### qirita C03

# qirita Flexible Camera Tripod Instruction Manual

Model: C03

## 1. INTRODUCTION

The qirita Flexible Camera Tripod is a versatile and portable accessory designed for stable photography and videography with smartphones, cameras, and DSLRs. Its unique flexible legs and extendable pole offer multiple shooting possibilities, from tabletop use to wrapping around objects. The included wireless remote enhances convenience for capturing photos and videos from a distance.

Image 1.1: Overview of the qirita Flexible Camera Tripod and its accessories.

## Package Contents:

- 1 x Flexible Tripod
- 1 x Wireless Remote Shutter
- 1 x Cell Phone Clip Holder

## 2. PRODUCT COMPONENTS

Familiarize yourself with the main parts of your qirita Flexible Camera Tripod:

### 2.1 Retractable Aluminum Pole

The central pole extends to provide additional height, functioning as a selfie stick or a taller tripod. It is constructed from durable aluminum.

# Extendable Aluminum Pole

Image 2.1: The retractable aluminum pole, showing its extended length of 66 cm (25.9 in) and collapsed length of 46 cm (18.1 in).

## 2.2 Flexible Octopus Legs

The three legs are made of non-slip rubber material and can be bent and wrapped around various objects for secure mounting on uneven surfaces or poles.

# More Stable, More Flexible

Image 2.2: The flexible octopus legs provide stability and allow the tripod to be mounted on various surfaces or objects.

## 2.3 360° Ball Head

Located at the top of the pole, the metal ball head allows for precise adjustment of shooting angles and smooth 360-degree rotation.

## 2.4 Detachable Phone Holder

This clip securely holds smartphones and can be detached from the tripod to function as a portable phone stand. It supports phones with widths between 2.5 and 3.7 inches (65-95 mm).

## Detachable Cell Phone Clip

Image 2.3: The detachable phone clip, which can also serve as a standalone phone holder.

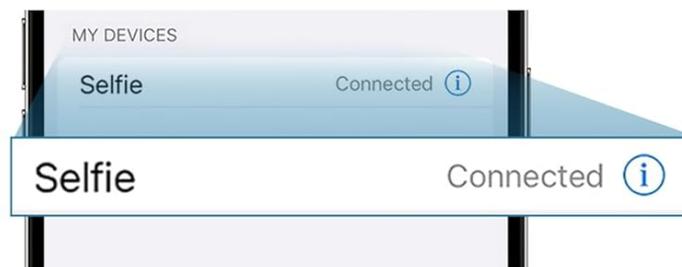

### 2.5 Wireless Remote Shutter

A small, detachable Bluetooth remote allows for wireless control of your device's camera from up to 10 meters away.

# Detachable Wireless Remote

**32.8ft/10M Remote Range**

iOS 5.1+

Android 4.4+

Image 2.4: The detachable wireless remote for convenient photo and video capture.

## 3. SETUP GUIDE

### 3.1 Attaching Your Device

1. **For Smartphones:** Securely place your smartphone into the detachable phone clip. Ensure the phone is centered and firmly held.
2. **For Cameras/DSLRs:** The tripod features standard 1/4 inch threads. Screw your camera or DSLR directly onto the tripod's mounting screw.
3. **For Accessories:** The tripod includes a standard cold shoe mount for attaching accessories like microphones or fill lights.

# High Compatibility

Image 3.1: The tripod's versatile mounting options for various devices.

## 3.2 Pairing the Wireless Remote

1. Ensure the wireless remote has a charged battery (1 Lithium Metal battery included).
2. Turn on the remote by sliding the power switch. A blue indicator light will flash, indicating it's in pairing mode.
3. On your smartphone, go to Bluetooth settings and search for available devices.
4. Select "Selfie" from the list of devices to pair. The blue light on the remote will stop flashing and remain solid once connected.
5. The remote is compatible with both iOS (5.1+) and Android (4.4+) devices and does not require any additional app installation.

## 4. OPERATING INSTRUCTIONS

### 4.1 Adjusting Height and Stability

- **Extendable Pole:** To extend the tripod, pull the central aluminum pole upwards. To retract, push it down until it locks into

place. The pole extends from 18.11 inches (46 cm) to 25.98 inches (66 cm).

- **Flexible Legs:** Bend the octopus legs to achieve desired stability on flat surfaces or to wrap them around objects like railings, fences, or tree branches. The non-slip rubber ensures a secure grip.

## 4.2 Multi-Angle Rotation

- The 360° rotating metal ball head allows you to easily adjust the angle of your device for optimal shooting. Loosen the knob on the side of the ball head, position your device, and then tighten the knob to secure it.
- The phone clip itself is also 360° rotatable, enabling quick switching between landscape and portrait modes without re-positioning the tripod.

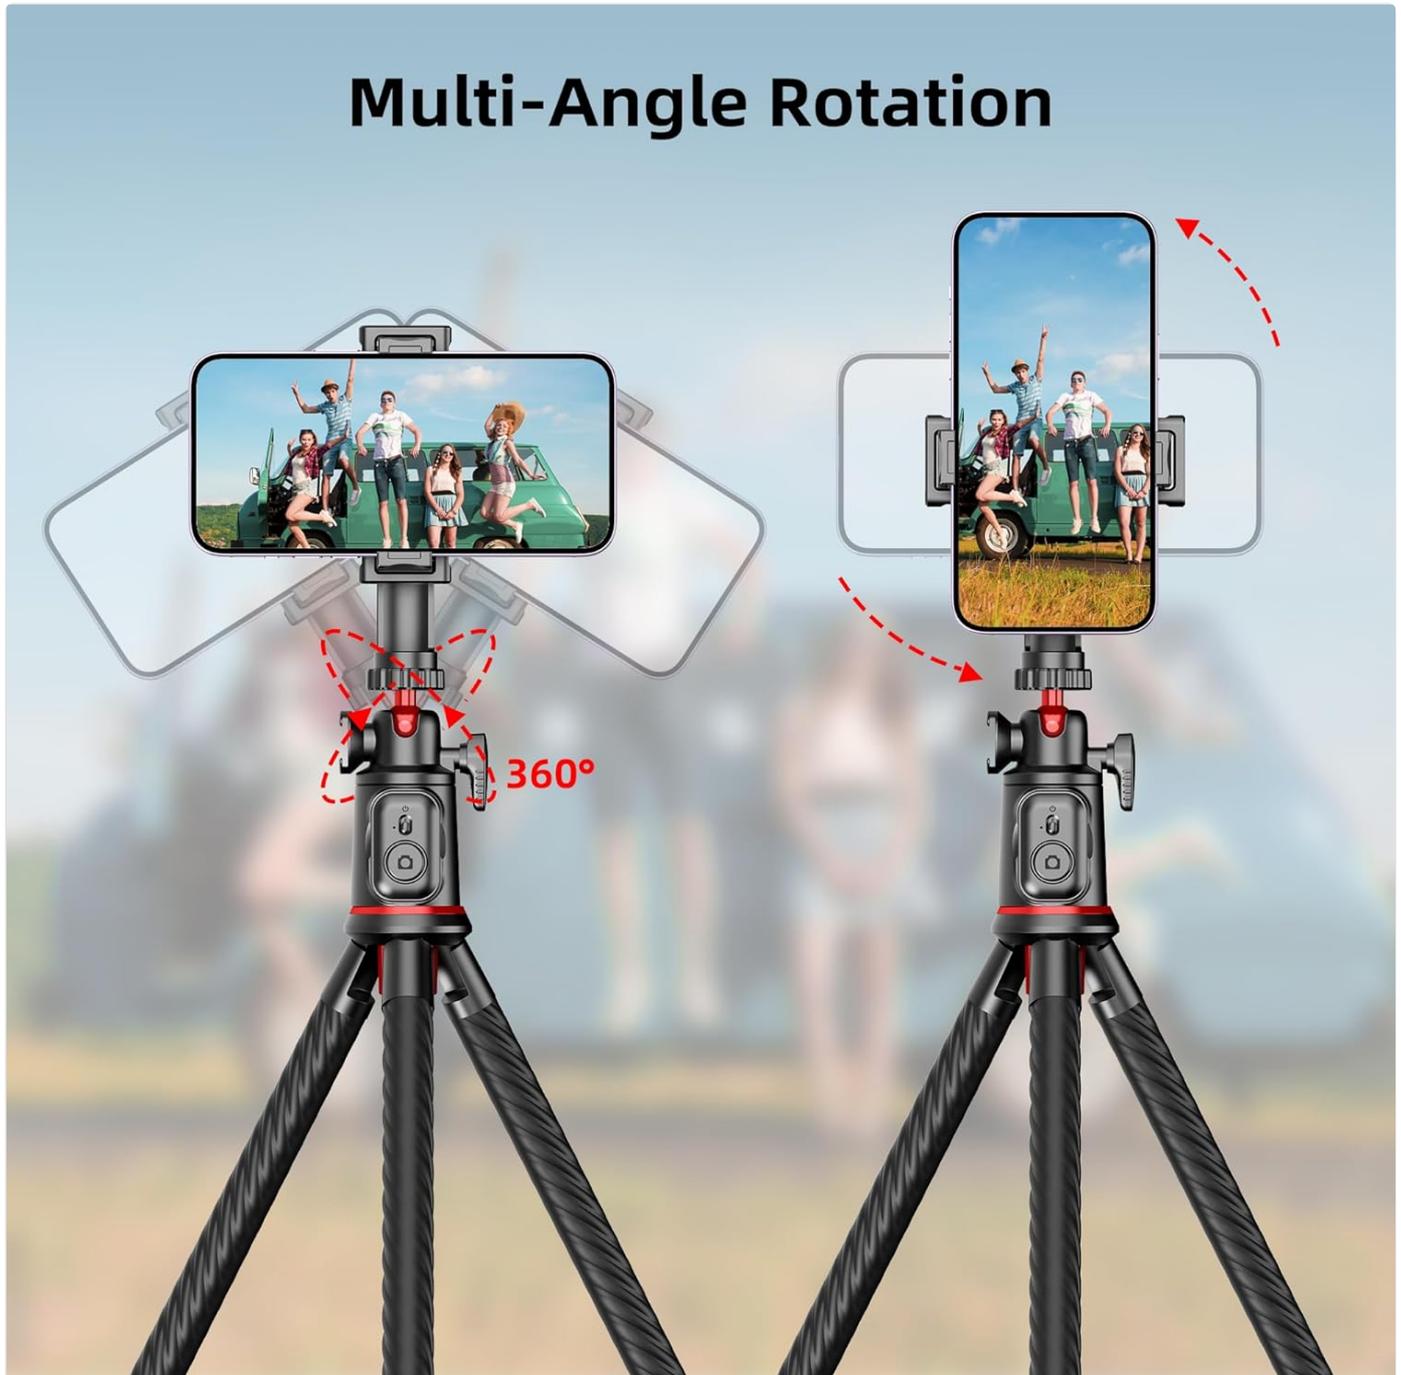

Image 4.1: Demonstrating the multi-angle rotation capabilities of the tripod.

## 4.3 Using the Wireless Remote

- Once paired, open your device's camera application.
- Press the button on the remote to trigger the shutter for photos or to start/stop video recording.

## 4.4 Versatile Usage Scenarios

- **Tripod Mode:** Use the flexible legs to stand the tripod on any flat or uneven surface, or wrap them around objects for unique perspectives.
- **Selfie Stick Mode:** Extend the aluminum pole and hold the tripod to capture wider selfies or group photos.
- **Portable Phone Stand:** Detach the phone clip and use it independently to watch videos or make video calls.

Image 4.2: Examples of how the flexible tripod can be used in different settings.

## 5. COMPATIBILITY

The qirita Flexible Camera Tripod is designed for wide compatibility:

- **Smartphones:** The phone clip accommodates devices with widths ranging from 2.5 to 3.7 inches (65-95 mm). This includes models like iPhone 15/15 Plus/15 Pro/14/14 Pro/11/11 Pro Max/XS Max, Samsung Galaxy S20/S10/S9, Huawei, Xiaomi, Google Pixel, and more.
- **Cameras:** Equipped with standard 1/4 inch threads, it is compatible with most cameras and DSLRs.
- **Action Cameras:** Can be used with action cameras (GoPro adapter not included).
- **Accessories:** Features a cold shoe mount for attaching external microphones, LED fill lights, and other compatible accessories.

# Wide Compatibility

Compatible with cell phone, camera, GoPro (GoPro adapter not included)

Image 5.1: The tripod's broad compatibility with different types of devices.

## 6. MAINTENANCE

To ensure the longevity and optimal performance of your tripod, follow these maintenance guidelines:

- **Cleaning:** Wipe the tripod with a soft, damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, which can damage the aluminum and rubber materials.
- **Storage:** Store the tripod in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Over-bending:** While the legs are flexible, avoid excessive or sharp bending at the same point repeatedly, which could weaken the internal structure over time.
- **Battery Care:** If the wireless remote will not be used for an extended period, consider removing the lithium metal battery to prevent leakage.

## 7. TROUBLESHOOTING

If you encounter issues with your qirita Flexible Camera Tripod, refer to the following common problems and solutions:

- **Remote Not Connecting:**
  - Ensure the remote is turned on and the battery is not depleted.
  - Check your device's Bluetooth settings to ensure Bluetooth is enabled.
  - Forget the "Selfie" device in your Bluetooth settings and attempt to re-pair.
  - Ensure the remote is within the 10-meter operating range.
- **Phone Not Holding Securely:**
  - Verify that your phone's width is within the supported range (2.5 - 3.7 inches / 65-95 mm).
  - Ensure the phone is properly centered and fully inserted into the clip.
- **Tripod Instability:**

- Adjust the flexible legs to create a wider base for increased stability, especially on uneven surfaces.
- Ensure the ball head knob is securely tightened after adjusting the angle.

## 8. SPECIFICATIONS

Feature	Detail
Model Number	C03
Product Dimensions	2.28 x 2.28 x 18.11 inches
Item Weight	12.9 ounces (365 grams)
Material	Aluminum (pole), Rubber (legs)
Maximum Height	66 Centimeters (25.98 inches)
Minimum Height	33 Centimeters (12.99 inches)
Phone Clip Width	2.5 - 3.7 inches (65 - 95 mm)
