NEEWER PA005E

NEEWER PA005E Side Handle Grip for Smartphone Cage - Instruction Manual

Model: PA005E | Brand: NEEWER

1. Introduction

The NEEWER PA005E Side Handle Grip is designed to enhance your smartphone videography and photography experience. It features a wireless Bluetooth shutter release, versatile mounting options, and an ergonomic design for comfortable and stable handling. This manual provides instructions for setup, operation, and maintenance to ensure optimal use of your device.

What's in the Box

- 1x Side Handle Grip with Wireless Shutter Release
- 1x Mount Adapter with 1/4" Screw and Bevels
- 1x Mount Adapter with 1/4" Screw and Locating Pins
- 1x L-Shaped Hex Key
- 1x User Manual

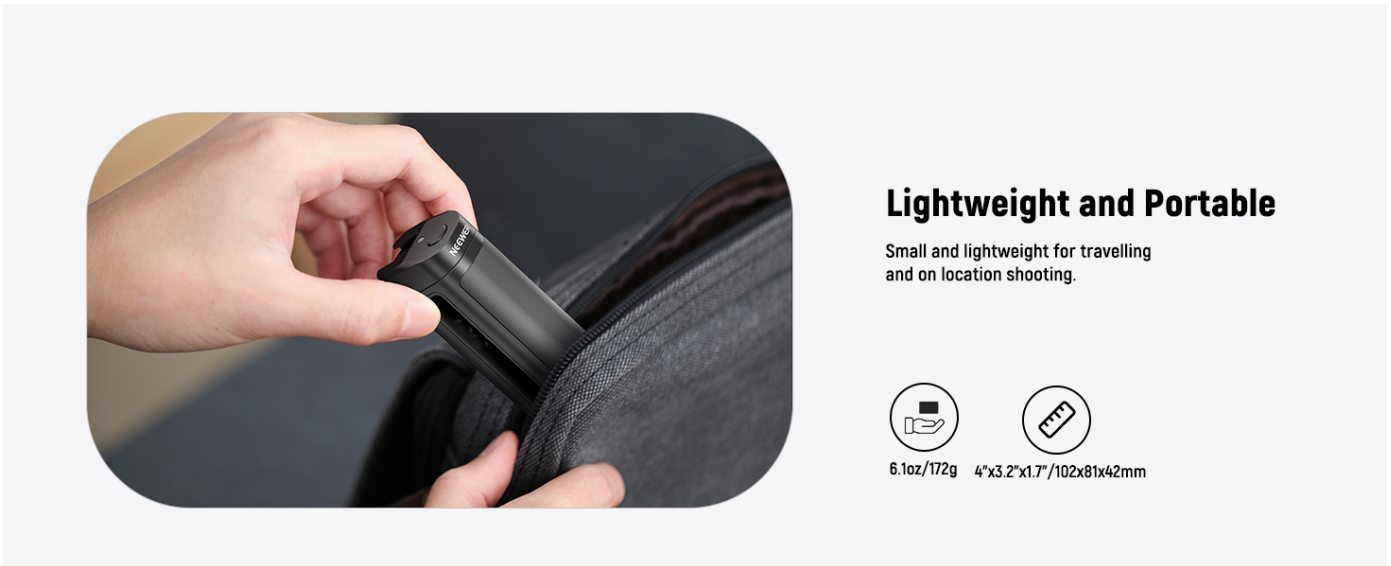

Figure 1: NEEWER PA005E Package Contents and Specifications Overview.

2. Product Features

2.1 Wireless Bluetooth Shutter Release

The handle grip includes a built-in 100mAh rechargeable battery and a wireless shutter release module. It pairs with your iOS/Android smartphone via Bluetooth, allowing you to capture photos and videos using the integrated shutter button. The grip can be used while charging via its USB Type-C port. An LED indicator provides operational status feedback.

Figure 2: Illustration of the wireless Bluetooth shutter release and its pairing process.

2.2 Two Targeted Mounting Adapters

The PA005E comes with two distinct adapters to ensure compatibility with various smartphone cages:

- **Adapter with 1/4" Screw & Locating Pins:** Compatible with SmallRig cages such as 4077 (for iPhone 14 Pro Max), 4075 (for iPhone 14 Pro), and universal accessories like 3155 CPU2391B CPU2494.
- **Adapter with 1/4" Screw & Anti-Twist Beveled Edges:** Designed for NEEWER cages, including PA006 (for iPhone 14 Pro), PA011 (for iPhone 14 Pro Max), PA016 (for Galaxy S22 Ultra), and PA021 (for Galaxy S23 Ultra).

For NEEWER PA009 cages, please use its original adapter.

Figure 4: Visual guide for compatible SmallRig and NEEWER phone cages.

2.3 Adjustable Mounting

The side handle grip can be mounted on either side of your smartphone cage for left or right-handed use. Its vertical position is adjustable to optimize balance and accessory placement. An L-shaped hex key, magnetically stored within the grip, facilitates easy installation and detachment.

Figure 5: Demonstrates the adjustable mounting capability and integrated hex key storage.

2.4 Cold Shoe Accessory Mount & Strap Slot

A cold shoe mount is located on the top of the handle, allowing for the attachment of accessories such as microphones (e.g., Rode Wireless Go II) or LED lights. A dedicated strap slot is also included for securing a wrist strap, preventing accidental drops.

Figure 6: Overview of the cold shoe mount, soft rubber grip, 1/4" screw, and wrist strap slot.

2.5 Lightweight & Robust Design

Weighing only 6oz (172g), the handle grip is constructed from black anodized aluminum alloy and durable ABS+PC plastic. Its ergonomic design with a non-slip rubber surface provides a comfortable and secure grip, contributing to reduced camera shake during use.

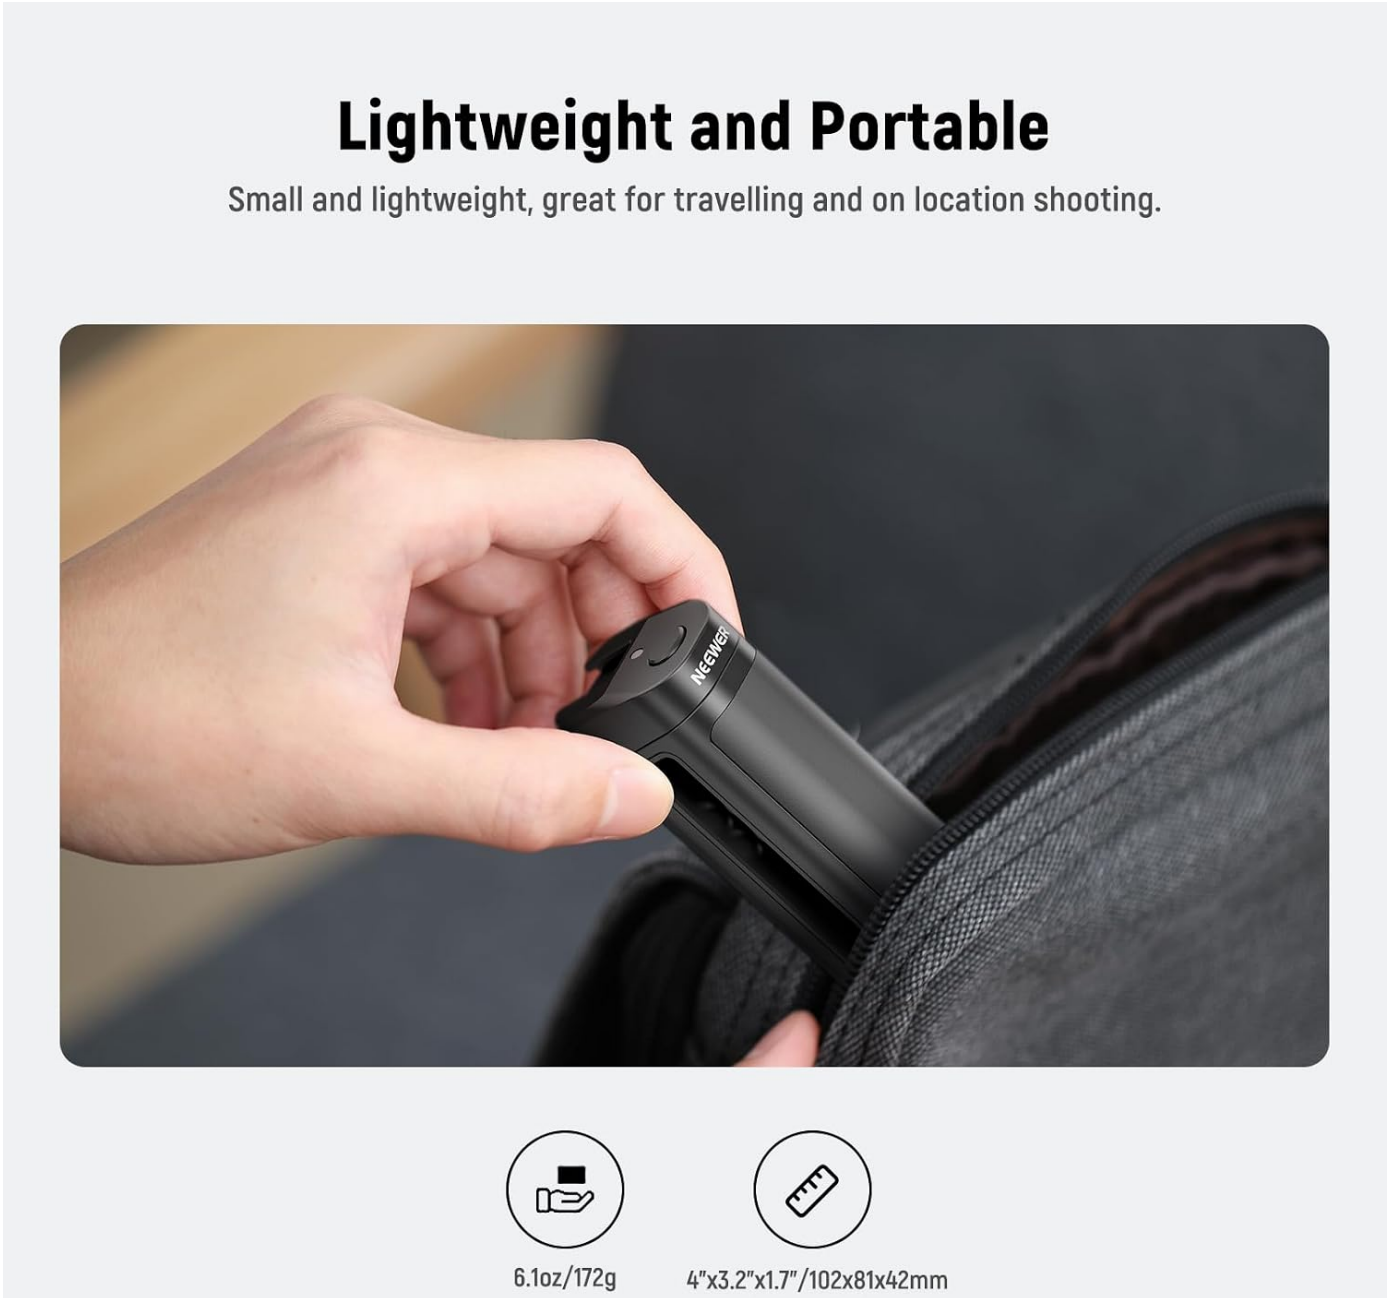

Figure 7: Illustrates the compact size and lightweight nature of the handle grip.

Figure 8: Demonstrates how the handle grip improves stability and reduces shaking.

3. Setup and Installation

3.1 Attaching the Handle to a Smartphone Cage

1. Identify the appropriate mounting adapter for your smartphone cage (refer to Section 2.2).
2. Insert the chosen adapter into the side handle grip.
3. Align the adapter with the mounting point on your smartphone cage.
4. Use the magnetically stored L-shaped hex key to securely fasten the adapter to the cage. Ensure it is tightened sufficiently to prevent movement.
5. Adjust the vertical position of the handle as needed for optimal balance and comfort.

3.2 Wireless Bluetooth Connection

1. Press and hold the power button on the handle grip to turn it on. The LED indicator will illuminate.

2. On your smartphone, navigate to the Bluetooth settings.
3. Search for available devices and select "NEEWER-PA005E" to pair.
4. Once paired, the LED indicator on the grip will change to confirm connection.

Note: The Bluetooth remote automatically turns off after 5 minutes if not connected to a smartphone, or after 30 minutes if connected but inactive. Press and hold the power button to reactivate and reconnect.

Video 2: Detailed demonstration of assembling and using the NEEWER Side Handle Grip.

4. Operating Instructions

4.1 Using the Shutter Button

Once the handle grip is paired with your smartphone, simply press the shutter button on the grip to trigger your phone's camera. A short press will typically take a photo, while a long press may initiate video recording, depending on your phone's camera app settings.

4.2 Charging the Battery

The PA005E features a 100mAh rechargeable battery. To charge, connect a USB Type-C cable to the charging port located on the grip. The LED indicator will show charging status (e.g., red for charging, green for fully charged). The grip can be used even while it is being charged.

Figure 9: Information on the 100mAh battery, USB Type-C charging, and ability to charge while in use.

5. Maintenance

To ensure the longevity and optimal performance of your NEEWER PA005E Side Handle Grip, follow these maintenance guidelines:

- **Cleaning:** Wipe the grip with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the charging port or button area. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the grip in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** For extended storage, charge the battery to approximately 50% every three months to maintain battery health.
- **Hex Key:** Always return the L-shaped hex key to its magnetic storage slot to prevent loss.

6. Troubleshooting

6.1 Bluetooth Connection Issues

- **Device Not Found:** Ensure the handle grip is powered on and within range of your smartphone. If it has been inactive for more than 5 minutes (unconnected) or 30 minutes (connected), it may have automatically powered off. Press and hold the power button to reactivate.
- **Unable to Pair:** Turn off Bluetooth on your smartphone and then turn it back on. Restart the handle grip. If the issue persists, try forgetting the device in your phone's Bluetooth settings and re-pairing.
- **Shutter Button Not Responding:** Verify that the handle grip is successfully paired with your smartphone. Check your phone's camera app settings to ensure it supports external shutter triggers.

7. Specifications

Feature	Detail
Model	PA005E
Input Voltage	5V
Battery Capacity	100mAh
Charging Port	USB Type-C
Compatible OS	iOS, Android
Material	Aluminum alloy, ABS+PC plastic
Dimensions	4"x3.2"x1.7" / 102x81x42mm
