1. SETUP

1.1 Battery Installation

1. Locate the battery compartment on the back of the remote control.
2. Slide the battery cover downwards or outwards to open.
3. Insert two AAA alkaline batteries (not included), ensuring the positive (+) and negative (-) terminals align correctly

with the markings inside the compartment.

4. Close the battery cover by sliding it back into place until it clicks securely.

1.2 Initial Use

This remote control is designed for immediate use with compatible Chiq TV models. No programming or pairing is required. Simply insert the batteries, point the remote towards your TV, and begin operating.

2. OPERATING INSTRUCTIONS

The Arkaia Replacement Remote Control provides full functionality for your Chiq TV. Below is a guide to its primary buttons and their functions:

Ensure there is a clear line of sight between the remote control and the TV's infrared receiver for optimal performance.

3. MAINTENANCE

3.1 Cleaning

To clean the remote control, gently wipe its surface with a soft, dry cloth. For stubborn dirt, slightly dampen the cloth with water or a mild, non-abrasive cleaner. Avoid using harsh chemicals, solvents, or abrasive materials, as these can damage the remote's finish or internal components.

3.2 Battery Replacement

Replace batteries when the remote's response becomes sluggish or it stops functioning. Always replace both batteries at the same time with new alkaline batteries of the same type (AAA). Do not mix old and new batteries, or

different types of batteries.

3.3 Storage

When not in use for extended periods, it is recommended to remove the batteries from the remote control to prevent leakage, which can cause damage. Store the remote in a cool, dry place away from direct sunlight and extreme temperatures.

4. TROUBLESHOOTING

Problem	Possible Cause	Solution
Remote control not working.	Dead or incorrectly inserted batteries. Obstruction between remote and TV. Remote out of range.	Check battery polarity and replace batteries if necessary. Remove any objects blocking the line of sight. Move closer to the TV (within 10 meters).
Buttons are unresponsive or sticky.	Dirt or debris under buttons.	Clean the remote control as described in the Maintenance section.
Limited operating range.	Weak batteries. Interference from other electronic devices.	Replace batteries. Ensure no strong light sources (like direct sunlight) or other infrared devices are interfering.
Remote works intermittently.	Low battery power. Loose battery connection.	Replace batteries. Ensure batteries are seated firmly in the compartment.
