Aroepurt Phone Case User Manual

Model: GX-230828-19409 YGH-JGP

INTRODUCTION

This manual provides instructions for the Aroepurt Phone Case, designed for the Vortex HD65. This case offers robust protection, a convenient ring stand, and a unique luminous effect. Please read this manual carefully to ensure proper use and maintenance of your new phone case.

Figure 1: Overview of the Aroepurt Phone Case components, including the case with its "Gamer Zone" design, integrated ring stand, and an accompanying screen protector.

SETUP AND INSTALLATION

1. Installing the Phone Case

1. Ensure your Vortex HD65 phone is clean and free of dust or debris.
2. Align the phone with the case, starting with the top or bottom edge.
3. Gently press the phone into the case, ensuring all corners and edges are securely seated within the soft silicone frame.
4. Verify that all ports, buttons, and camera cutouts align correctly with the phone.

2. Attaching the Adhesive Metal Finger Ring Support (Optional)

The metal finger ring support can be attached directly to the case or used separately.

1. Clean the desired attachment area on the back of the phone case with an alcohol wipe and let it dry completely.
2. Peel off the protective film from the adhesive side of the metal finger ring support.
3. Carefully position the ring support on the case and press firmly for at least 30 seconds to ensure strong adhesion.
4. Allow the adhesive to cure for a few hours before heavy use for optimal bond strength.

OPERATING INSTRUCTIONS

1. Luminous Effect

The case features a special luminous effect. For this effect to activate, the case must absorb light from a bright source, such as sunlight or artificial light. Once charged, the case will emit a fluorescent glow in dark environments.

Luminous effect style

Absorption of light and sunlight will produce a fluorescent effect in a dark environment.

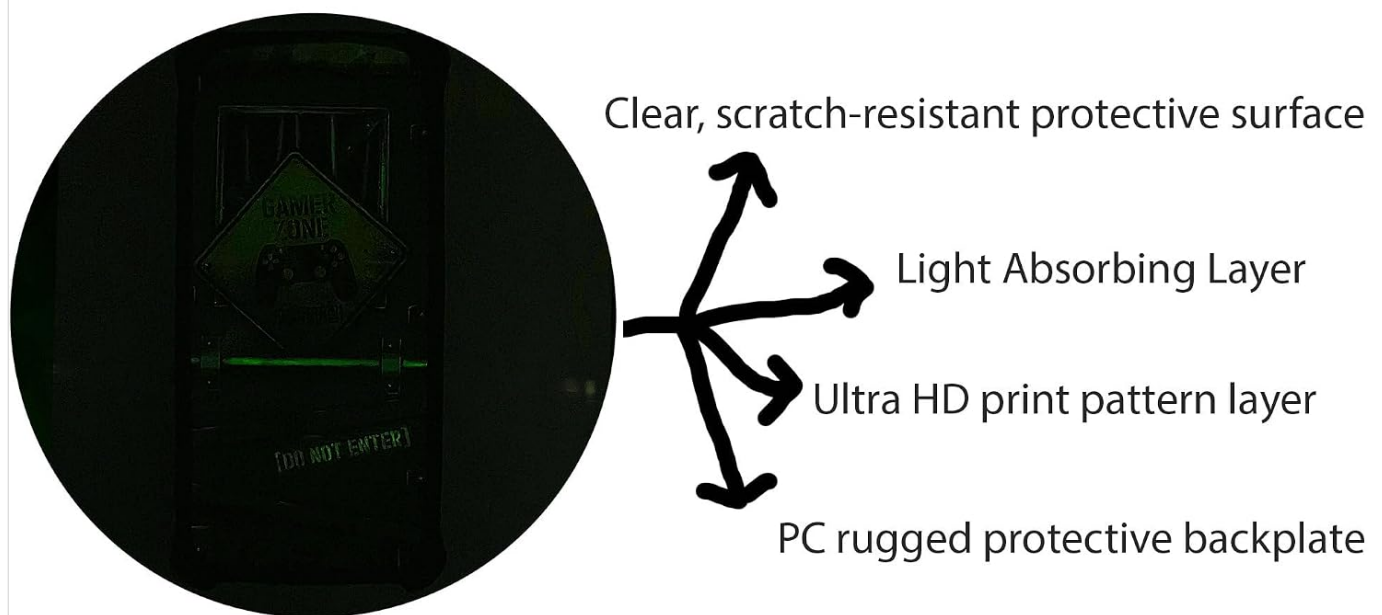

Figure 2: Illustration of the luminous effect mechanism, detailing the light absorbing layer and the multi-layered back panel construction.

2. Finger Ring Support Functionality

- **One-Hand Operation:** The finger ring allows for a more secure grip on your phone, making it easier to reach all areas of the screen with one hand.
- **Kickstand Function:** Rotate the ring 180 degrees to use it as a kickstand for hands-free viewing of videos or video

calls.

- **360-Degree Rotation:** The ring can rotate 360 degrees, providing flexibility for various viewing angles and comfortable holding positions.
- **Magnetic Car Mount Compatibility:** The metal ring is designed to be compatible with magnetic car mounts (car mount not included). Simply attach the case to a magnetic car mount for secure navigation or hands-free calling while driving.

One-Hand Operation

Touch more spots on the screen

SUPPORT MAGNETIC CAR MOUNT

Not include magnetic car mount,
not support wireless charging.

Figure 4: The phone case's compatibility with magnetic car mounts, highlighting the metal ring's function.

MAINTENANCE AND CARE

- **Cleaning:** To clean the case, remove it from your phone. Use a soft, damp cloth with mild soap and water. Avoid harsh chemicals or abrasive cleaners, as these can damage the case's finish or luminous properties.
- **Storage:** Store the case in a cool, dry place away from direct sunlight when not in use.
- **Protection:** While the case offers significant protection with its PC hard back panel, soft silicone frame, and four-corner shock airbags, it is not indestructible. Avoid dropping your phone from excessive heights or exposing it to extreme impacts.

Figure 5: Detail of the case's shockproof design, featuring reinforced corners with shock airbags for enhanced drop protection.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Luminous effect is weak or not visible.	Insufficient light absorption.	Expose the case to bright light (sunlight or strong artificial light) for a longer period to charge the luminous material.
Finger ring feels stiff or loose.	Normal wear or minor debris.	Gently rotate the ring several times to loosen it. If loose, ensure the adhesive is fully cured or re-apply if necessary.
Case does not fit phone properly.	Incorrect phone model or improper installation.	Ensure your phone is a Vortex HD65. Re-install the case, making sure all edges snap into place.

SPECIFICATIONS

Feature	Detail
Product Model	GX-230828-19409 YGH-JGP
Compatible Device	Vortex HD65
Materials	Hard PC (Polycarbonate) back panel, Soft Silicone frame
Special Features	Luminous Effect, 360° Rotating Finger Ring Support, Magnetic Car Mount Compatibility, Four-corner Shock Airbags

Feature	Detail
Product Dimensions	0.39 x 0.39 x 0.39 inches
Item Weight	2.46 ounces
Color	YGH-JGP (Specific design/color variant)
Included in Box	1*Phone Case

WARRANTY AND SUPPORT
