Lumisky 8x QUADRY

Lumisky 8x QUADRY Solar Garden Lights Instruction Manual

INTRODUCTION

Thank you for choosing the Lumisky 8x QUADRY Solar Garden Lights. This set includes 8 square, warm white LED solar spotlights designed to enhance your outdoor spaces. These lights are ideal for illuminating terraces, lawns, pathways, and garden beds, providing up to 8 hours of light on a full charge. This manual provides essential information for the safe and efficient use of your solar lights.

SAFETY INFORMATION

- Read all instructions carefully before use.
- Do not attempt to open or modify the solar light units. This may damage the product and void any potential warranty.
- Keep the solar panel clean to ensure optimal charging performance.
- Ensure the lights are placed in a location where they receive direct sunlight for most of the day.
- Dispose of batteries according to local regulations. Do not dispose of batteries in fire.
- While the lights are water-resistant (IP44), avoid submerging them in water.

PACKAGE CONTENTS

- 8 x Lumisky QUADRY Solar Garden Lights
- Instruction Manual (this document)

SETUP

1. **Unpacking:** Carefully remove all components from the packaging.
2. **Initial Charge:** Before first use, place the solar lights in a location where they can receive 8 hours of direct sunlight. This allows the internal battery to fully charge.
3. **Activation:** Locate the ON/OFF switch, usually on the underside or side of the unit. Switch it to the "ON" position. The light will then automatically turn on at dusk and off at dawn.

4. **Placement:** Choose an outdoor location that receives maximum direct sunlight throughout the day. Avoid areas under trees, eaves, or other structures that may cast shadows on the solar panel, as this will reduce charging efficiency.
5. **Installation:**
 - **Ground Placement:** Simply place the lights on any flat, stable surface in your garden, pathway, or terrace.
 - **Secure Fixing:** For added stability, the lights feature small holes on the base allowing them to be screwed and fixed to the ground or a wooden surface. (Screws are not typically included and must be sourced separately if required).

OPERATING INSTRUCTIONS

- **Automatic Operation:** Once activated and sufficiently charged, the lights will automatically turn on at dusk and turn off at dawn.
- **Runtime:** On a full charge (approximately 8 hours of direct sunlight), the lights can operate for up to 8 hours.
- **Light Output:** Each light provides 60 lumens of warm white LED illumination, creating a pleasant ambiance.

Image: Lumisky QUADRY solar lights providing pathway illumination, casting warm white light on a garden path surrounded by plants at night.

MAINTENANCE

- **Cleaning:** Regularly wipe the solar panel and the light diffuser with a damp cloth to remove dust, dirt, and debris. A clean solar panel ensures maximum charging efficiency. The lights can be easily cleaned with water.
- **Battery:** The product includes a Lithium-ion battery. There is no information provided regarding user-replaceable batteries. It is recommended not to attempt to replace the battery yourself to avoid damage to the unit.
- **Winter Care:** During periods of prolonged low sunlight or freezing temperatures, you may consider storing the lights indoors to prolong battery life and prevent potential damage. Ensure they are fully charged before storage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Light does not turn on at night.	<ul style="list-style-type: none"> Switch is in "OFF" position. Insufficient solar charge. Solar panel is dirty. 	<ul style="list-style-type: none"> Ensure the ON/OFF switch is set to "ON". Relocate the light to an area with more direct sunlight for at least 8 hours. Clean the solar panel.
Light operates for a short duration.	<ul style="list-style-type: none"> Insufficient solar charge due to cloudy weather or shaded location. Solar panel is dirty. 	<ul style="list-style-type: none"> Ensure the light receives full, direct sunlight for 8 hours. Clean the solar panel regularly.
Light appears dim.	<ul style="list-style-type: none"> Solar panel is dirty. Battery is not fully charged. 	<ul style="list-style-type: none"> Clean the solar panel. Allow the light to charge for a full day in direct sunlight.

SPECIFICATIONS

Image: Detailed view of the Lumisky QUADRY solar light, featuring its square design, integrated solar panel, and surrounding LED lights.

Brand	Lumisky
Model Number	8x QUADRY
Manufacturer	BATIMEX
Product Dimensions (L x W x H)	12 x 12 x 3 cm
Item Weight	656 grams (for the set of 8)

Material	Plastic
Color (Unit)	Black
Light Source	LED
Luminous Flux	60 lumens
Light Color	Warm White
Battery	1 Lithium-ion (included)
Full Charge Time	8 hours (direct sunlight)
Operating Time	Up to 8 hours
IP Rating	IP44 (Splash resistant)
Special Features	Water-resistant, UV-resistant
