qirita P02

# qirita Auto Face Tracking Tripod Instruction Manual

Model: P02

## INTRODUCTION

The qirita Auto Face Tracking Tripod is an intelligent device designed to enhance your video recording and communication experience. Utilizing an AI computing system, it automatically recognizes and tracks your face or body, providing smooth 360° rotation to keep you in frame. This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your device to ensure optimal performance.

## KEY FEATURES

- **Face Tracking & Gesture Control:** Automatically recognizes and tracks your face or body with 360° rotation. Supports "OK" gesture to start tracking and "open palm" gesture to pause.
- **No App Required:** Operates independently without the need for a dedicated application.
- **Extendable Pole & Detachable Phone Clip:** Features a hidden extendable pole for adjustable shooting height and a 360° rotating phone clip that can be detached for use as a desktop stand.
- **360° Auto-Rotation:** Allows for horizontal or vertical camera mode and can perform continuous 360-degree rotation for hands-free shooting.
- **Mini Body & Rechargeable Battery:** Compact and lightweight (9.5 oz / 270 g) with a built-in 1200mAh rechargeable battery and Type-C charging port.
- **Standard 1/4 Inch Tripod Connector:** The base can be detached and replaced with a standard 1/4 screw interface for compatibility with other tripods.
- **Wireless Remote Control:** Includes a remote for convenient control of phone camera functions.

## PACKAGE CONTENTS

- qirita Auto Face Tracking Tripod Unit
- Wireless Remote Control
- Type-C Charging Cable
- User Manual

## SETUP

### 1. Unboxing and Initial Inspection

Carefully remove all components from the packaging. Inspect the tripod unit and accessories for any signs of damage. Ensure all listed package contents are present.

*Image: The qirita Auto Face Tracking Tripod in black, shown with a smartphone attached in both horizontal and vertical orientations, highlighting its compact design and tracking capabilities.*

## 2. Attaching Your Smartphone

The phone clip is designed to securely hold most smartphones. Gently pull the top part of the phone clip upwards to extend it, then insert your smartphone. Release the clip to allow it to securely grip your phone. The clip supports both horizontal and vertical orientations.

*Image: A smartphone securely mounted horizontally on the qirita Auto Face Tracking Tripod, ready for use.*

# AUTO TRACKING MODE

Automatically Track Your Face or Body Wherever You Go

*Image: A smartphone securely mounted vertically on the qirita Auto Face Tracking Tripod, demonstrating its flexible orientation.*

### 3. Extending the Pole (Optional)

For increased shooting height, the auto tracking mobile phone holder features a hidden extendable pole. Gently pull the top section of the unit upwards to extend the pole to your desired height.

# MULTI-ANGLE ROTATIONS

*Image: The tripod unit illustrating its multi-angle rotation capabilities and the extendable pole, allowing for versatile shooting positions.*

## **4. Detaching the Phone Clip (Optional)**

The 360° rotating cell phone clip can be detached from the main unit. This allows it to be used independently as a cell phone desktop stand for watching videos or live streams, or for convenient phone calls while shooting.

# DETACHABLE REMOTE

*Image: The tripod unit highlighting its detachable remote control and the removable phone clip, which can function as a separate stand.*

## **5. Tripod Compatibility (Optional)**

The base of the tracking gimbal can be easily detached and replaced with a standard 1/4 inch screw interface. This allows you to mount the qirita Auto Face Tracking Tripod onto other compatible tripods for greater height adjustments or different shooting angles.

# COMPATIBLE WITH CELL PHONES AND TRIPODS

*Image: The base of the tripod unit with a visible 1/4 inch screw thread, indicating its compatibility with external tripods.*

## OPERATING INSTRUCTIONS

### 1. Power On/Off

To power on the device, press and hold the power button located on the main unit for 3 seconds. The indicator light will illuminate. To power off, press and hold the power button again until the light turns off.

### 2. Face Tracking & Gesture Control

The device uses an AI computing system to automatically recognize and track your face or body. To activate tracking, face the camera and make an "OK" gesture with your hand. The indicator light will turn green, signifying active tracking. To pause tracking, make an "open palm" gesture. The indicator light will turn red.

# GESTURE CONTROL

*Image: A user demonstrating the "OK" gesture to start tracking and the "open palm" gesture to stop tracking on the qirita Auto Face Tracking Tripod.*

## 3. 360° Auto-Rotation

Press the cycle button on the unit to initiate automatic 360-degree rotation. This feature is ideal for hands-free shooting, such as live broadcasts, teaching, meetings, or cooking records. The adjustable 360° phone clip rotation and 180° neck design allow for flexible horizontal or vertical camera modes.

## 4. Wireless Remote Control

The included wireless remote control can be used to connect to your phone for remote photo taking or video recording. Ensure your phone's Bluetooth is enabled and pair with the device (usually named "Selfie").

## 5. No App Required

This device operates independently without the need for any specific application. It is compatible with various platforms for live streaming and video calls.

## CHARGING

The qirita Auto Face Tracking Tripod has a built-in 1200mAh rechargeable battery. To charge the device,

connect the provided Type-C charging cable to the charging port on the unit and to a suitable USB power source. The red charging indicator light will be on during charging and will turn off once charging is complete.

## MAINTENANCE

---

To ensure the longevity and optimal performance of your device, follow these maintenance guidelines:

- Keep the device clean by wiping it with a soft, dry cloth.
- Avoid exposing the device to extreme temperatures, moisture, or direct sunlight.
- Do not attempt to disassemble or repair the device yourself, as this will void the warranty.
- Store the device in a cool, dry place when not in use.

## TROUBLESHOOTING

---

If you encounter any issues with your qirita Auto Face Tracking Tripod, please refer to the following common solutions:

- **Device not powering on:** Ensure the battery is charged. Connect the Type-C cable and try again.
- **Tracking not working:** Make sure the indicator light is green (active tracking). Re-perform the "OK" gesture. Ensure there are no obstructions between you and the sensor.
- **Remote control not connecting:** Ensure the remote has power. Check your phone's Bluetooth settings to confirm it's paired with "Selfie".
- **Unresponsive rotation:** Check for any physical obstructions. Power cycle the device.

If the issue persists after trying these steps, please contact customer support.

## SPECIFICATIONS

---

Feature	Specification
Model Number	P02
Product Dimensions	3.74 x 3.74 x 8.66 inches (22 x 9.5 x 9.5 cm folded)
Item Weight	9.5 ounces (270 g)
Battery	1200mAh Lithium Metal (included)
