## Earto CT100

# Earto CT100 Wireless Mechanical Keyboard Instruction Manual

Model: CT100

## 1. PRODUCT OVERVIEW

The Earto CT100 is an ultra-slim 96% layout mechanical keyboard designed for versatility and ergonomic comfort. It features a durable aluminum alloy body, white keycaps, and white LED backlighting. With multiple connectivity options and system compatibility, it is suitable for various computing environments.

## 2. WHAT'S IN THE BOX

- Earto CT100 Wireless Mechanical Keyboard
- USB Cable (Type-C to USB-A)
- USB Receiver (2.4G)

## 3. SETUP

### 3.1 Charging the Keyboard

Before initial use, fully charge the keyboard using the provided USB-C cable. Connect the USB-C end to the keyboard's charging port and the USB-A end to a power source (e.g., computer USB port, USB wall adapter). The keyboard has a 2000mAh Lithium Polymer battery.

### 3.2 Connectivity Modes

The CT100 supports three connectivity modes: Bluetooth 5.0, 2.4G wireless, and wired USB-C. A toggle switch on the keyboard allows you to select your preferred mode.

Image: The Earto CT100 keyboard on a desk, illustrating its multiple connectivity options: wired via Type-C cable, 2.4G wireless with a USB dongle, and Bluetooth wireless.

#### 3.2.1 Bluetooth Connection

1. Toggle the switch on the keyboard to Bluetooth mode.
2. On your device (computer, phone, tablet), enable Bluetooth and search for available devices.
3. Select 'Earto CT100' from the list to pair. The keyboard can store up to three Bluetooth devices, allowing easy switching.

#### 3.2.2 2.4G Wireless Connection

1. Locate the 2.4G USB receiver (usually stored in a slot on the keyboard or included separately).

2. Plug the USB receiver into an available USB-A port on your computer.
3. Toggle the switch on the keyboard to 2.4G wireless mode. The keyboard should automatically connect.

### 3.2.3 Wired Connection

1. Connect the USB-C cable to the keyboard's port.
2. Connect the USB-A end of the cable to your computer.
3. Toggle the switch on the keyboard to wired mode.

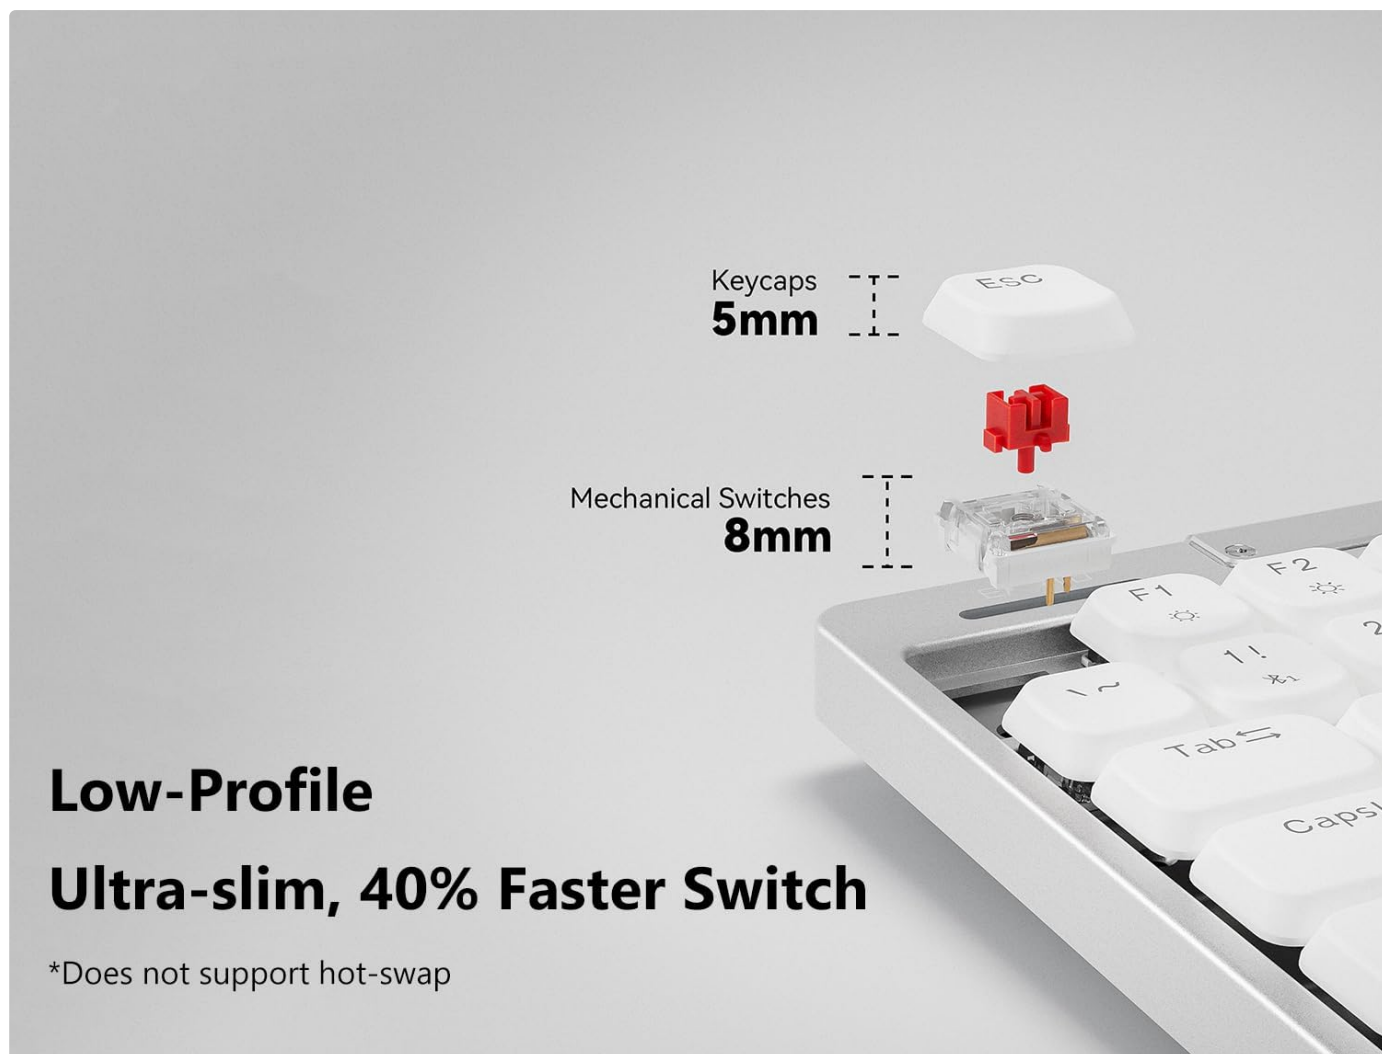

## 3.3 System Compatibility

The CT100 is compatible with both Windows and Mac OS. Use the dedicated paddle switch on the keyboard to select the appropriate operating system layout for seamless functionality.

## 4. OPERATING INSTRUCTIONS

### 4.1 Key Layout and Design

The keyboard features a 96% layout with 100 keys, offering a compact design while retaining essential function and numeric keys. The ultra-slim low-profile mechanical switches provide faster triggering and easier key presses, reducing wrist fatigue.

**Low-Profile**

**Ultra-slim, 40% Faster Switch**

### 4.2 Backlighting Effects

The CT100 includes white LED backlighting with translucent ABS keycaps for a pleasant visual experience. You can

adjust the brightness (3 levels) and choose from 20 different light modes to suit your preference.

## Radiant White Keys

### Customizable Brightness & Modes

### 4.3 Adjustable Typing Angle

The keyboard features a dual support bracket, allowing you to adjust the typing angle to 6° or 9°. These angles are ergonomically designed to enhance comfort during extended typing sessions.

## 5. MAINTENANCE

### 5.1 Cleaning

To clean the keyboard, gently wipe the surface with a soft, dry, lint-free cloth. For deeper cleaning, you may carefully remove keycaps using a keycap puller (if provided) and clean underneath. Avoid using harsh chemicals, abrasive materials, or excessive moisture.

### 5.2 Storage

When not in use, store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures. Ensure it is turned off to conserve battery life.

## 6. TROUBLESHOOTING

### 6.1 Connectivity Issues

- **Keyboard not connecting:** Ensure the keyboard is charged and the mode switch is set correctly (Bluetooth, 2.4G,

or Wired). For Bluetooth, ensure your device's Bluetooth is on and the keyboard is in pairing mode. For 2.4G, ensure the USB receiver is securely plugged in.

- **Intermittent connection:** Try moving the keyboard closer to your device or using a different USB port for the 2.4G receiver. Ensure there are no strong interference sources nearby.

6.2 Backlight Issues

- **Backlight not turning on:** Check if the keyboard battery is low. Adjust brightness levels using the designated function keys.
- **Backlight flickering:** This could indicate a low battery. Recharge the keyboard fully.

6.3 Typing Issues

- **Incorrect key output:** Verify that the system compatibility switch (Windows/Mac) on the keyboard is set to match your operating system.
- **Keys not responding:** Ensure the keyboard is powered on and properly connected. Try switching to a different connectivity mode.
