Xukinroy K350

Xukinroy Ultra-Slim Bluetooth Keyboard K350 User Manual

Model: K350 | Brand: Xukinroy

Setup | Operating Instructions | Maintenance | Troubleshooting | Specifications | Warranty & Support

1. Setup Guide

1.1 Package Contents

Verify that the following items are included in your package:

- 1 x Xukinroy Ultra-Slim Bluetooth Keyboard
- 1 x USB Charging Cable
- 1 x User Manual (this document)

1.2 Initial Charging

Before first use, fully charge the keyboard. Connect the provided USB cable to the keyboard's Micro USB port and the other end to a USB power source (e.g., computer, USB wall adapter). The 'Charge Power' indicator light will illuminate during charging and turn off when fully charged.

1.3 Bluetooth Connection Steps

Follow these steps to connect your Xukinroy Bluetooth Keyboard to your device:

1. **Power On:** Locate the ON/OFF switch on the keyboard (usually on the top right) and slide it to the "ON" position.
2. **Activate Pairing Mode:** Press the "CONNECT" button. The Bluetooth indicator light (often represented by a Bluetooth logo) will begin to flash, indicating the keyboard is in pairing mode.
3. **Enable Bluetooth on Your Device:** On your tablet, smartphone, or other compatible device, go to its Bluetooth settings and ensure Bluetooth is turned on.
4. **Search for Devices:** Your device will search for available Bluetooth devices. Look for "Bluetooth 3.0 Keyboard" in the list of found devices.
5. **Pair:** Select "Bluetooth 3.0 Keyboard" from the list. Your device may prompt you to enter a code displayed on the screen, or it may connect automatically. If a code is required, type it on the Xukinroy keyboard and press Enter.
6. **Connection Confirmation:** Once successfully paired, the Bluetooth indicator light on the keyboard will stop flashing and remain solid or turn off, depending on the keyboard's design.

Note:

- The keyboard can only be connected to one device at a time. To connect to a new device, you must first disconnect

the pairing from the previously connected device.

- Connection via a Bluetooth adapter on some devices may not be supported.

2. Operating Instructions

2.1 System Compatibility

The Xukinroy Bluetooth Keyboard is designed for wide compatibility across various operating systems:

- **iOS:** Compatible with Apple iPhone, iPad, iPad Mini, iPad Pro, iPad Air.
- **Android:** Compatible with Samsung Galaxy Tab, smartphones, and other Android tablets/phones.
- **Windows:** Compatible with Windows-based tablets and smartphones.

2.2 Hot Keys and Functionality

The keyboard features a US QWERTY layout with several hot keys for enhanced productivity. To use the blue-colored function keys, press and hold the **Fn** key simultaneously with the desired function key (F1-F12). These include controls for volume, media playback (play/pause, previous/next track), and other system functions.
The keys utilize a scissor-switch structure, providing a responsive and comfortable typing experience with quiet operation.

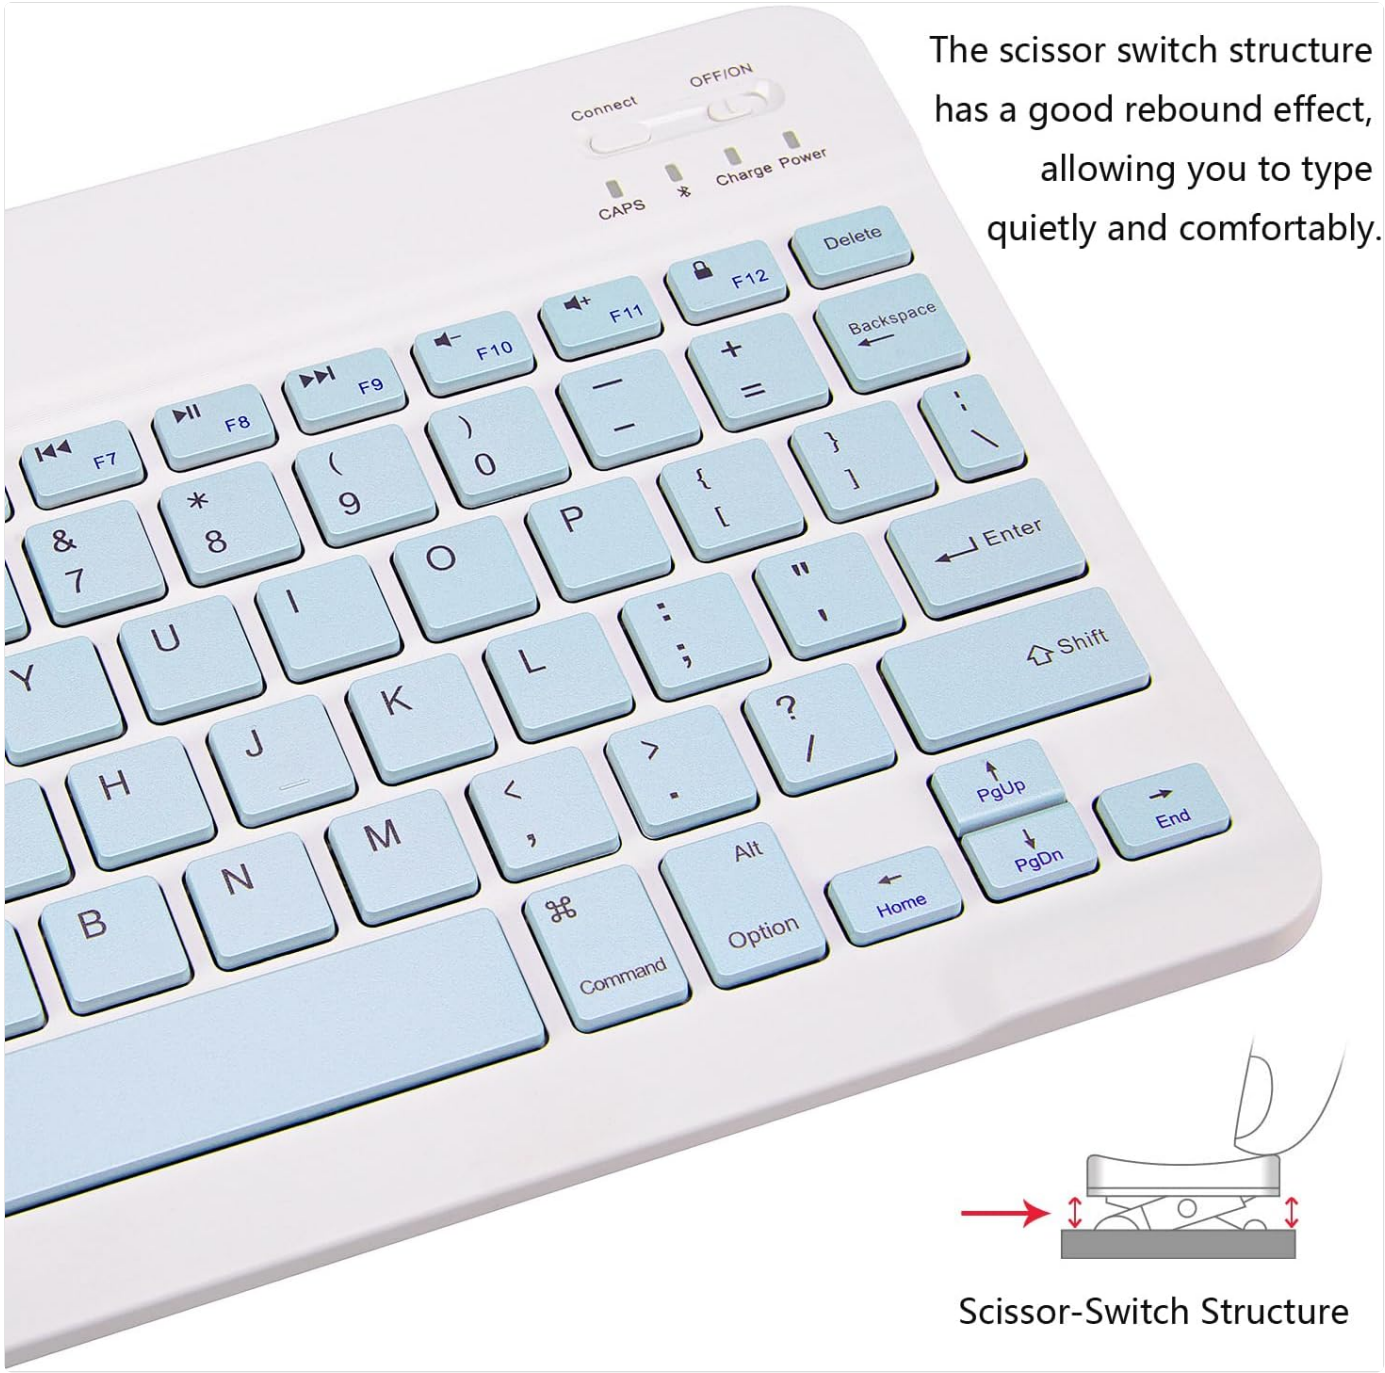

Image: A magnified view of the keyboard keys, illustrating the scissor-switch mechanism for quiet and comfortable typing.

2.3 Power Saving Mode

To conserve battery life, the keyboard automatically enters a sleep state if it remains unused for more than 10 minutes. To wake the keyboard, simply press any key. The keyboard will reconnect to the last paired device automatically.

3. Maintenance

3.1 Cleaning Instructions

To clean your keyboard, gently wipe the surface with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the keyboard's electronics and finish.

3.2 Battery Care

The keyboard features a built-in rechargeable lithium battery. To maximize battery lifespan:

- Avoid fully discharging the battery frequently.

- Store the keyboard in a cool, dry place when not in use for extended periods.
- Charge the keyboard regularly, even if not completely depleted.
- The estimated battery life is over 2 years with proper care. A full charge can provide over 20 days of use (based on 2 hours of continuous use per day).

4. Troubleshooting

4.1 Keyboard Not Connecting

- **Check Power:** Ensure the keyboard is turned ON and fully charged.
- **Re-enter Pairing Mode:** Turn the keyboard OFF, then ON again, and press the "CONNECT" button to re-enter pairing mode.
- **Device Bluetooth:** Verify that Bluetooth is enabled on your device and that it is discoverable.
- **Forget Device:** If previously paired, try "forgetting" or "unpairing" the keyboard from your device's Bluetooth settings, then attempt to pair again.
- **Interference:** Move the keyboard closer to your device and away from other wireless devices that might cause interference.
- **Single Device Limit:** Remember the keyboard can only connect to one device at a time. Ensure it's not still paired with another device.

4.2 Keys Not Responding

- **Battery Level:** A low battery can cause keys to become unresponsive. Charge the keyboard fully.
- **Reconnection:** If the keyboard has been idle, press any key to wake it from sleep mode.
- **Re-pair:** Try disconnecting and re-pairing the keyboard with your device.
- **Clean Keys:** Ensure no debris is lodged under the keys.

4.3 Charging Issues

- **Cable Check:** Ensure the USB charging cable is securely connected to both the keyboard and the power source.
- **Power Source:** Try a different USB port or wall adapter to rule out a faulty power source.
- **Cable Integrity:** Inspect the charging cable for any signs of damage. Use the original cable if possible.

5. Specifications

Feature	Detail
Brand	Xukinroy
Model Number	K350
Connectivity Technology	Bluetooth 3.0
Keyboard Layout	US QWERTY, 78 keys
Working Range	Up to 10 meters (33 feet)
Material	ABS + Aluminum alloy
Power Source	Built-in Rechargeable Lithium Battery
Battery Energy Content	0.55 Watt Hours

Feature	Detail
Battery Weight	4.1 Grams
Number of Lithium Ion Cells	1
Charging Interface	Micro USB
Dimensions (L x W x H)	25 x 15 x 0.6 cm (9.84 x 5.9 x 0.24 inches)
Weight	180 g (0.4 lbs / 6.35 oz)
