## BMOBILE B70 PRO PHONE CASE WITH TEMPERED GLASS SCREEN PROTECTOR

Model: BMobile B70 PRO | Brand: Generic

### 1. Introduction

Thank you for choosing the Generic Phone Case for BMobile B70 PRO. This product is designed to provide robust protection for your device while offering enhanced functionality through its integrated features. This manual will guide you through the installation, usage, and maintenance of your new phone case and tempered glass screen protector.

Figure 1: Overview of the BMobile B70 PRO Phone Case and Tempered Glass Screen Protector.

## 2. What's in the Box

Please verify that all items are present in the package:

- 1 x Phone Case for BMobile B70 PRO
- 1 x Tempered Glass Screen Protector

## 3. Product Features

This phone case and screen protector combination offers several key features:

### 3.1. Dual-Layer Protection & Shockproof Design

The case is constructed from a combination of soft silicone (TPU) frame and a hard PC backplane. It features thickened four corners and a silicone buffer layer in the middle, providing enhanced shock absorption and protection against drops. The design ensures the case is higher than the screen and camera, offering additional safeguarding.

## SHOCKPROOF

Soft silicone frame + hard PC backplane, thickened four corners, and a silicone buffer layer in the middle, which is higher than the screen and camera design.

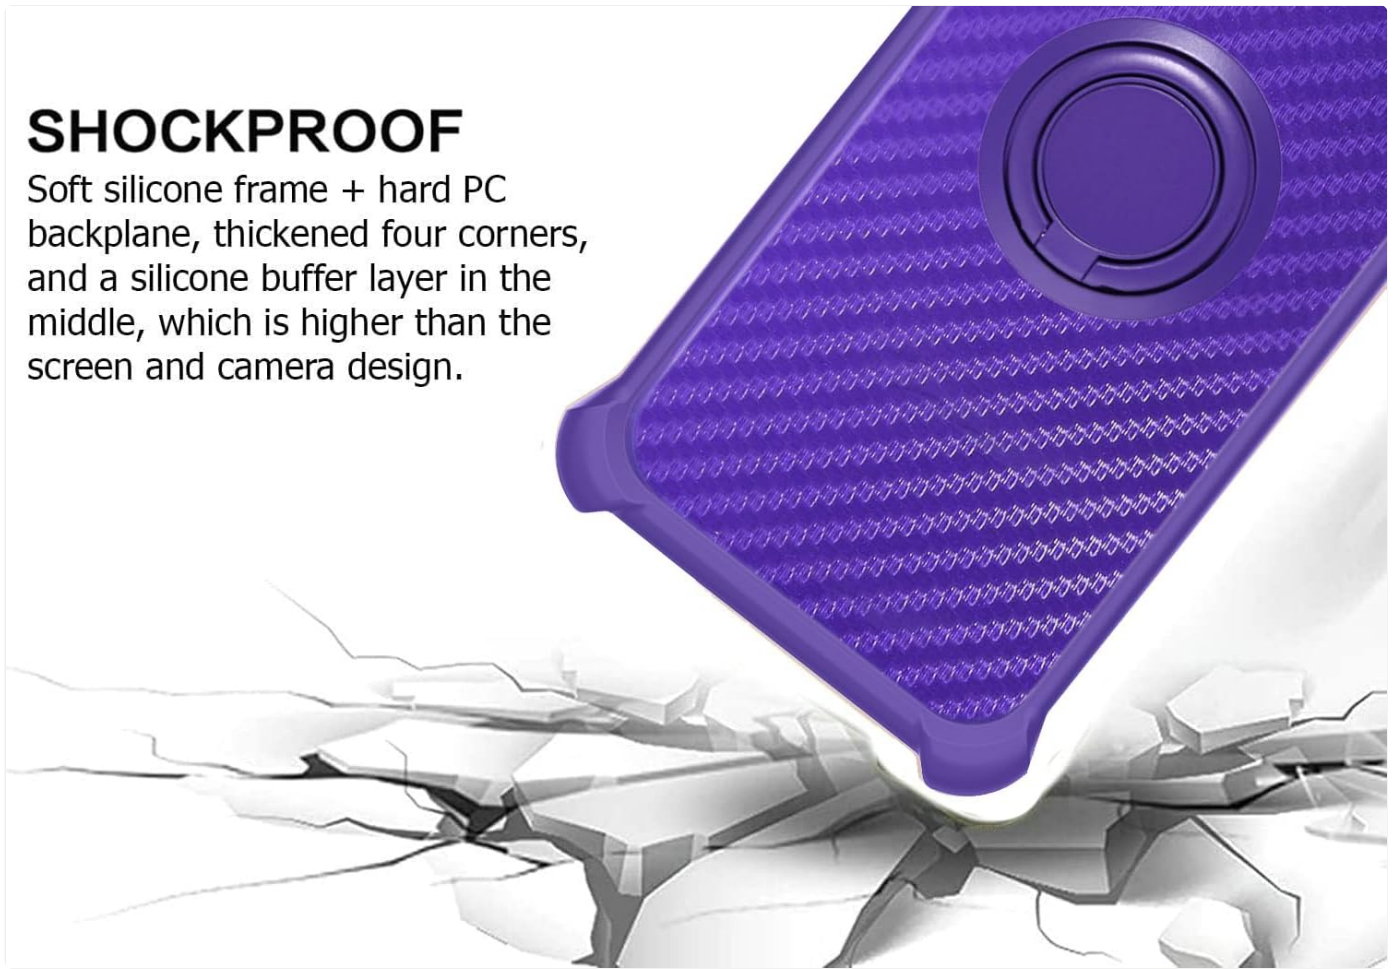

Figure 2: Illustration of the shockproof design with reinforced corners.

### 3.2. 360° Rotatable Ring Holder

An integrated ring holder on the back of the case allows for a secure grip and serves as a convenient kickstand for hands-free viewing of videos and movies. The ring can rotate 360 degrees for optimal positioning.

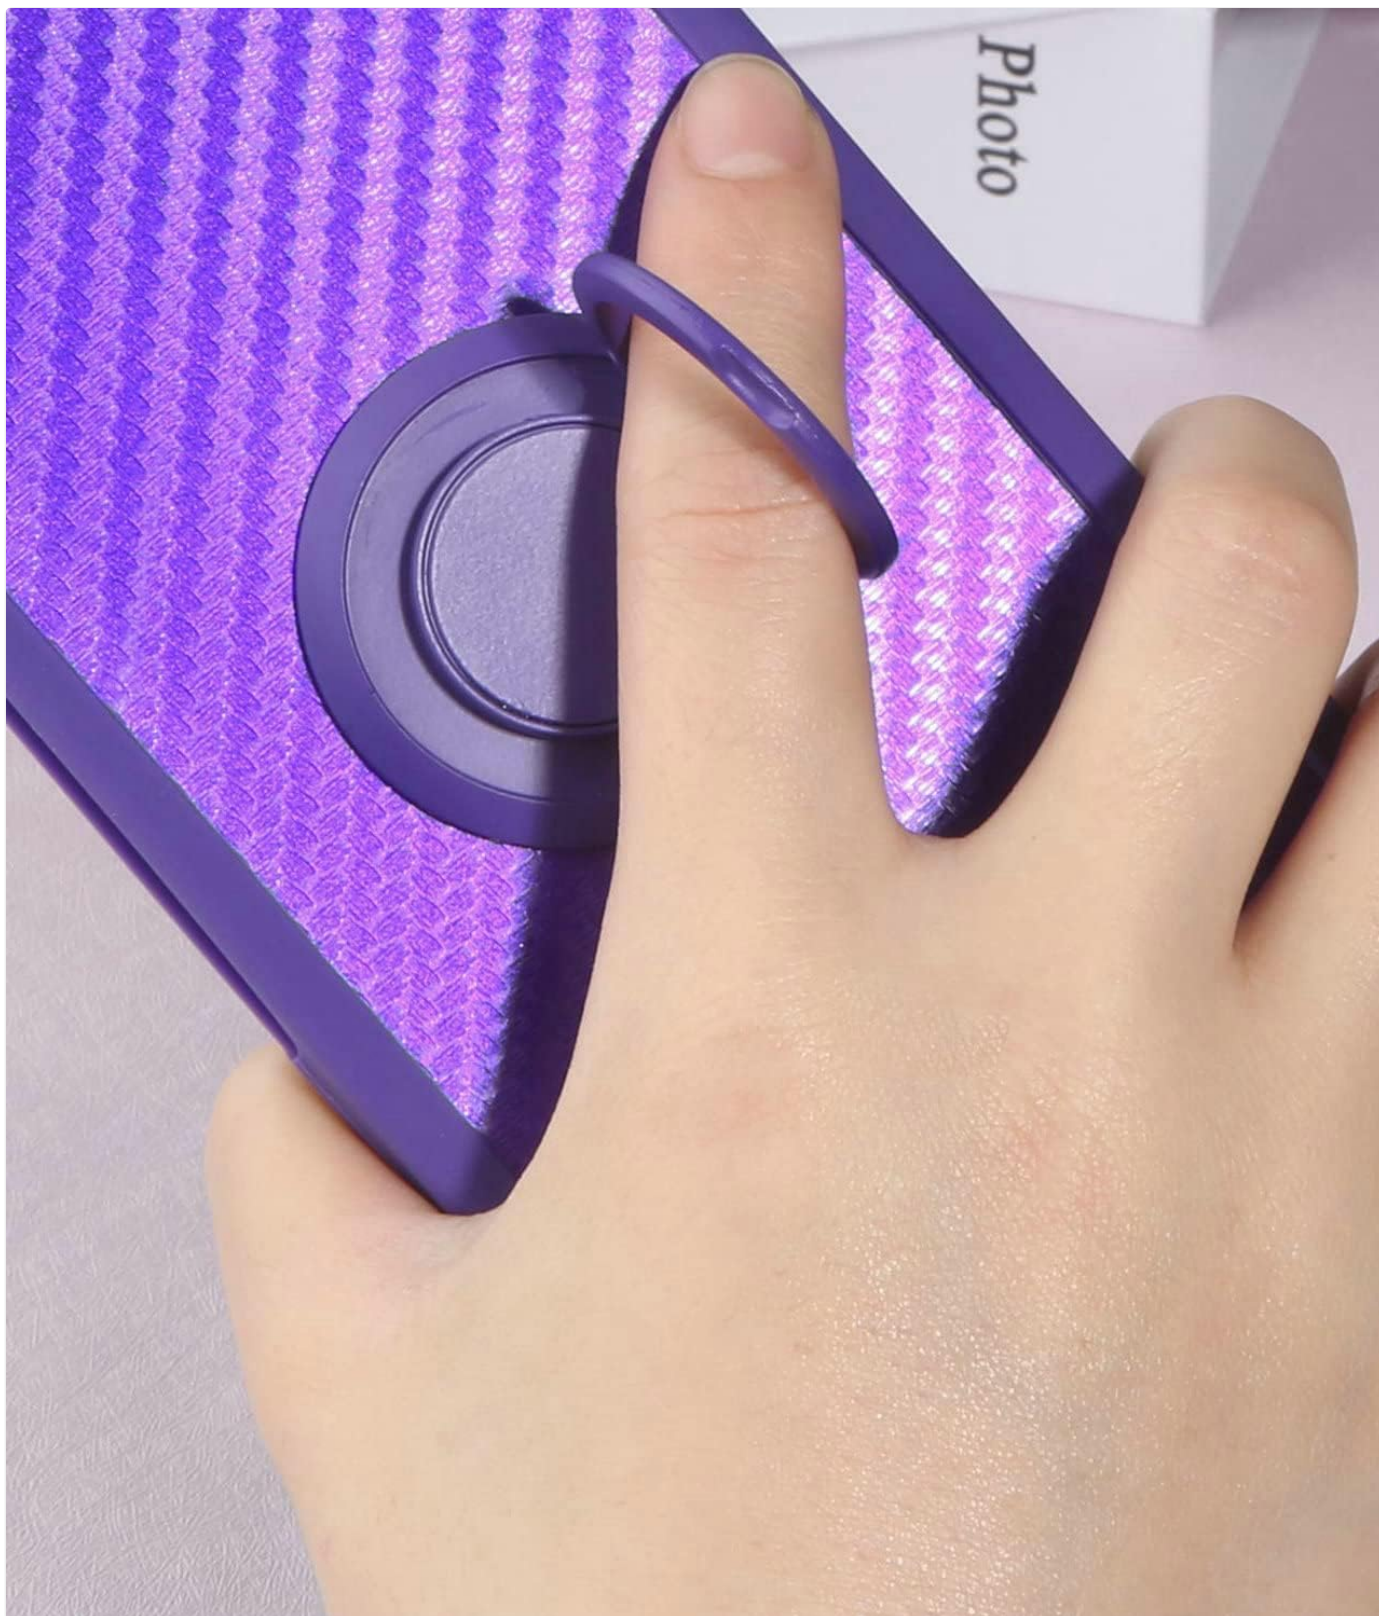

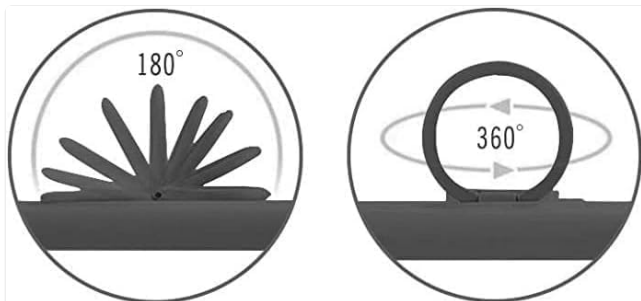

Figure 3: Demonstrating the use of the 360° rotatable ring holder for a secure grip.

### 3.3. Magnetic Car Mount Function

The ring holder also features a built-in metal plate that allows the case to be directly adsorbed onto magnetic car mount holders. This provides a convenient solution for using your phone for GPS navigation or music while driving. *Note: Magnetic car mount holder is not included. Wireless charging may not be supported with the case on due to the metal plate.*

## **SUPPORT MAGNETIC CAR MOUNT**

Not include magnetic car mount,  
not support wireless charging.

Figure 4: The case's compatibility with magnetic car mounts.

Figure 5: Close-up of the ring holder's magnetic fixing capability.

### 3.4. Precision Cutouts & Aesthetic Design

The case features precise cutouts for all ports, buttons, and speakers, ensuring full access to all phone functions. The high-definition pattern printing, derived from a marble texture, is designed to be fashionable and resistant to fading.

# Different angles will show different reflection effects

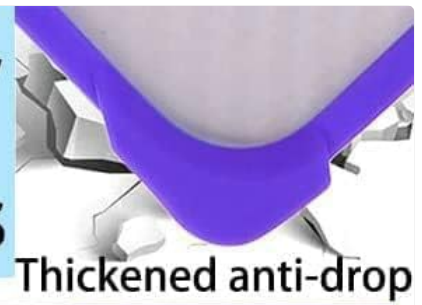

Figure 6: The case's aesthetic design with varying reflection effects.

### 3.5. Tempered Glass Screen Protector

Included with the case is a high-quality tempered glass screen protector designed to safeguard your phone's display. Key attributes include:

- **9H High Hardness:** Provides superior scratch resistance.
- **Shatterproof:** Designed to resist shattering upon impact.
- **99.9% Super Transparency:** Maintains original screen clarity and brightness.
- **Perfect Adhesion:** Ensures a bubble-free installation.
- **Case Friendly:** Designed to fit perfectly with the phone case without lifting.
- **Anti-fingerprint:** Reduces smudges and fingerprints.

## Scratch Proof

Scratch proof screen effectively avoids sharp objects scratching or abrasion

Figure 8: Demonstration of the screen protector's scratch-proof capability.

## 4. Setup and Installation

### 4.1. Installing the Phone Case

1. Ensure your BMobile B70 PRO phone is clean and free of dust or debris.
2. Gently align the phone with the case, starting with the top or bottom edge.
3. Press the phone firmly into the case, ensuring all corners and edges are securely seated. Verify that all cutouts align correctly with your phone's ports, buttons, and camera.

### 4.2. Installing the Tempered Glass Screen Protector

For best results, install the screen protector in a dust-free environment.

1. **Clean the Screen:** Use a microfiber cloth to thoroughly clean your phone's screen, removing all dust, smudges, and fingerprints. Ensure the screen is completely dry.

2. **Align the Protector:** Carefully peel off the protective film from the adhesive side of the tempered glass. Hold the screen protector by its edges and align it precisely with your phone's screen, paying attention to the cutouts for the speaker and camera.
3. **Apply:** Once aligned, gently lower the screen protector onto the phone's screen. It will begin to adhere automatically.
4. **Remove Bubbles:** If any small bubbles appear, gently push them towards the edges of the screen using a soft cloth or a credit card wrapped in a cloth.

## 5. Operating Instructions

---

### 5.1. Using the Ring Holder

- **For Secure Grip:** Insert your finger through the ring to hold your phone more securely, reducing the risk of accidental drops.
- **As a Kickstand:** Pull out the ring and rotate it to your desired angle to prop up your phone horizontally or vertically for hands-free viewing.

### 5.2. Using with Magnetic Car Mount

- Simply place the back of the phone case (where the ring holder is located) onto a compatible magnetic car mount. The built-in metal plate will securely attach to the magnet.
- Adjust the angle of your phone on the mount as needed.

## 6. Maintenance and Care

---

- **Cleaning the Case:** Wipe the phone case regularly with a soft, damp cloth to remove dust and smudges. For tougher stains, a mild soap solution can be used, followed by wiping with a clean, dry cloth. Avoid harsh chemicals or abrasive cleaners.
- **Cleaning the Screen Protector:** Use a microfiber cloth to gently wipe the screen protector. For fingerprints or smudges, a screen cleaning spray designed for electronics can be used.
- **Avoid Extreme Temperatures:** Do not expose the case or screen protector to extreme heat or cold, as this may affect their material integrity.
- **Inspect Regularly:** Periodically check the case and screen protector for any signs of wear or damage. Replace if significant damage is observed to ensure continued protection.

## 7. Troubleshooting

---

- **Screen Protector Bubbles:** If bubbles appear after installation, gently lift the nearest edge of the protector and re-apply, pushing the bubble out with a soft cloth. Ensure the screen is completely clean before re-application.
- **Ring Holder Stiffness:** The ring holder is designed to be firm to provide stable support. If it feels too stiff, gently work it back and forth a few times. Avoid excessive force.
- **Wireless Charging Issues:** Due to the metal plate in the ring holder, wireless charging may be obstructed. If wireless charging is essential, you may need to remove the case or use a wired charging method.

## 8. Specifications

---
