WAYXIN M910

WAYXIN M910 Motorcycle Intercom User Manual

Model: M910

INTRODUCTION

Thank you for choosing the WAYXIN M910 Motorcycle Intercom. This device is designed to enhance your riding experience by providing seamless communication, entertainment, and navigation features. Please read this manual carefully before using the product to ensure proper operation and to maximize its performance and longevity.

PRODUCT FEATURES

The WAYXIN M910 Intercom is equipped with advanced features for a superior riding communication experience:

- **Bluetooth 5.1 & Full Duplex Intercom:** Utilizes an advanced chip for stable connections, supporting simultaneous communication for up to 6 riders with a communication range of up to 1200 meters.
- **DSP & CVC Noise Cancellation:** Advanced noise reduction technology minimizes engine noise and wind interference, ensuring clear audio during calls and music playback.
- **Hi-Fi High Quality Audio:** Features 35mm high-output speakers for clear and crisp sound, even at high speeds.
- **Automatic Call Answering:** For safety, the device automatically answers incoming calls after 10 seconds, enabling hands-free communication.
- **Long-lasting Battery:** Built-in 800mAh battery provides up to 15 hours of continuous talk time and 300 hours of standby time. Fully charges in approximately 2.5 hours via Type-C port.
- **IP67 Waterproof:** Designed to withstand various weather conditions, ensuring reliable performance even in rain.
- **Strong Compatibility:** Universal pairing function allows connection not only with other WAYXIN intercoms but also with most third-party intercoms, smartphones, GPS devices, and MP3 players.
- **Siri Voice Command Support:** Easily control your device and access smartphone functions using voice commands.

IP67防水

R6S バイクインカム防水性能はIP67を実現。万が一の突如の雨にも問題なく動作が可能。豪雨などの極端天気でお使いをおやめください。(注意:雨にぬれたら、乾いたタオルで拭き取って、乾燥した換気の良い場所に置いてください。)

SETUP & INSTALLATION

Follow these steps to properly install your WAYXIN M910 intercom on your helmet:

1. **Choose Mounting Location:** Select a suitable flat surface on the side of your helmet for the intercom unit.
2. **Attach Clamp/Adhesive Mount:** Secure the mounting bracket (either clamp or adhesive) to the helmet. Ensure it is firmly attached.
3. **Install Speakers:** Place the speakers inside the helmet's ear pockets. Ensure they are positioned directly over your ears for optimal sound.
4. **Install Microphone:** Choose the appropriate microphone (boom mic for open-face/flip-up helmets, soft wire mic for full-face helmets). Attach it to the inside of the helmet near your mouth.
5. **Connect Cables:** Plug the speaker and microphone cables into the corresponding ports on the M910 intercom unit.
6. **Mount Intercom Unit:** Slide the M910 unit onto the installed mounting bracket until it clicks securely into place.
7. **Cable Management:** Tuck away any excess cables neatly within the helmet padding to avoid interference and ensure comfort.

OPERATING INSTRUCTIONS

Power On/Off

- **Power On:** Press and hold the Power Button for approximately 3 seconds until the indicator light flashes.
- **Power Off:** Press and hold the Power Button for approximately 5 seconds until the indicator light turns off.

Bluetooth Pairing (with Phone/GPS)

1. Ensure the M910 is powered off.
2. Press and hold the Power Button for about 5-7 seconds until the indicator light flashes red and blue alternately, indicating pairing mode.
3. On your smartphone or GPS device, enable Bluetooth and search for "WAYXIN M910".
4. Select "WAYXIN M910" to connect. Once paired, the indicator light will flash blue slowly.

Intercom Pairing (with other M910 units)

1. Ensure both M910 units are powered on.
2. On both units, press and hold the Intercom Button (usually the large multi-function button) for approximately 5 seconds until the indicator lights flash red and blue rapidly.
3. The units will automatically search and pair with each other. Once connected, the indicator lights will flash blue slowly.
4. Repeat this process for additional units (up to 6 riders).

Phone Call Management

- **Answer Call:** A call will be automatically answered after 10 seconds. Alternatively, short press the Phone Button.
- **End Call:** Short press the Phone Button.

- **Reject Call:** Press and hold the Phone Button for 2 seconds.
- **Redial Last Number:** Double-press the Phone Button.

Music Playback

- **Play/Pause:** Short press the Multi-function Button.
- **Next Track:** Short press the Volume Up (+) button.
- **Previous Track:** Short press the Volume Down (-) button.
- **Volume Adjustment:** Long press the Volume Up (+) or Volume Down (-) button.

Voice Assistant (Siri/Google Assistant)

- **Activate:** Double-press the Multi-function Button to activate your smartphone's voice assistant (Siri or Google Assistant).
- You can then issue commands like "Play music," "Call [contact name]," "Open Google Maps," or "What's the weather like?"

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your M910 intercom:

- **Cleaning:** Wipe the unit with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners. Ensure the charging port cover is securely closed before cleaning.
- **Water Exposure:** Although IP67 waterproof, avoid prolonged submersion. If exposed to heavy rain, wipe the unit dry with a clean towel and allow it to air dry in a well-ventilated area before storing or charging.
- **Storage:** Store the intercom in a cool, dry place away from direct sunlight and extreme temperatures. If storing for an extended period, charge the battery to about 50% every few months to preserve battery health.
- **Charging:** Use only the provided Type-C charging cable. Avoid using damaged cables or chargers.

TROUBLESHOOTING

If you encounter issues with your M910 intercom, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not power on.	Low battery; Power button not pressed long enough.	Charge the unit fully. Press and hold the Power Button for at least 3 seconds.
No sound from speakers.	Volume too low; Speakers not connected properly; Faulty speakers.	Increase volume. Check speaker connections. Test with another audio source if possible.
Cannot pair with phone/intercom.	Not in pairing mode; Device too far; Interference.	Ensure unit is in pairing mode (flashing red/blue). Move devices closer. Restart both devices.
Intercom connection drops frequently.	Out of range; Obstructions; Low battery.	Stay within communication range. Avoid major obstructions. Ensure units are charged.

Problem	Possible Cause	Solution
Poor audio quality/excessive noise.	Microphone position; Wind noise; Environmental interference.	Adjust microphone closer to mouth. Ensure wind noise reduction is active. Move away from strong interference sources.

SPECIFICATIONS

Feature	Detail
Model Name	WAYXIN M910
