KEY FEATURES

- **Soft TPU Material:** Provides flexible protection for your watch screen.
- **Full Coverage:** Designed to fit perfectly from curved edge to curved edge, ensuring comprehensive protection.
- **Bubble Self-Healing:** Minor bubbles may disappear over time. Larger bubbles can be removed during installation.
- **Anti-Shatter & Anti-Scratch:** Offers robust defense against impacts and scratches.
- **High Transparency & High Sensitivity:** Maintains original screen clarity and touch responsiveness.
- **Anti-Fingerprint Coating:** Helps reduce smudges and fingerprints.

Touch Sensitive

Image: A finger interacting with a smartwatch screen, illustrating the screen protector's touch sensitivity.

TPU material

Image: Icons representing anti-fingerprint, scratch resistance, 24-hour automatic repair, and anti-bubble features of the TPU material.

Full Coverage Protection

Flexible TPU Screen protector will fit your screen perfectly from curved edge to curved edge.

Installation Instructions

1: Clean the screen: use wet paper first, second use the dry paper, last clean the display use the fiber cloth

2: Remove Back stick 1

3: Align the edge of the screen and stick to one side

4: When installing, use a card to push from one side to the other, and tear off the sticker 1 at the same time

5: Press the entire screen with your hand to the edge

6: Remove the stick 2. If there are bubbles, please use your hand to make the bubble disappear

INSTALLATION GUIDE

Follow these steps carefully for optimal application of your screen protector:

- Clean the Screen:** Use the wet paper wipe first, then the dry paper wipe. Finish by cleaning the display with the provided fiber cloth to remove any dust or smudges.
- Prepare the Protector:** The protector has three layers. Carefully peel off the Red "Back 1" layer.
- Apply the Protector:** Align the protector with the edge of your watch screen and slowly stick it down from one side to the other.
- Remove Top Layer:** Once the protector is in place, peel off the Black "Front 2" layer. The middle layer should remain on the screen.

5. **Smooth Out Bubbles:** Use a card (or your finger wrapped in the fiber cloth) to gently push any bubbles towards the edges until they disappear.
6. **Troubleshooting Bubbles:** If a large bubble persists, carefully lift the nearest edge of the protector and reapply, smoothing it down again. If you accidentally peel off the wrong layer initially (e.g., "Front 2" first), the side that was meant to stick to the screen might not be adhesive. In this case, gently wrinkle the Red "Back 1" layer to separate it into two layers, peel off the middle layer, and then re-align it with the Black "Front 1" side before attempting installation again.

Compatible Devices:

Anyloop ALW1 1.69-inch Watch Mini

Material:

Plastic (TPU)

Item Hardness:

4H

Special Feature:

Touch Sensitive

Finish Type:

Clear

Screen Surface Description:

Glossy

Product Dimensions:

0.5 x 0.5 x 0.5 inches (approximate)

Item Weight:

0.352 ounces

TROUBLESHOOTING

Persistent Bubbles After Installation

If you notice small bubbles after installation, these are often self-healing and may disappear within 24-48 hours. For larger bubbles:

- Gently use a soft card or your finger (wrapped in a microfiber cloth) to push the bubbles towards the nearest edge of the screen.
- If a bubble is particularly stubborn, carefully lift the edge of the screen protector closest to the bubble and slowly reapply it, smoothing it down as you go.

Protector Not Sticking Properly

Ensure the screen was thoroughly cleaned before application. Any dust or debris can prevent proper adhesion. If the protector feels less sticky, refer to step 4 of the installation guide regarding the correct peeling of layers, as peeling the wrong layer first can affect adhesion.

WARRANTY AND SUPPORT

For any questions, concerns, or support regarding your Lamshaw screen protector, please contact the seller directly through the platform where you made your purchase. Keep your purchase receipt or order number handy for faster assistance.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
