Operating (Playing the Pokémon TCG)

This tin provides cards for the Pokémon Trading Card Game. To play the game, you will need a basic understanding of the rules. This section provides a general overview; for detailed rules, refer to official Pokémon TCG resources.

- **Deck Building:** A standard Pokémon TCG deck consists of exactly 60 cards. It should include Pokémon, Trainer cards, and Energy cards. The cards from this tin can be integrated into existing decks or used to start building a new one.
- **Game Objective:** The primary objective is to take all of your Prize cards, which are earned by Knocking Out your opponent's Pokémon.
- **Basic Gameplay:**
  - Each player starts with a hand of 7 cards and sets up a Basic Pokémon as their Active Pokémon, along with up to 5 Benched Pokémon.
  - Players take turns drawing a card, playing cards from their hand (Pokémon, Energy, Trainer cards), and attacking with their Active Pokémon.
  - Attacks require specific Energy types and amounts.
  - When a Pokémon's HP (Hit Points) reaches 0, it is Knocked Out, and the opponent takes a Prize card.
- **Quaquaval EX Card:** The Quaquaval EX card is a powerful Pokémon EX, which means when it is Knocked Out, your opponent takes two Prize cards instead of one. Understand its abilities and attacks to use it effectively in battle.

For comprehensive rules and strategies, visit the official Pokémon TCG website or consult the rulebook included in many starter decks.

Maintenance

Proper care of your Pokémon cards and tin will ensure their longevity and preserve their value.

- **Card Storage:**
  - Store cards in a cool, dry place away from direct sunlight and extreme temperatures.
  - Use card sleeves and binders to protect individual cards, especially rare or valuable ones, from bending, scratching, and moisture.
  - The tin itself can be used for storing cards or other small items.
- **Cleaning:**
  - For cards, avoid using liquids. Gently wipe with a clean, dry, soft cloth if necessary.
  - The tin can be wiped clean with a damp cloth and then dried thoroughly. Avoid abrasive cleaners.
- **Handling:** Always handle cards by their edges to prevent fingerprints and damage to the card surface.

Troubleshooting

While issues with sealed products are rare, here are some common concerns and how to address them.

- **Missing or Damaged Cards:** If you find that a card is missing from a sealed booster pack, or if a card is significantly damaged (e.g., miscut, printing error) directly out of the pack, contact Pokémon International

customer support. Do not discard the packaging or the damaged card, as they may be required for verification.

- **Tin Damage:** If the tin itself is significantly dented or damaged upon arrival, contact the retailer from whom you purchased the product.
- **Code Card Issues:** If your code card does not work when attempting to redeem it on Pokémon TCG Live, double-check that you have entered the code correctly. If the issue persists, contact Pokémon International support for assistance.
