Tailulu HQZZ-260 Air Purifier Replacement Filter Instruction Manual

Model: HQZZ-260

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before installing or replacing the filter. Keep this manual for future reference.

- Always unplug the air purifier from the power outlet before attempting to replace the filter.
- Ensure the filter is handled with clean hands to prevent contamination.
- **Remove all plastic packaging from the new filter before installation.** Failure to do so will prevent the air purifier from functioning correctly.
- Dispose of used filters according to local regulations.

2. PRODUCT OVERVIEW

The Tailulu HQZZ-260 Replacement Filter is designed for use with the Tailulu HQZZ-260 Air Purifier. It features a 3-in-1 filtration system to effectively capture various airborne particles and odors.

2.1. 3-in-1 Filtration System

- **Fine Preliminary Filter:** Captures larger particles such as dust, lint, fibers, and pet hair.
- **H13 True HEPA Filter:** Captures 99.98% of airborne particles as small as 0.3 microns, including pollen, dust mites, and pet dander.
- **Activated Carbon Filter:** Absorbs various household odors, smoke, cooking smells, and volatile organic compounds (VOCs).

3. INSTALLATION INSTRUCTIONS

Follow these steps to replace the air filter in your Tailulu HQZZ-260 Air Purifier:

1. **Power Off and Unplug:** Ensure the air purifier is turned off and unplugged from the power outlet.
2. **Access Filter Compartment:** Locate and open the filter compartment cover on your air purifier. Refer to your air purifier's manual for specific instructions on opening the compartment.
3. **Remove Old Filter:** Carefully remove the used filter from the air purifier. It may be dusty, so handle it over a waste bin.
4. **Prepare New Filter:** Unpack the new Tailulu HQZZ-260 replacement filter and remove all plastic packaging.
5. **Insert New Filter:** Insert the new filter into the air purifier, ensuring it is oriented correctly. The filter should fit snugly into the compartment.
6. **Close Compartment:** Securely close the filter compartment cover.
7. **Restore Power:** Plug the air purifier back into the power outlet and turn it on. Reset the filter life indicator if your air purifier model has this feature.

4. MAINTENANCE AND REPLACEMENT

For optimal performance, it is recommended to replace the Tailulu HQZZ-260 Air Purifier Replacement Filter every **3 to 6 months**. The actual replacement interval may vary depending on air quality, usage frequency, and environmental factors.

- Regularly check the filter for visible signs of dirt or discoloration.
- Do not attempt to wash or clean the filter, as this can damage the filtration media and reduce effectiveness.
- Always use genuine Tailulu replacement filters to ensure compatibility and maintain air purifier performance.

6. TROUBLESHOOTING

If you experience issues after replacing your filter, consider the following:

- **Reduced Airflow:** Ensure all plastic packaging has been removed from the new filter. Check that the filter is installed correctly and the compartment cover is fully closed.
- **Unusual Odors:** If new odors are present, verify the filter is correctly installed and all packaging is removed. New filters may have a slight initial odor that dissipates quickly. If odors persist, contact support.
- **Air Purifier Not Functioning:** Confirm the air purifier is properly plugged in and the filter compartment is securely closed. Some models will not operate if the filter cover is not correctly latched.

If problems persist, please refer to the Warranty and Support section for assistance.
