# Bingozones A10 Noise Cancelling Headphones User Manual

Model: A10

## 1. PRODUCT OVERVIEW

---

The Bingozones A10 headphones are designed to provide an immersive audio experience with active noise cancellation, HiFi stereo sound, and deep bass. They feature Bluetooth 5.3 for efficient wireless connectivity and also support a wired connection for extended use. The lightweight and adjustable design ensures comfort for prolonged listening sessions.

### Key Features:

- **Active Noise Cancellation (ANC):** Reduces ambient noise by up to 32dB for focused listening.
- **HiFi Stereo Sound:** Equipped with 40mm audio drivers for deep bass and clear treble.
- **Bluetooth 5.3:** Ensures fast and stable wireless connection.
- **Wired Mode:** Includes a 3.5mm audio jack for wired connection when battery is low or for non-Bluetooth devices.
- **Comfortable Design:** Lightweight with super soft memory foam ear cushions and an adjustable headband.
- **Built-in Microphone:** For hands-free calls.

## 2. SETUP AND CONTROLS

### 2.1 Package Contents

- Bingozones A10 Headphones
- USB-C Charging Cable
- 3.5mm Audio Cable
- User Manual (this document)

## 2.2 Charging the Headphones

Before first use, fully charge the headphones. Connect the provided USB-C charging cable to the charging port on the headphone and to a compatible USB power source. The LED indicator will show charging status.

Image: Diagram showing the audio controls and the USB charging port location on the left earcup.

## 2.3 Bluetooth Pairing

1. Ensure the headphones are charged.
2. Press and hold the Power button until the LED indicator flashes blue and red, indicating pairing mode.
3. On your device (smartphone, tablet, PC), enable Bluetooth and search for "GT-A10" or "Bingozones A10" in the list of available devices.
4. Select the headphones to connect. Once connected, the LED indicator will turn solid blue or flash slowly.

## 2.4 Wired Mode

To use the headphones in wired mode, connect one end of the 3.5mm audio cable to the audio jack on the headphone and the other end to your audio device. This mode works even if the headphone battery is depleted.

## 2.5 Controls Overview

The main controls are located on the left earcup:

- **Power Button:** Long press to power on/off. Short press for play/pause.
- **Volume Up (+):** Short press to increase volume. Long press for next track.
- **Volume Down (-):** Short press to decrease volume. Long press for previous track.
- **ANC Button:** Short press to toggle Active Noise Cancellation on/off.

## 3. OPERATING INSTRUCTIONS

### 3.1 Active Noise Cancellation (ANC)

The ANC feature can be activated or deactivated by pressing the dedicated ANC button on the left earcup. When ANC is active, a green LED indicator will illuminate, and you will notice a significant reduction in ambient noise, allowing for a more focused audio experience.

## 4. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headphones. Do not use liquid cleaners or aerosols.
- **Storage:** Store the headphones in a cool, dry place away from direct sunlight and extreme temperatures. When not in use, fold them to save space and protect them.
- **Battery Care:** To prolong battery life, avoid fully discharging the headphones frequently. Charge them regularly, even if not in constant use.
- **Avoid Moisture:** The headphones are not water-resistant. Avoid exposure to water or excessive moisture.

## 5. TROUBLESHOOTING

- **Cannot Power On:** Ensure the headphones are fully charged.
- **Cannot Pair via Bluetooth:**
  - a. Ensure the headphones are in pairing mode (LED flashing blue/red).
  - b. Turn off and on Bluetooth on your device.

- c. Delete "GT-A10" from your device's Bluetooth list and try pairing again.
- d. Ensure the headphones are within the Bluetooth range (up to 33 feet).

- **No Sound:**

- a. Check volume levels on both the headphones and your connected device.
- b. If in wired mode, ensure the 3.5mm audio cable is securely connected.
- c. If in Bluetooth mode, ensure the headphones are properly paired and connected.

- **ANC Not Working Effectively:** Ensure the ANC feature is toggled on. Some ambient noise may still be audible, especially sudden or high-frequency sounds.
