Setup

1. **Unboxing:** Carefully remove the doll and all accessories from the plastic-free packaging.
2. **Initial Cleaning:** Before first use, wipe the doll with a damp cloth. For bathing, refer to the 'Bathing' section under Operating Instructions.
3. **Prepare the Bottle:** Fill the included bottle with fresh, clean water for the doll to drink.

Operating Instructions: 7 Functions

Your BABY born Little Girl doll is designed with 7 interactive functions to enhance imaginative play. All functions are

mechanical and do not require batteries.

1. **Drinking:**
   Hold the bottle to the doll's mouth. The doll can drink water from the bottle. Ensure the bottle is properly inserted into the doll's mouth for effective drinking.

Image: The doll drinking from her bottle, demonstrating her ability to consume water, with an inset showing her crying.

2. **Wetting Diaper:**
   After the doll has drunk water, press her belly button firmly. The doll will then wet her cloth diaper. This simulates a real baby's need for diaper changes.

3. **Crying Real Tears:**
   To make the doll cry real tears, ensure she has recently drunk water. Then, gently press the middle of her upper chest. Tears will roll from her eyes.

4. **Going to the Potty:**
   Place the doll on her potty after she has drunk water. Press her belly button to make her 'pee' into the potty. This function encourages potty training role-play.

Image: The doll positioned on her potty, illustrating her ability to use it, and also shown lying down wearing a diaper.

5. **Bathing:**
   Since the doll is purely mechanical and requires no batteries, she can be taken into the bathtub for water play. Ensure all water is drained from the doll after bathing (see Maintenance section).

Image: The doll enjoying a bath in a pink tub filled with bubbles, demonstrating her water-friendly design.

6. **Sleeping (Sleep Eyes):**
   When the doll is laid down on her back, her eyes will automatically close, simulating sleep. When she is picked up, her eyes will open again.

Image: The doll lying down with her eyes closed and pacifier in mouth, illustrating her sleep function.

7. **Movable Arms and Legs:**
   The doll features movable arms and legs, allowing for various poses and interactive play scenarios, such as dressing and undressing, or sitting her in a doll stroller.

Image: A child holding the doll, demonstrating the doll's movable arms and legs for dynamic play.

Maintenance

- **Cleaning:** For general cleaning, wipe the doll's surface with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **After Bathing:** After the doll has been in water, ensure all water is thoroughly drained from her. Gently squeeze her limbs and body to expel any trapped water. Allow her to air dry completely before storing to prevent mildew.
- **Accessory Care:** Wash cloth accessories (romper, hat, diaper) by hand with mild soap and water, then air dry.

Troubleshooting

- **Doll not crying/wetting:** Ensure the doll has been fed sufficient water. Press the designated areas (belly button for wetting, upper chest for crying) firmly and correctly.
- **Water not draining:** If water remains inside the doll after bathing, gently shake and squeeze the doll to help drain the water through the small openings.

- **Stiff limbs:** The doll's limbs are designed to be movable. If they feel stiff, gently manipulate them to loosen. Avoid excessive force.

Specifications

Feature	Detail
Product Dimensions	17 x 20.8 x 33.5 cm
Item Weight	1.27 Kilograms
Manufacturer's Age Recommendation	36 Months - 10 Years
Model Number	831960
Learning Objective	Spatial Awareness
Number of Players	1
Assembly Required	No
Batteries Required	No
Material	Plastic
Color	Pink, White
