2. SETUP INSTRUCTIONS

2.1. Components

- WolfLawS TA3000 Headset
- Detachable Microphone
- 2.4G USB Wireless Adapter (Dongle)
- 3.5mm Audio Cable
- USB-C Charging Cable

2.2. Charging the Headset

Before initial use, fully charge the headset using the provided USB-C charging cable. Connect the USB-C end to the headset's charging port and the USB-A end to a compatible USB power source (e.g., computer, wall adapter). A full charge takes approximately 2 hours and provides up to 48+ hours of gaming time.

2.3. Connecting the Headset

The TA3000 headset offers three connection modes:

2.3.1. 2.4G Wireless Connection (USB Dongle)

1. Insert the 2.4G USB wireless adapter into a compatible USB port on your PC, PS4, PS5, Mac, or Laptop.
2. Power on the headset by pressing and holding the Power button.
3. The headset will automatically connect to the adapter. A white light on the headset indicates a successful 2.4G wireless connection.

Note: This mode provides low-latency audio for gaming.

2.3.2. Bluetooth Connection

1. With the headset powered off, press and hold the Power button until the indicator light flashes blue, indicating pairing mode.
2. On your device (e.g., PC, Mac, Smartphone, Tablet, Switch), enable Bluetooth and search for "TA3000".
3. Select "TA3000" to pair. A solid blue light on the headset indicates a successful Bluetooth connection.

Note: Bluetooth mode is suitable for mobile devices and general audio. For optimal gaming performance on PC/consoles, the 2.4G wireless adapter is recommended.

2.3.3. 3.5mm Wired Connection

1. Connect one end of the 3.5mm audio cable to the headset's 3.5mm port.
2. Connect the other end to the 3.5mm audio jack on your device (e.g., PC, Mac, PS4/PS5 controller, Xbox controller, Switch, mobile phone, tablet).

Note: In 3.5mm wired mode, the microphone function may not work directly through the headset's built-in mic. An external mic or a 1-to-2 splitter (not included) might be required for certain devices (e.g., PC for separate mic/audio jacks). The mute function is also invalid in this mode.

3.2. Microphone Usage

The TA3000 headset includes both a detachable boom microphone and a built-in beamforming microphone.

- **Detachable Mic:** For clear voice communication, especially during gaming. Plug it into the dedicated

microphone port on the headset.

- **Built-in Beamforming Mic:** Provides an alternative for voice input when the detachable mic is not in use.

Use the "Mic On/Off" button to mute or unmute your microphone. Note that the detachable mic is generally recommended for optimal voice clarity in gaming environments.

4. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Earcup Care:** The ear pads are designed for comfort. Avoid excessive pressure or sharp objects that could damage them.
- **Cable Management:** When not in use, gently coil cables to prevent tangling and damage.

5. TROUBLESHOOTING

- **No Sound/Poor Sound Quality:**
 - Ensure the headset is properly connected (2.4G dongle, Bluetooth, or 3.5mm cable).
 - Check device volume settings and headset volume controls.
 - For 2.4G or Bluetooth, ensure the headset is paired and selected as the audio output device.
 - If using 3.5mm wired connection, note that sound quality can vary depending on the device's audio output.
- **Microphone Not Working:**
 - Ensure the detachable microphone is securely plugged in.
 - Check if the microphone is muted using the "Mic On/Off" button.
 - Verify microphone input settings on your connected device.
 - In 3.5mm wired mode, the mic may not function. A 1-to-2 splitter might be needed for PC setups with separate audio/mic jacks.
- **Connectivity Issues:**
 - For 2.4G wireless, ensure the USB dongle is firmly inserted and the headset is in 2.4G mode.
 - For Bluetooth, ensure the headset is in pairing mode (flashing blue light) and your device's Bluetooth is enabled. Try unpairing and re-pairing.
 - Reduce distance between headset and device, and minimize interference from other wireless devices.
- **Headset Not Powering On:**

- Ensure the headset is fully charged.
- Press and hold the Power button for a few seconds to turn it on.
