Letaya Metal Garage Storage Cabinet with Drawer (1 Drawer-No Wheels, Black & Gray) Instruction Manual

Model: L1 | Brand: Letaya

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Letaya Metal Garage Storage Cabinet with Drawer. This cabinet is constructed from durable 0.8mm steel with an environmentally friendly powder-coated finish, offering resistance to corrosion and rust. It features a lockable drawer, magnetic door closures, and adjustable shelves for versatile storage in various environments.

2. SAFETY INFORMATION

- Always follow assembly instructions carefully.
- Do not exceed the maximum weight capacity of 180 lbs per shelf.
- Ensure the cabinet is level and stable before use.
- Keep keys out of reach of children.
- Avoid placing heavy items on the top of the cabinet without proper anchoring.

3. PARTS LIST

Before beginning assembly, verify that all components are present and undamaged. Refer to the assembly video for visual identification of parts.

Your browser does not support the video tag.

Video 1: Assembly video showing parts list and initial steps. This video demonstrates the components included and the initial assembly process for the 1-drawer tool cabinet.

4. SETUP AND ASSEMBLY

Assembly is designed to be straightforward and can typically be completed in about 30 minutes. It is recommended to have a power screwdriver for efficiency. Follow the steps below and refer to the provided video for visual guidance.

4.1 Unpacking

Carefully open the packaging. The cabinet is protected with foam and metal corners to prevent damage during shipping. Lay out all parts on a clean, flat surface.

Figure 2: Product packaging showing protective foam and metal corners.

4.2 Cabinet Frame Assembly

Connect the side panels to the base and top panels using the provided screws. Ensure all connections are secure. The assembly video provides a step-by-step visual guide for this process.

4.4 Shelf Installation

Install the adjustable shelves at your desired height. The cabinet includes 2 adjustable shelves, each capable of holding up to 180 lbs. The shelves are also removable for larger items.

Figure 4: Illustration of adjustable and removable shelves, highlighting the 180 lbs load capacity.

4.5 Door Installation

Attach the four doors to the cabinet frame. Each door is equipped with magnetic suction for secure closure. The doors can be locked for added security.

Figure 5: Key features of the cabinet, including magnetic door closures and independent locking systems.

5. OPERATING INSTRUCTIONS

5.1 Locking and Unlocking

The cabinet features multiple independent locking systems for the doors and drawer. Use the provided keys to lock and unlock each compartment. Ensure the doors are fully closed before locking.

Figure 6: Detail of the independent locking systems for secure storage.

5.2 Adjusting Shelves

To adjust a shelf, remove all items from the shelf. Lift the shelf slightly and slide it out of its current position. Reinsert the shelf into the desired slots at a new height. Ensure the shelf is securely seated before placing items back on it.

5.3 Moving the Cabinet

This model (1 Drawer-No Wheels) is designed for floor mount installation. If you need to move the cabinet, ensure it is empty to reduce weight and prevent injury. For models with wheels, unlock the wheel brakes before moving.

Video 3: Overview of the cabinet's features and storage capacity. This video demonstrates the cabinet's general use and how it can organize various items.

6. MAINTENANCE

To maintain the appearance and longevity of your cabinet, wipe it with a damp cloth as needed. Avoid using abrasive cleaners that could damage the powder-coated finish.

7. TROUBLESHOOTING

- **Doors not closing properly:** Check for any obstructions or ensure the cabinet is on a level surface. Adjust the adjustable feet if necessary.
- **Drawer sticking:** Ensure the slide rails are clean and free of debris. Avoid overloading the drawer.
- **Cabinet instability:** Verify that all screws are tightened and the cabinet is placed on a flat, stable surface.
