Marshall Motif II A.N.C. True Wireless Earbuds User Manual

Your guide to setup, operation, and maintenance.

INTRODUCTION

The Marshall Motif II A.N.C. earbuds are engineered to provide a powerful and balanced audio experience with the convenience of true wireless technology. Designed for active noise cancellation and extended playtime, these earbuds ensure your music is always with you, uninterrupted.

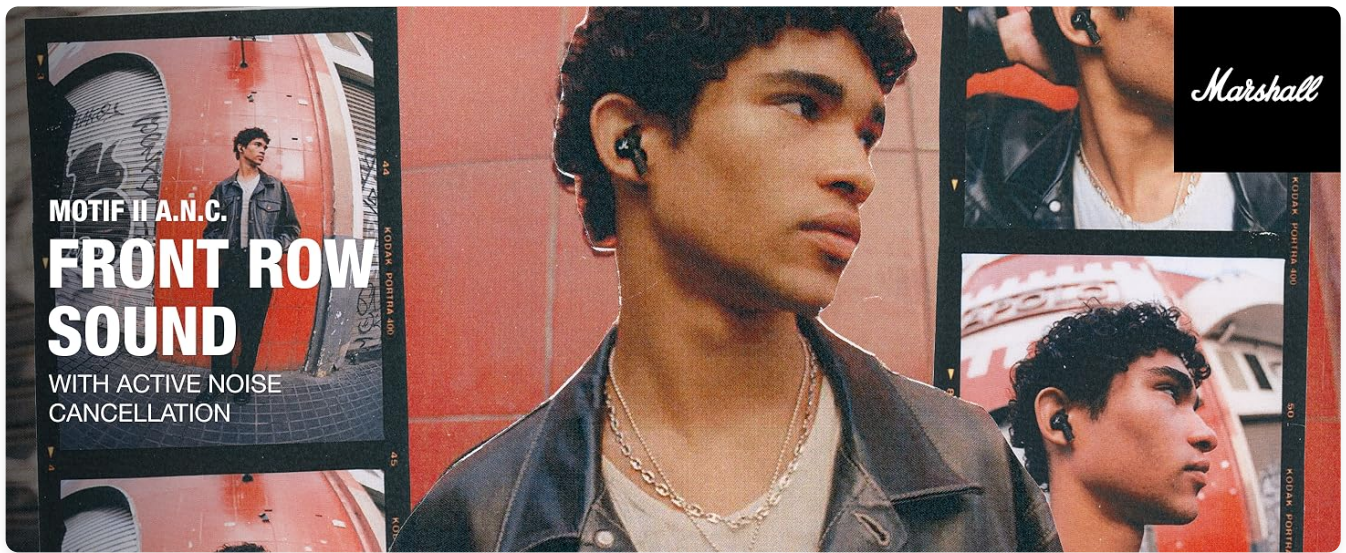

Marshall Motif II A.N.C. True Wireless Active Noise-Canceling Earbuds with their charging case.

SETUP

Getting Started & Pairing

Follow these steps to set up your Motif II A.N.C. earbuds:

1. Open the charging case.
2. Press and hold the button on the case until the LED turns to a slow blue pulse.
3. Select "Motif II A.N.C." from your sound device's Bluetooth list.
4. Download the Marshall Bluetooth app and follow the in-app instructions to complete the setup.

Visual guide for initial setup and pairing of your earbuds.

Charging the Earbuds

To charge the earbuds, simply place them back into the charging case and close the lid. They will automatically turn off and begin charging.

Place earbuds into the case to initiate charging.

Charging the Case

The charging case can be charged using a wireless charger or by plugging it into a USB power source with the provided USB-C cable. The front-facing LED will display a steady green light when fully charged.

The charging case supports both wired USB-C and wireless charging.

OPERATING INSTRUCTIONS

Touch Controls

The Motif II A.N.C. earbuds feature intuitive touch controls on each earbud for managing playback, calls, and noise control modes. These controls can be customized further via the Marshall Bluetooth app.

The earbuds feature touch-sensitive surfaces for control.

Active Noise Cancellation (ANC) & Transparency Mode

Immerse yourself in your audio with improved active noise cancellation, blocking out ambient distractions. For situations where you need to be aware of your surroundings, switch to transparency mode to let external sounds in. Both modes can be adjusted for intensity through the Marshall Bluetooth app.

Experience enhanced focus with Active Noise Cancellation or stay aware with Transparency Mode.

FEATURES

Marshall Signature Sound

Precision engineered, the Motif II A.N.C. delivers clear and balanced sound, ensuring a concert-quality audio experience wherever you go.

60 YEARS OF LOUD

It all started with the JTM45; Marshall's first guitar amp that produced a much heavier reverberated sound than anything heard before. Made to meet the needs of local guitarists, who went on to revolutionise music forever, our commitment to creating iconic products is unchanged over 60 years later. Having honed our craft with each passing decade, our unmistakable signature sound is now featured in all of our legendary speakers and headphones.

Enjoy the iconic Marshall Signature Sound with these earbuds.

Reliable Playtime

The earbuds offer up to 6 hours of playtime on a single charge, and with the charging case, you get a total of up to 30 hours of wireless playtime. A quick 15-minute charge provides an additional hour of listening.

Extended battery life ensures your music lasts throughout the day.

BT LE Audio Ready

Equipped with BT LE Audio, these earbuds ensure the best possible connection, delivering higher quality audio, increased streaming range, and improved audio sync for a seamless experience, especially when watching videos.

More Sustainable Design

The Motif II A.N.C. earbuds and their case are made from 70% post-consumer recycled plastic, including materials from used electronics, water bottles, and automotive light covers, contributing to a more sustainable product.

MAINTENANCE

Cleaning Your Earbuds

Regularly clean your earbuds and charging case with a soft, dry, lint-free cloth. Avoid using harsh chemicals or abrasive materials. Gently remove any earwax buildup from the ear tips and speaker mesh using a small, soft brush or cotton swab.

Battery Preservation

To extend the lifespan of your earbuds' batteries, utilize the 'Battery Preservation' feature within the Marshall Bluetooth app. This allows you to set a maximum charge limit (e.g., 90%) and optimize charging speed, which can help maintain battery health over time.

TROUBLESHOOTING

Common Issues & Solutions

- **Pairing Issues:** Ensure the earbuds are in pairing mode (blue pulsing LED on case). Turn off and on your device's Bluetooth, then try re-pairing. If issues persist, try forgetting the device in your Bluetooth settings and re-pairing.
- **Sound Quality Concerns:** If sound is tinny or unbalanced, use the equalizer settings in the Marshall Bluetooth app to customize the audio profile to your preference. Ensure ear tips provide a secure seal for optimal sound.
- **Active Noise Cancellation (ANC) Performance:** While effective, ANC performance can vary based on fit and

environment. Ensure a snug fit with the correct ear tip size. Adjust ANC levels in the Marshall app.

- **Voice Pickup for Calls/Talk-to-Text:** Some users may experience limitations with voice pickup for talk-to-text functions. Ensure earbuds are properly seated and microphones are clear of obstructions.
- **Battery Drain:** If experiencing faster than expected battery drain, ensure earbuds are properly seated in the case when not in use. Check the 'Battery Preservation' settings in the Marshall app.
