KEY FEATURES

Prison Island Structure

The Prison Island features a multi-level structure with various interactive elements designed for imaginative play:

- **Control Room:** Located at the top, providing a vantage point for police minifigures.
- **Officers' Break Room:** A dedicated area for police minifigures.

- **Entrance Hall:** The main entry point to the prison.
- **Courtyard with Secret Escape Hatch:** A hidden mechanism allowing prisoner minifigures to attempt an escape.
- **Kennel Room:** For the police dog minifigure.
- **Cell with Escape Tunnel:** A prison cell featuring a secret tunnel leading to an abandoned mine.
- **Prisoner's Laundry Room:** Contains jailbreak tools for added play scenarios.
- **Helipad:** A designated landing area for the police helicopter.
- **Cliff Face with Loose Rock:** An explosive exit feature for dynamic escapes.

MAINTENANCE

To ensure the longevity and cleanliness of your LEGO City Police Prison Island set, follow these maintenance guidelines:

- **Cleaning:** LEGO bricks can be cleaned using a mild soap solution and lukewarm water (not exceeding 40°C or 104°F). Rinse thoroughly with clear water and allow to air dry at room temperature. Do not use hot water, harsh chemicals, or abrasive cleaners, as these can damage the plastic.
- **Storage:** Store the set in a cool, dry place away from direct sunlight to prevent discoloration and warping of the plastic elements.
- **Handling:** Handle the assembled model with care to avoid accidental disassembly.

TROUBLESHOOTING

If you encounter any issues during assembly or play, consider the following:

- **Missing Pieces:** In the rare event of a missing piece, please visit the official LEGO Customer Service website to request replacement parts.
- **Assembly Difficulties:** Double-check the instruction manual or the LEGO Builder app to ensure each step is followed correctly. Sometimes a small piece may be misplaced or incorrectly oriented.
- **Loose Connections:** Ensure that all LEGO bricks are firmly pressed together. A loose connection can affect the stability of the model.
