Fxtiaa JY-A025

Fxtiaa 7-in-1 LED Light Therapy Device

Model: JY-A025

1. Product Overview

The Fxtiaa 7-in-1 LED Light Therapy Device is designed to provide comprehensive skin care for the face, neck, hands, and body using natural light waves. It features 287 LED light beads and offers 7 different light colors, each targeting specific skin concerns. This device allows users to experience professional-level skin care at home.

2. Safety Information

- Always wear the provided protective glasses during operation to shield your eyes from direct LED light exposure.
- Do not use the device on broken, irritated, or infected skin.
- Consult a healthcare professional before use if you have any underlying skin conditions, are pregnant, or are taking photosensitizing medications.
- Keep the device out of reach of children.
- Ensure the device is unplugged when not in use or during cleaning.

3. Product Components

The Fxtiaa 7-in-1 LED Light Therapy Device package includes:

- LED Light Therapy Device unit
- Power Adapter
- Protective Eye Shield
- User Manual

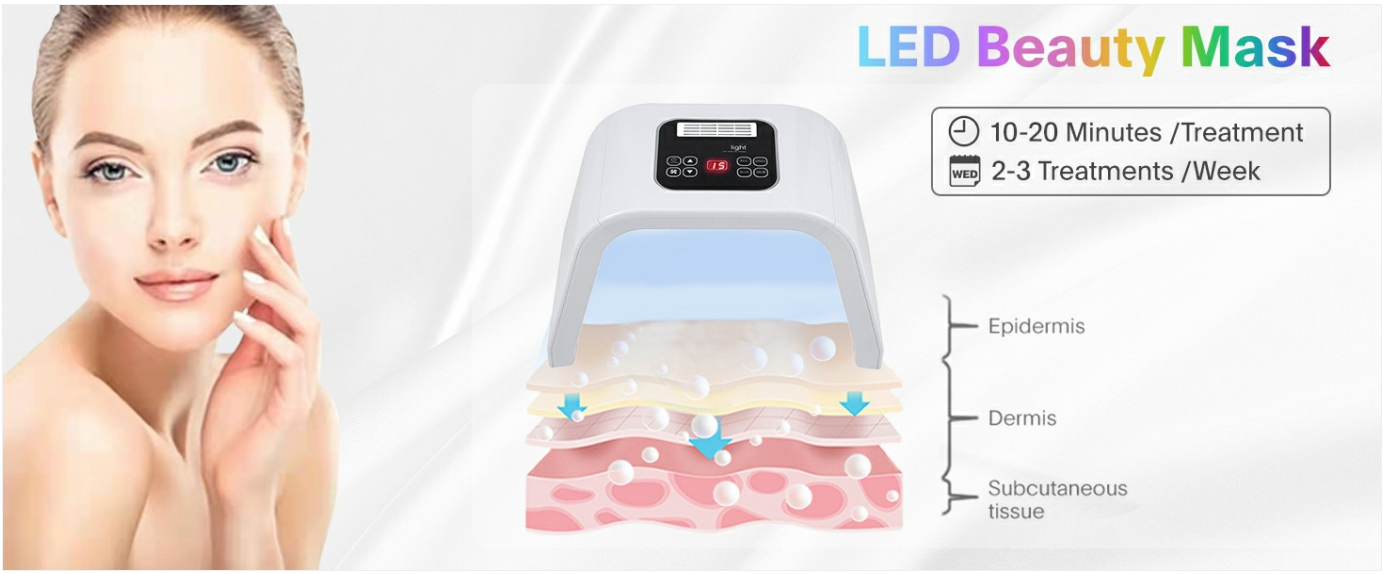

Image 3.1: An overview of the product components, including the main device, power adapter, eye shield, and instruction manual.

4. Setup Instructions

1. Unpack all components from the packaging.
2. Connect the two wires of the device together. Note: Some wires may be hidden in holes and need to be pulled out and connected.
3. Align the edges of the device and install from bottom to top to ensure proper assembly.
4. Connect the power adapter to the device and then plug it into a power outlet.

Image 4.1: Visual guide for the 4 easy installation steps of the device, detailing wire connection and assembly.

5. Operating Instructions

5.1. General Usage

1. Cleanse your skin thoroughly before use.
2. Wear the provided protective glasses to protect your eyes.
3. Place the device over the desired treatment area (face, neck, hands, or body).
4. Press the 'Power' button to turn on the device.
5. Use the 'Up' and 'Down' arrow buttons to adjust the treatment time (recommended 10-20 minutes per session).
6. Select your desired light color using the dedicated color buttons (Red, Green, Blue, Yellow, Color).
7. The device will automatically turn off after the set time.
8. After treatment, apply your preferred skincare products.

Recommended Usage Frequency: 2-3 times a week, 10-20 minutes each time.

5.2. Light Color Functions

The device offers 7 distinct light colors, each with specific benefits:

- **Red Light (640nm):** Promotes collagen production, reduces fine lines, and improves skin elasticity.
- **Green Light (532nm):** Calms sensitive skin, reduces hyperpigmentation, and balances oil production.
- **Blue Light (423nm):** Targets acne-causing bacteria, reduces inflammation, and calms allergic skin.
- **Yellow Light (583nm):** Relieves skin erythema and swelling, improves dullness, and enhances lymphatic drainage.
- **Cyan Light (490nm):** Enhances cell energy, promotes metabolism, and has a calming effect.
- **Purple Light (690nm):** Combines red and blue light benefits, aids in skin repair, and reduces acne marks.
- **White Light (510nm):** Penetrates deep into the skin, tightens loose skin, and improves fine lines.

Image 5.2: Visual representation of the 7 LED light colors (Red, Green, Yellow, Blue, Cyan, Purple, White) with their wavelengths and associated skin improvements.

6. Maintenance

- Wipe the device with a soft, dry cloth after each use.
- Do not use abrasive cleaners or solvents on the device.

- Store the device in a cool, dry place away from direct sunlight.
- Ensure the device is completely dry before storing.

7. Troubleshooting

Problem	Possible Cause	Solution
Device does not turn on	Power adapter not connected properly or no power from outlet.	Check power connections and try a different outlet. Ensure all internal wires are connected as per setup instructions.
Lights are not changing color	Incorrect button press or device malfunction.	Ensure you are pressing the correct color selection buttons. If the issue persists, contact customer support.
Device beeps loudly	This is a normal function to indicate the end of a session or button press.	No action required. This is an intended feature.

8. Specifications

- **Model Number:** JY-A025
