Nixon Offroad ND-NRM01A104-1B+2B

Nixon Offroad Front Bumper Instruction Manual

Model: ND-NRM01A104-1B+2B (Style B 2 Pcs Combo)

For 2013-2018 Dodge RAM 1500 Pickup Truck (Excluding Rebel) and 2019-2024 RAM 1500 Classic (Excluding Warlock)

Product Overview

This Nixon Offroad Front Bumper is designed for specific Dodge RAM 1500 models, providing robust protection and enhanced functionality. It is constructed from heavy-duty Q235A steel with a textured black powder-coated finish for durability and corrosion resistance.

Key Features:

- **Perfect Compatibility:** Suitable for 2013-2018 Dodge RAM 1500 Pickup Truck (Excluding Rebel) and for 2019-2024 RAM 1500 Classic (Excluding Warlock).
- **2-Piece Bumper Combo:** Includes the main bumper body and side wings for a complete front-end upgrade.
- **Integrated Lighting Options:** Features a light bar bracket capable of accommodating a light bar up to 22 inches (light bar not included). Pod light mounting brackets accept 3-inch or 4-inch pod lights on each side, with two LED pod lights included.
- **Parking Sensor Integration:** Park distance sensor mounting holes are designed to work with factory parking sensors.
- **Flip-up License Plate Mounting Bracket:** Provides a convenient solution for license plate placement.
- **Heavy-Duty Construction:** Made from strong, solid Q235A steel material, offering protection in collisions.
- **Corrosion Resistance:** Powder-coated black textured finish ensures resistance against corrosion and rust.

Operating Instructions

This bumper enhances your vehicle's capabilities with several integrated features:

- **LED Pod Lights:** The included LED pod lights are pre-installed in the bumper's side wings. Connect them to your vehicle's electrical system according to standard automotive wiring practices. Professional installation is recommended for electrical connections.
- **Parking Sensors:** The bumper is designed with mounting holes for factory parking sensors. Ensure your existing sensors are properly transferred and secured into these locations during installation to maintain their functionality.
- **Light Bar Bracket:** If you choose to install an additional light bar (up to 22 inches), mount it securely to the designated bracket. Follow the light bar manufacturer's instructions for wiring and operation.
- **Flip-up License Plate Bracket:** Utilize the integrated flip-up bracket for convenient license plate display.

Maintenance

To ensure the longevity and appearance of your Nixon Offroad Front Bumper, follow these maintenance guidelines:

- **Regular Cleaning:** Wash the bumper regularly with mild soap and water to remove dirt, mud, and road grime. Avoid abrasive cleaners or harsh chemicals that could damage the powder-coated finish.
- **Inspect for Damage:** Periodically inspect the bumper for any signs of damage, such as chips, scratches, or rust. Address any damage promptly to prevent further deterioration.
- **Touch-Up Paint:** If the powder-coated finish is chipped or scratched, use a suitable touch-up paint to protect the underlying steel from corrosion.
- **Fastener Check:** Regularly check all mounting bolts and fasteners to ensure they are tight. Vibrations from driving can sometimes loosen fasteners over time.

Troubleshooting

If you encounter any issues with your Nixon Offroad Front Bumper, consider the following:

- **Fitment Issues:** Double-check all mounting points and ensure the bumper is correctly aligned with the vehicle's

frame. Refer to the installation videos for proper alignment techniques.

- **Loose Components:** If any part of the bumper feels loose, inspect and tighten all bolts and nuts.
- **LED Pod Lights Not Working:** Verify all electrical connections are secure and properly wired. Check the vehicle's fuse box for any blown fuses related to auxiliary lighting.
- **Parking Sensor Malfunction:** Ensure sensors are correctly seated in their designated holes and their wiring is intact. Consult your vehicle's manual for specific parking sensor troubleshooting.
