VRURC T3016

VRURC 30000 mAh Power Bank User Manual

Model: T3016

INTRODUCTION

Thank you for choosing the VRURC 30000 mAh Power Bank. This portable charger is designed to provide reliable and fast charging for your electronic devices on the go. With its high capacity and multiple charging ports, it is an ideal companion for travel, business trips, and daily use. This manual provides essential information on how to set up, operate, maintain, and troubleshoot your power bank.

PRODUCT FEATURES

- **High Capacity:** 30000 mAh battery, capable of charging an iPhone 8-14 series 5-8 times, Galaxy series 4-6 times, and an iPad Air 2 times.
- **Multiple Ports:** Equipped with 4 output ports (3 USB-A, 1 USB-C) and 3 input ports (Micro USB, USB-C).
- **Fast Charging:** 22.5W output with QC 3.0 (USB-A + USB-C) and PD (USB-C) support, allowing devices to charge over 50% in just 30 minutes.

- **USB-C Bidirectional:** The USB-C port functions as both an input and an output for versatile charging.
- **Compact Design:** Despite its high capacity, the power bank maintains a relatively compact form factor.

SETUP AND INITIAL USE

Charging the Power Bank

Before first use, fully charge the power bank. You can use either the Micro USB or USB-C input port to recharge the power bank.

For optimal charging speed, use a PD 20W compatible charger with the USB-C input.

1. Connect the provided USB-A to Micro USB cable, or a USB-C to USB-C cable (not included), to the corresponding input port on the power bank.
2. Connect the other end of the cable to a suitable USB wall adapter (e.g., a 5V/2A or PD 20W charger).
3. The LED indicator on the power bank will show the charging status. A full charge typically takes approximately 9 hours with a PD 20W charger.

Earphone

Checking Battery Level

The power bank features an LED indicator to display the remaining battery capacity. Press the power button once to activate the display and check the current charge level.

OPERATING INSTRUCTIONS

Charging Your Devices

The VRURC power bank can charge up to four devices simultaneously.

1. Identify the appropriate charging cable for your device (USB-A to Lightning/USB-C/Micro USB, or USB-C to USB-C).
2. Connect one end of the charging cable to an available output port on the power bank (USB 1, USB 2, USB 3, or USB C Out).
3. Connect the other end of the cable to your device.
4. The power bank will automatically begin charging your device. If charging does not start, press the power button once.

The power bank supports wide compatibility, including smartphones, tablets, drones, and earphones.

MAINTENANCE

To ensure the longevity and optimal performance of your VRURC Power Bank, follow these maintenance guidelines:

- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Do not use liquid cleaners or abrasive materials.

- **Charging Cycles:** For best battery health, avoid completely draining the power bank before recharging it. Recharge it regularly, even if not in frequent use.
- **Avoid Drops:** Protect the power bank from drops and impacts, which can damage internal components.

TROUBLESHOOTING

If you encounter issues with your VRURC Power Bank, please refer to the following common troubleshooting steps:

- **Power Bank Not Charging:**
 - Ensure the charging cable is securely connected to both the power bank's input port and the wall adapter.
 - Try a different charging cable or wall adapter.
 - Verify the wall adapter is functioning correctly and provides sufficient power (e.g., 5V/2A or PD 20W).
- **Device Not Charging from Power Bank:**
 - Ensure the power bank has sufficient charge. Check the LED indicator.
 - Press the power button on the power bank to activate output.
 - Try a different output port on the power bank.
 - Try a different charging cable for your device.
 - Ensure your device's charging port is clean and free of debris.
- **Slow Charging:**
 - Ensure you are using a fast-charging compatible cable and your device supports fast charging.
 - Verify that the power bank's output port used supports fast charging (e.g., USB-C PD or USB-A QC 3.0).
 - Charging multiple devices simultaneously may reduce individual charging speeds.

If the issue persists, please contact VRURC customer support for further assistance.
