KOSPET Tank S1, Tank T2

KOSPET Tank S1 & Tank T2 Smartwatch User Manual

Models: Tank S1, Tank T2

1. Introduction

Welcome to the KOSPET Tank S1 and Tank T2 Smartwatch User Manual. This guide provides essential information for setting up, operating, and maintaining your new KOSPET smartwatches. Both models are designed for durability and advanced functionality, offering a robust experience for daily use and outdoor activities.

Figure 1.1: KOSPET Tank S1 (right) and Tank T2 (left) Smartwatches. The Tank T2 features a metal band, while the Tank S1 is shown with a rubber band, highlighting their distinct designs and band options.

2. Product Overview

2.1 Key Features

- **Rugged Durability:** Both models are built to withstand harsh environments. The Tank T2 features a scratch-resistant titanium alloy outer surface ring secured by four steel nails, designed to protect the glass cover plate.
- **Military Standard Verification (Tank T2):** The Tank T2 is designed to U.S. MIL-STD-810H standards, having passed 12 military tests for extreme conditions.
- **AMOLED Display:** Equipped with a 1.43-inch HD AMOLED always-on color screen, offering 1000 NIT brightness and 466x466 resolution for clear outdoor visibility.
- **Extended Battery Life:** Features a 410mAh pure cobalt battery, providing up to 15 days of daily usage and 50 days of standby time.

- **Multi-Sport Modes:** Supports over 70 sports modes, with intelligent recognition for 6 common activities (stationary, walking, running, cycling, elliptical trainer, rowing machine).
- **Communication Features:** Includes AI Voice Assistant and Bluetooth calling capabilities.
- **Water Resistance:** Both models are 5 ATM and IP69K waterproof, suitable for various water activities.

3. Setup

3.1 Initial Charging

Before first use, fully charge your KOSPET smartwatch. Connect the magnetic charging cable to the charging contacts on the back of the watch and plug the USB end into a power adapter (not included) or a computer USB port. A full charge typically takes approximately 2 hours.

3.2 App Installation and Pairing

1. **Download the App:** Scan the QR code in the watch's quick start guide or search for the official KOSPET app (e.g., KOSPET FIT) in your smartphone's app store (Google Play Store for Android, Apple App Store for iOS).
2. **Create Account:** Open the app and follow the on-screen instructions to create an account or log in.
3. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
4. **Pair Device:** In the app, navigate to the 'Device' or 'Add Device' section. Select your KOSPET Tank S1 or Tank T2 from the list of available devices. Confirm the pairing request on both your watch and smartphone.
5. **Sync Data:** Once paired, the watch will automatically sync time and data with your smartphone.

4. Operating

4.1 Basic Navigation

- **Touch Screen:** Swipe left/right, up/down to navigate through menus and notifications. Tap to select.
- **Side Buttons:** The watch features multiple side buttons (e.g., 'POWER', 'SPORT', 'BACK') for quick access to functions. Refer to the watch's on-screen prompts for specific button actions.

4.2 Display Features

The 1.43-inch AMOLED display offers excellent clarity and visibility. The 'Always-On Display' feature allows the time and essential information to remain visible without needing to raise your wrist or activate the screen.

4.3 Sports Modes and Tracking

Your KOSPET smartwatch supports over 70 sports modes. It can also intelligently recognize 6 common sports activities automatically. To manually select a sport mode:

1. Press the 'SPORT' button or navigate to the 'Sports' menu on the watch.
2. Select your desired activity (e.g., running, cycling, swimming).

3. The watch will begin tracking your activity, including duration, distance, calories burned, and heart rate.
4. To end an activity, swipe or press the designated button and confirm.

4.4 Bluetooth Calling and AI Voice Assistant

Once paired with your smartphone, you can make and receive calls directly from your watch. The integrated AI Voice Assistant allows for hands-free control and information retrieval.

- **Bluetooth Calling:** Ensure the watch is connected to your phone via Bluetooth. When a call comes in, you can answer or reject it from the watch. You can also initiate calls from the watch's dialer or contact list.
- **AI Voice Assistant:** Activate the voice assistant (usually by long-pressing a button or through a specific menu option) and speak your commands or questions.

5. Maintenance

5.1 Water Resistance

Both KOSPET Tank S1 and Tank T2 are 5 ATM and IP69K waterproof. This means they are suitable for showering, swimming, snorkeling, and exposure to rain. However, they are not suitable for hot water activities, diving, or high-pressure water jets.

- Do not operate the watch buttons underwater.
- After exposure to saltwater, rinse the watch with fresh water and dry thoroughly.

Figure 5.1: The KOSPET Tank S1 smartwatch demonstrating its 5 ATM and IP69K waterproof rating, suitable for various water activities including snorkeling and swimming.

5.2 Cleaning and Care

- Regularly clean the watch case and strap with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive materials.
- Ensure the charging contacts are clean and dry before charging.

5.3 Battery Care

- Avoid fully discharging the battery frequently.
- Store the watch in a cool, dry place if not used for extended periods.
- Use only the provided magnetic charging cable.

6. Troubleshooting

6.1 Watch Not Turning On

- Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- Try pressing and holding the 'POWER' button for 10-15 seconds.

6.2 Pairing Issues

- Ensure Bluetooth is enabled on your smartphone and the watch is within range.
- Restart both your smartphone and the smartwatch.
- Forget the device in your phone's Bluetooth settings and try pairing again through the KOSPET app.
- Ensure the KOSPET app is updated to the latest version.

6.3 Inaccurate Data Tracking

- Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone.
- Clean the sensors on the back of the watch.
- Update the watch's firmware via the KOSPET app.

7. Specifications
