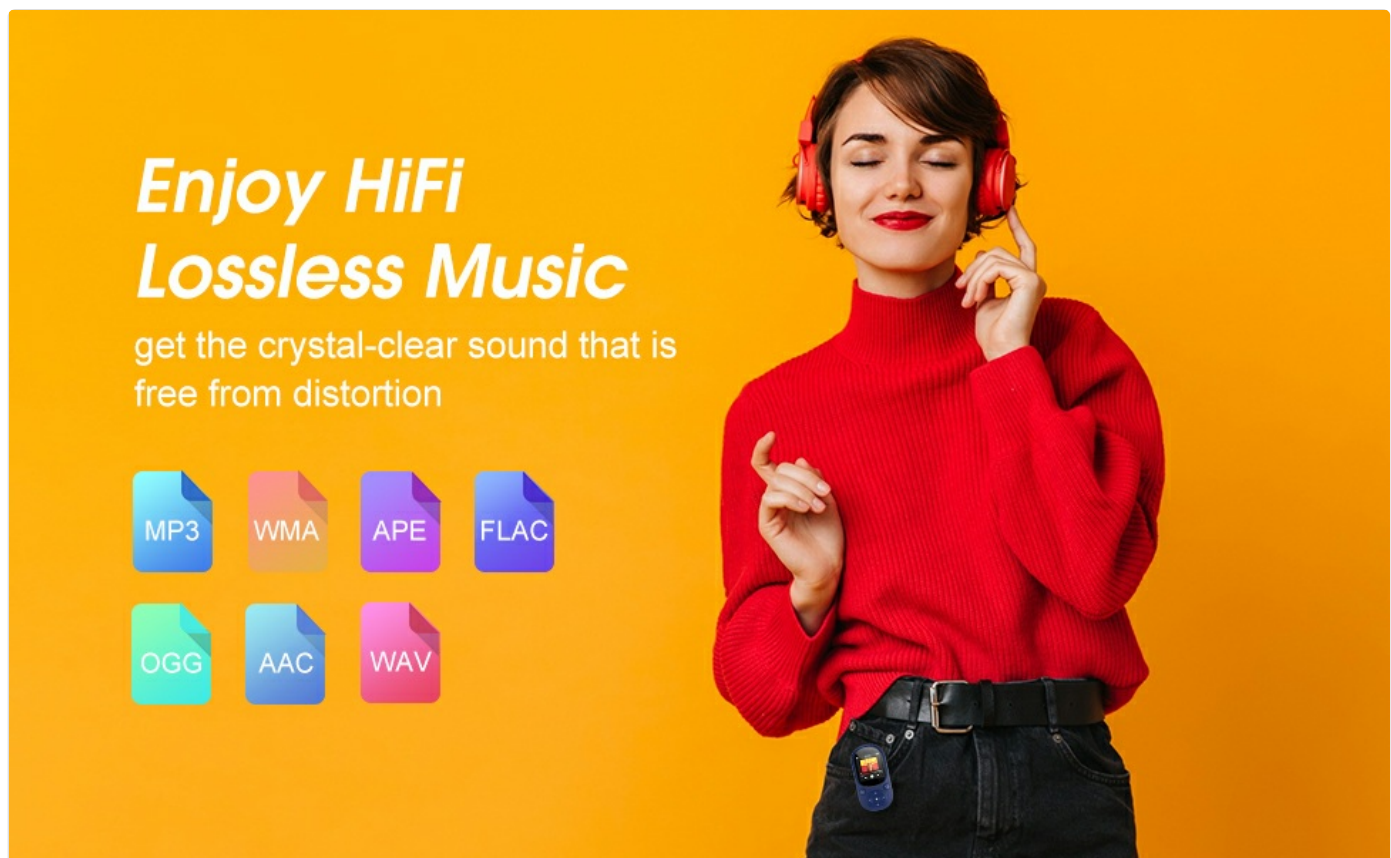

Figure 4.4: Storage Capacity. Illustrates the 64GB internal storage and the option to expand with a 128GB TF card.

5. SETUP

5.1 Charging the Device

Before first use, fully charge your MP3 player. Connect the included USB-C cable to the player's charging port and the other end to a USB power adapter (not included) or a computer's USB port.

- The battery icon on the screen will indicate charging status.
- A full charge typically takes approximately 2-3 hours.

5.2 Powering On/Off

- **To Power On:** Press and hold the Power button (usually on the side) for a few seconds until the screen lights up.
- **To Power Off:** Press and hold the Power button until the 'Power Off' option appears, then select it.

5.3 Inserting a MicroSD Card (Optional)

If you wish to expand storage, insert a MicroSD (TF) card (up to 128GB, not included) into the designated card slot on the side of the player. Ensure the card is inserted correctly until it clicks into place.

5.4 Transferring Music and Files

Connect the MP3 player to your computer using the USB-C cable. The player will appear as a removable disk. You can then drag and drop music files (MP3, WMA, APE, FLAC, WAV, OGG, AAC) and other supported files into the player's internal storage or the MicroSD card folder.

6. OPERATING INSTRUCTIONS

6.1 Music Playback

- From the main menu, select 'Music'.

- Navigate through 'All Songs', 'Artists', 'Albums', 'Genres', 'Playlists', or 'Folders'.
- Use the navigation buttons (Up/Down/Left/Right) to select a song or folder, and the Play/Pause button to confirm.
- During playback:
 - Press Play/Pause to pause or resume.
 - Press Left/Right to skip to the previous/next track.
 - Long press Left/Right to fast rewind/forward.
 - Use the volume buttons (+/-) on the side to adjust volume.
- **Repeat & Shuffle:** Access playback options from the music interface to set repeat modes (e.g., Repeat All, Repeat One) or enable/disable shuffle.
- **Variable Speed Playback:** Adjust playback speed for audio content.
- **Equalizer:** Customize sound profiles (e.g., Rock, Pop, Jazz) or create a custom setting.
- **Playlists:** The device supports up to 3 playlists. You can create and manage them directly on the player.

6.6 Other Functions (E-book, Picture, Alarm, Calendar)

- **E-book:** View text files (e.g., .TXT format).
- **Picture:** Browse image files.
- **Alarm:** Set alarms.
- **Calendar:** View the current date.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the device. Do not use liquid cleaners or aerosols.
- **Storage:** Store the player in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Impacts:** Protect the device from drops and impacts, which can damage internal components or the screen.
- **Water Resistance:** The device is not waterproof. Avoid exposure to water or high humidity.

8. TROUBLESHOOTING

Device does not power on:

Ensure the battery is charged. Connect to a charger and try again. If unresponsive, try holding the power button for an extended period (10-15 seconds) for a hard reset.

Cannot connect to Bluetooth device:

Ensure your Bluetooth headphones/speaker are in pairing mode. Make sure the MP3 player's Bluetooth is enabled. Remember, the player cannot connect to phones or computers. Try restarting both devices.

MicroSD card not recognized:

Ensure the card is inserted correctly and fully. Try reinserting the card. Test with another compatible MicroSD card if possible. Ensure the card is formatted to a compatible file system (e.g., FAT32).

No sound or low volume:

Check the volume level on the player and your connected headphones/speaker. Ensure headphones are properly plugged in if using wired. If using Bluetooth, ensure it's connected. Note that the volume may reset to a low level after powering off/on.

Songs skipping or cutting off:

This could indicate corrupted files. Try re-transferring the affected songs. Ensure the device's firmware is up to date (check manufacturer's website for updates). If the issue persists across multiple files, consider backing up data and performing a factory reset (if available in settings).

FM Radio not working:

A wired headset must be plugged in to serve as an antenna for the FM radio function. Ensure the headset is fully inserted.
