Troubleshooting

Problem	Possible Cause	Solution
Magnetic accessories do not stay in place.	Accessory not properly aligned with the magnetic strip on the mat.	Ensure the magnetic pad on the accessory's base is fully in contact with the magnetic strip on the desk mat. Adjust position as needed.
Desk mat slides on the desktop.	Desktop surface is not clean or is too smooth, or the mat is not fully flat.	Clean the desktop surface to remove dust or debris. Ensure the mat is laid flat. The non-slip rubber base should provide sufficient grip on most surfaces.
Stains or marks on the mat.	Accumulated dirt or minor spills.	Wipe with a damp cloth. For stubborn marks, use a mild soap solution and then wipe with a clean damp cloth. Dry thoroughly.
