage or cloud storage for motion detection recording clips without additional costs (event-based recording only).
- **Motion-Activated Spotlight:** Integrated spotlight illuminates upon motion detection to deter intruders.
- **Motion Detection Alert:** Receive instant message alerts via the app when motion is detected near your property.
- **Night Vision:** Built-in infrared LEDs provide clear visibility even in complete darkness.
- **Works with Alexa:** Seamlessly integrate with Alexa-enabled devices for voice control of live view, arming, and disarming (2.4G Wi-Fi only).

WHAT'S IN THE BOX

Please ensure all components are present before beginning installation:

- 1 x 3-Link TB1 Camera
- 1 x Wall Mount
- 1 x Power Cable
- 1 x Solar Panel

SETUP GUIDE

1. Camera Placement and Solar Panel Connection

Choose an outdoor location with optimal sunlight exposure for the solar panel and a clear view for the camera. Ensure the camera is within range of your 2.4G Wi-Fi network. Mount the camera and solar panel securely using the provided wall mount and hardware.

The 3-Link TB1 camera is designed to be continuously powered by its solar panel, eliminating the need for frequent

manual charging.

2. App Download and Configuration

Download the official 3-Link app from your smartphone's app store. Follow the in-app instructions to pair your camera with your Wi-Fi network. Ensure your Wi-Fi is 2.4G, as 5G networks are not compatible.

3. Initial Charge (Optional but Recommended)

Although solar-powered, an initial charge via the power cable can expedite the setup process and ensure the camera has sufficient power for its first operation, especially in low-light conditions.

OPERATING INSTRUCTIONS

Motion Detection and Alerts

The camera is equipped with advanced motion detection. When movement is detected, the camera will automatically begin recording and send an instant alert message to your connected app. This feature ensures you are immediately notified of any activity around your home.

3-link Cam

Dear customer, your device: 3-link Cam, the alarm: motion detection alarm, alarm time: 2024-05-14 14:27:51.

Motion Detection Alert

Notify you via app messages when someone approaches your home

1S Instant Alarm

Mobile Monitoring

Alarm Notification

Receive instant alerts on your mobile device when the camera detects motion, providing real-time security updates.

Night Vision and Spotlight

The camera features built-in infrared LEDs for clear night vision, allowing you to monitor your property even in low-light or no-light conditions. Additionally, the motion-activated spotlight can illuminate the area, serving as a visual deterrent and enhancing color night vision.

Motion-Activated Spotlight

Warn strangers to stay away from
your home at night

Motion-Activated
Spotlight

Color Night
Vision

The motion-activated spotlight helps to warn off unwanted visitors and provides enhanced visibility at night.

IP65 Weatherproof

No matter what the weather, the camera stays working

Rainy

Snow

Hot

Experience clear night vision with the camera's infrared capabilities, ensuring continuous monitoring around the clock.

Alexa Compatibility

Integrate your 3-Link camera with Amazon Alexa for convenient voice control. You can ask Alexa to show you the live feed from your camera on compatible devices, arm or disarm your security system, and more.

Alexa Compatible

Let echo show show who is coming

"Alexa, show me the backyard"

"Sure. Here you go. "

Control your camera and view live feeds using simple voice commands through Amazon Alexa.

Sharing Camera Access

Easily share access to your camera's live feed and recorded events with family members or trusted individuals through the 3-Link app. This allows multiple users to monitor the property simultaneously.

MAINTENANCE

Solar Panel Efficiency

To ensure continuous power, periodically clean the solar panel to remove any dust, dirt, or debris that may obstruct sunlight. Position the panel to receive maximum direct sunlight throughout the day.

Weather Resistance

The 3-Link TB1 camera is rated IP65 water resistant, meaning it is protected against dust and low-pressure water jets. While designed for outdoor use, avoid submerging the camera in water or exposing it

to extreme weather conditions beyond its rating. Regularly check the cable connections for secure fit to maintain water resistance.

The robust design of the 3-Link TB1 camera ensures durability in various outdoor environments.

TROUBLESHOOTING

Connectivity Issues

- **Camera Offline:** Ensure the camera is powered on and within range of your 2.4G Wi-Fi router. Restart your router and the camera.
- **Weak Wi-Fi Signal:** If the signal is weak, consider relocating the camera closer to the router or using a Wi-Fi extender.

Motion Detection Problems

- **False Alerts:** Adjust the motion detection sensitivity settings in the app to reduce alerts from minor movements like swaying branches or small animals.
- **Missed Events:** Ensure the camera's field of view covers the desired area and there are no obstructions. Check app settings for alert schedules.

Battery and Charging

- **Low Battery:** Verify the solar panel is receiving adequate direct sunlight. Clean the solar panel surface. If persistent, temporarily charge the camera via the power cable.

SPECIFICATIONS

Feature	Detail
Model Name	Battery Cam
Indoor/Outdoor Usage	Outdoor
Connectivity Technology	Wireless (2.4G Wi-Fi Only)
Power Source	Battery Powered (5200 mAh), Solar Panel
Video Capture Resolution	1080p
