MYNTA MYNT-MC4100E

MYNTA 2025 4D Massage Chair User Manual

Model: MYNT-MC4100E

1. Important Safety Instructions

Please read all instructions carefully before using the MYNTA 2025 4D Massage Chair. Retain this manual for future reference. Incorrect operation due to disregard of instructions may cause damage or injury.

General Safety

- This appliance is intended for household use only.
- Do not use the chair if you are pregnant, have a pacemaker, or have any serious medical conditions without consulting a physician.
- Keep children and pets away from the chair, especially during operation.
- Do not insert any objects into the gaps of the massage chair.
- Avoid using the chair in excessively humid or dusty environments.
- Ensure the chair is placed on a flat, stable surface.

Electrical Safety

- Always unplug the chair from the power outlet when not in use or before cleaning.
- Do not operate the chair with a damaged cord or plug.
- Keep the power cord away from heated surfaces.
- Do not attempt to repair the chair yourself. Contact qualified service personnel.

2. Product Overview

The MYNTA 2025 4D Massage Chair is designed to provide a comprehensive full-body massage experience. It integrates advanced features such as a dual 4D+2D massage mechanism, an extended SL-track, zero gravity recline, targeted heating, and music synchronization via Bluetooth speakers.

Key Components and Features

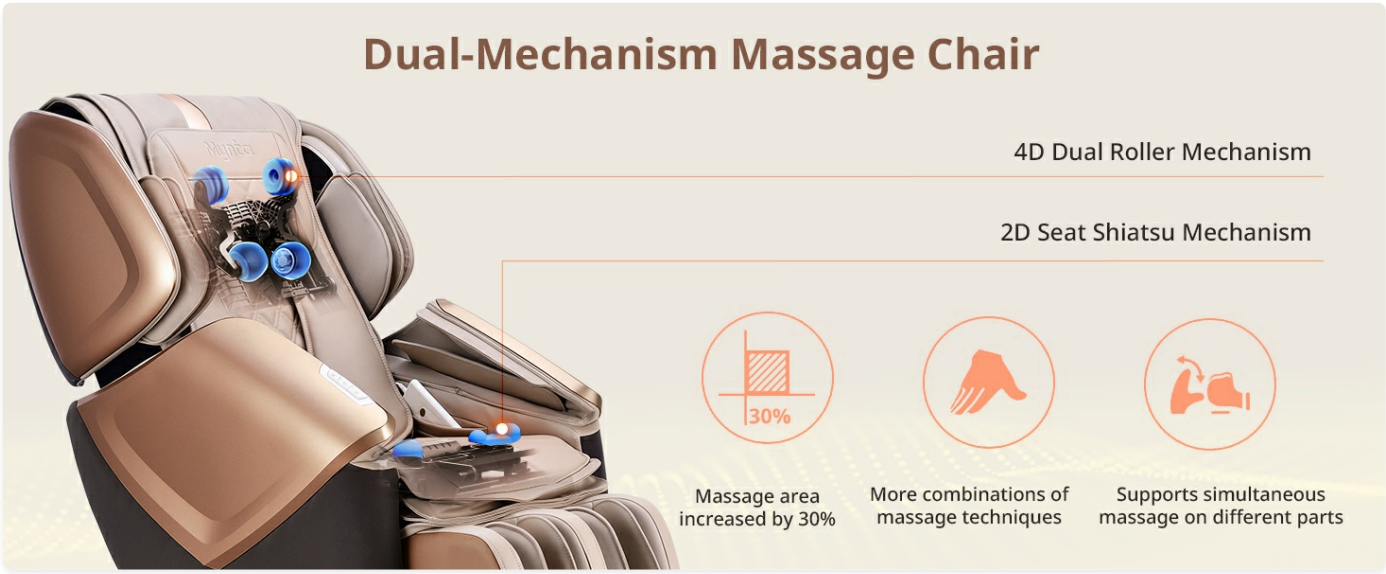

- **4D+2D Dual Massage Mechanism:** Provides deep tissue massage for the back and shiatsu massage for the glutes and thighs.
- **Extended SL-Track:** Contours the spine from neck to thighs for extensive massage coverage.
- **Zero Gravity Recline:** Three stages to elevate legs and reduce spinal pressure.
- **Full Body Airbag Massage:** Strategically placed airbags for shoulders, arms, calves, and feet.
- **Waist & Shawl Heating:** Therapeutic heat to promote circulation and relieve muscle tension.
- **Foot & Calf Massage:** Combines rollers, scraping, and air compression.
- **Music Sync Mode:** Adjusts massage intensity to the rhythm of music played through Hi-Fi Bluetooth speakers.
- **Touch Screen Controller & Shortcut Keys:** Intuitive control for all functions.
- **Automatic Body Scan:** Customizes massage based on individual body shape.

This diagram highlights the comprehensive massage capabilities, detailing the placement of airbags for shoulders, hands, calves, and feet, along with lumbar and shawl heating zones, foot rollers, and the integrated music system.

This graphic further details the dual-mechanism system, emphasizing the expanded massage coverage and the versatility of massage techniques offered by the combination of 4D back rollers and 2D seat shiatsu.

A collection of close-up images showcasing key features and design elements of the chair, including the intuitive shortcut keys, premium leather upholstery, removable foot pads, the modern touch screen interface, and convenient transport wheels.

3. Setup and Installation

Unpacking and Placement

The MYNTA 2025 4D Massage Chair is delivered fully assembled. Carefully remove all packaging materials. Ensure sufficient space around the chair for reclining and operation.

- **Minimum Doorway Size:** The chair requires a minimum doorway width of 30.7 inches for entry.
- **Wall Distance:** Allow at least 4 inches of space from the wall for the chair to recline fully.
- **Surface:** Place the chair on a hard, level floor.

This image provides crucial information regarding the chair's dimensions, its fully assembled state, and the minimum doorway width required for delivery and placement, along with the size of the shipping boxes.

This image illustrates the minimum doorway size required for the chair and its overall dimensions.

Power Connection

Connect the power cord to the chair's power inlet and then plug it into a grounded electrical outlet. Ensure the power switch on the chair is in the 'ON' position.

4. Operating Instructions

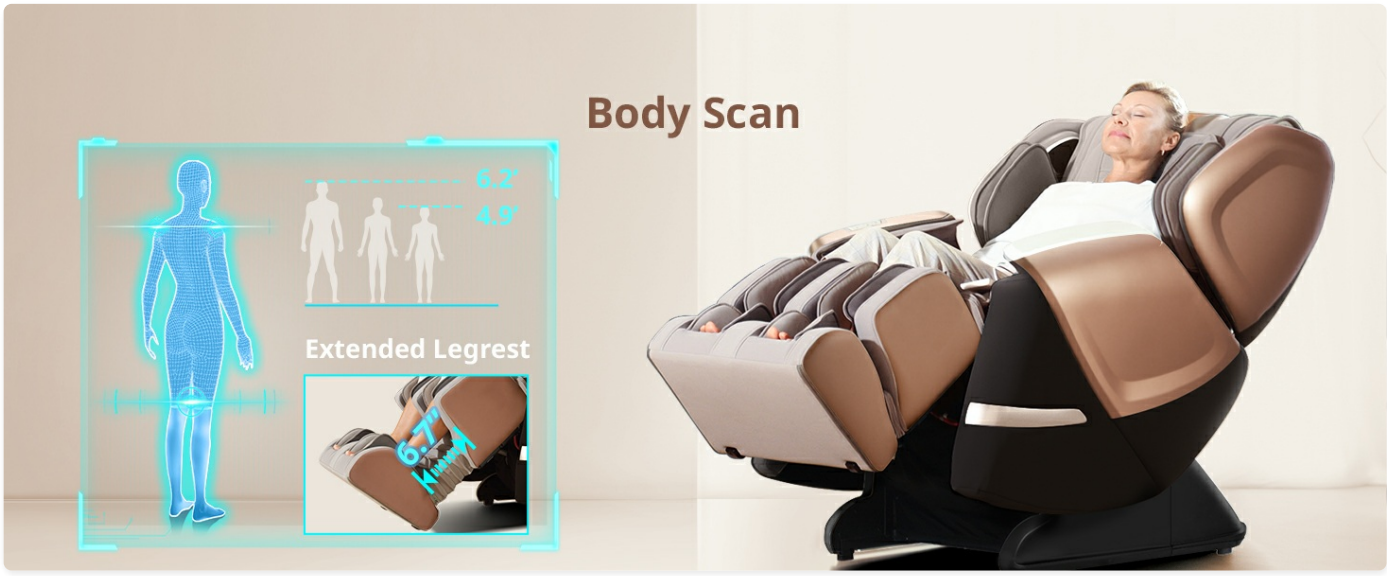

The chair can be operated using the integrated touch screen controller or the shortcut keys located on the armrest.

Powering On/Off

- Press the power button on the touch screen or the shortcut key to turn the chair on.
- Press and hold the power button to turn the chair off.

Automatic Body Scan

Upon starting a massage program, the chair will perform an automatic body scan to detect your shoulder position and body shape. This ensures the massage rollers are accurately positioned for a personalized massage.

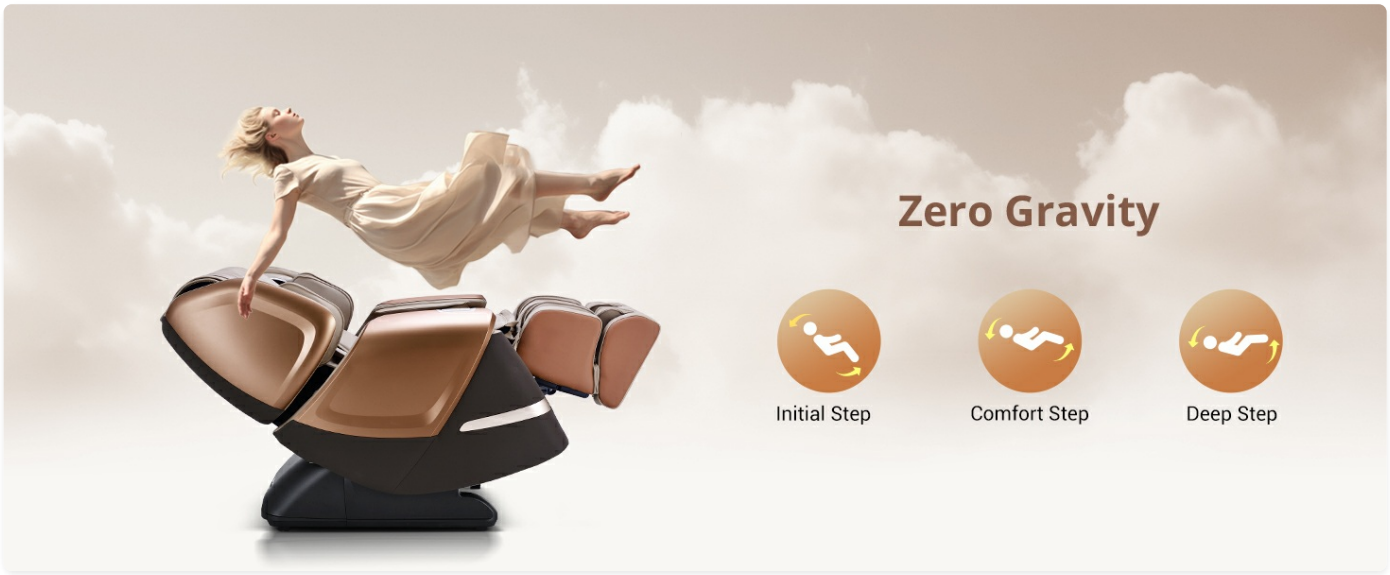

This image explains the automatic body scanning technology, which customizes the massage experience by mapping the user's body shape and adjusting the legrest for a personalized fit.

Zero Gravity Function

The Zero Gravity feature reclines the chair to distribute your body weight evenly, minimizing pressure on the spine and enhancing the massage effect. There are three adjustable stages:

1. **Initial Step:** A gentle recline.
2. **Comfort Step:** A deeper recline for increased relaxation.
3. **Deep Step:** The fullest recline, elevating your legs above your heart.

A visual representation of the three Zero Gravity recline positions, designed to distribute body weight evenly and minimize pressure on the spine for enhanced relaxation.

Massage Programs and Customization

The chair offers 12 automatic massage modes designed for various needs, from rejuvenation to deep tissue. You can also customize your massage experience by adjusting intensity, speed, and specific massage techniques via the touch screen controller.

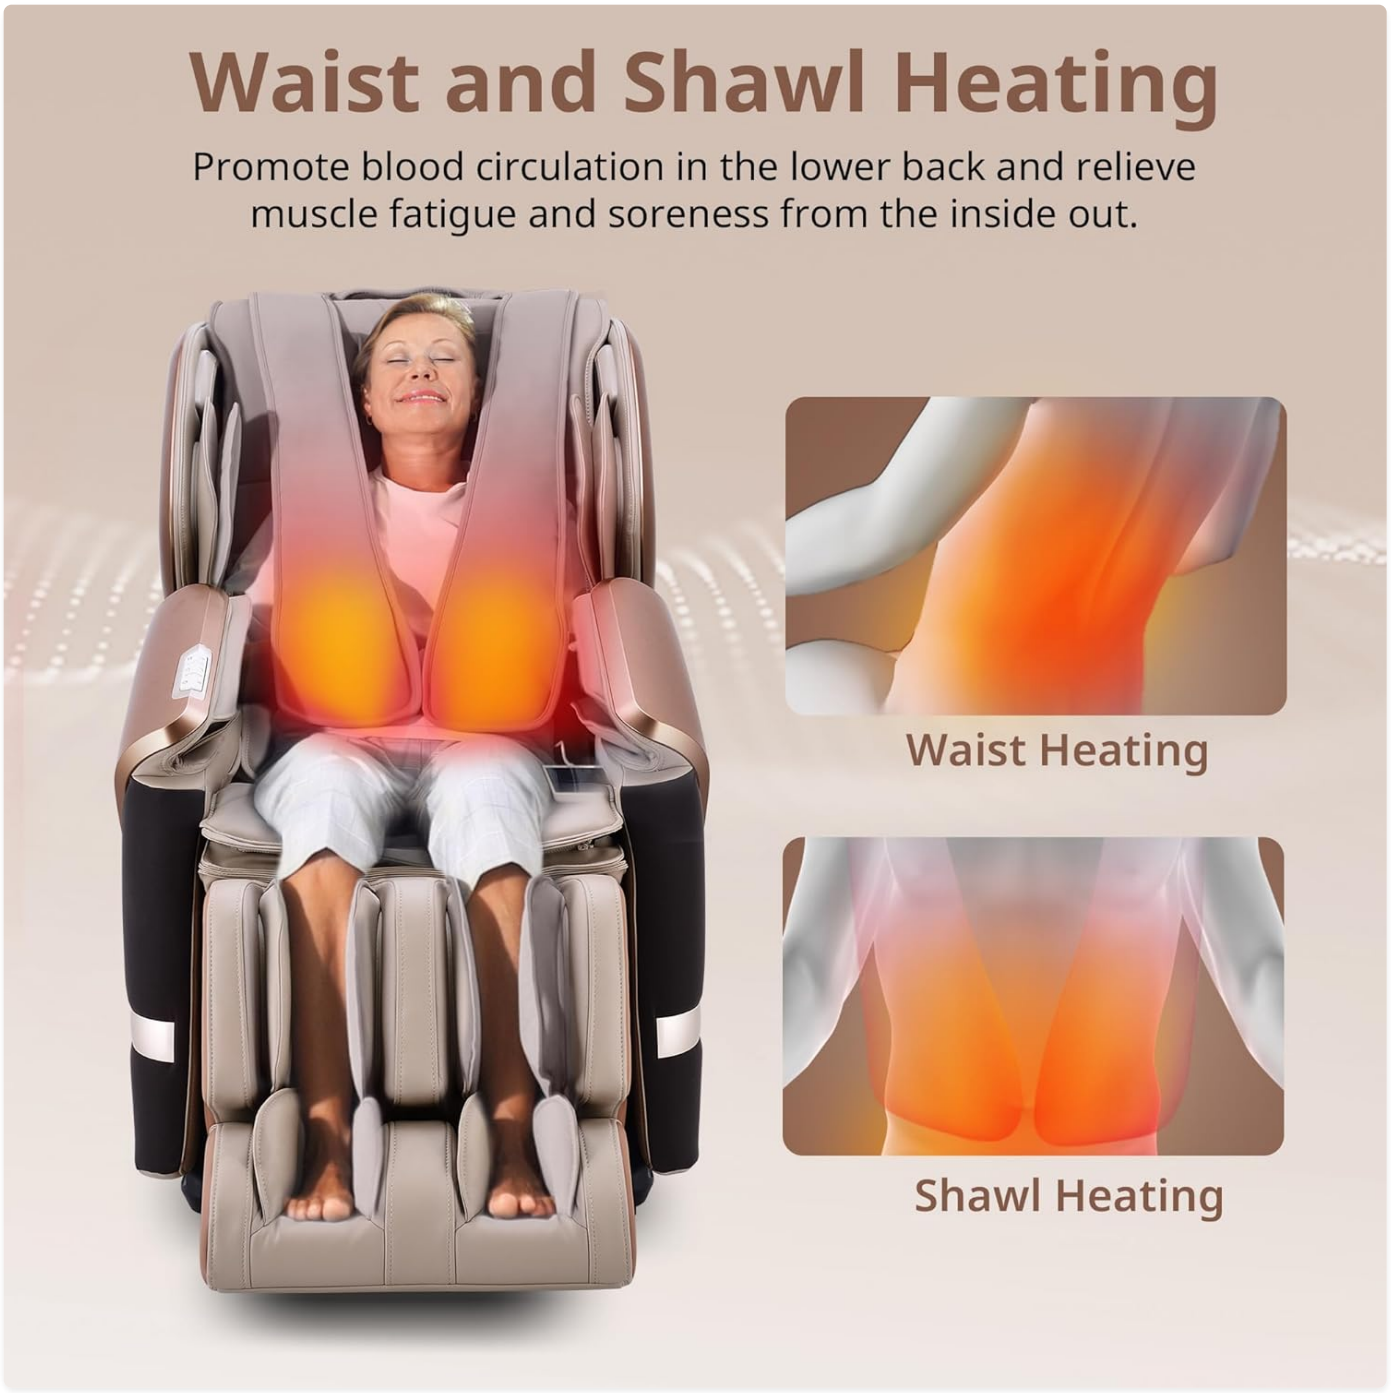

This visual presents the variety of 12 pre-programmed automatic massage modes available, each designed to target specific needs or provide a general wellness experience.

Heating Function

The chair includes heat therapy in the waist and shawl areas. This feature helps to promote blood circulation and relieve

muscle fatigue and soreness.

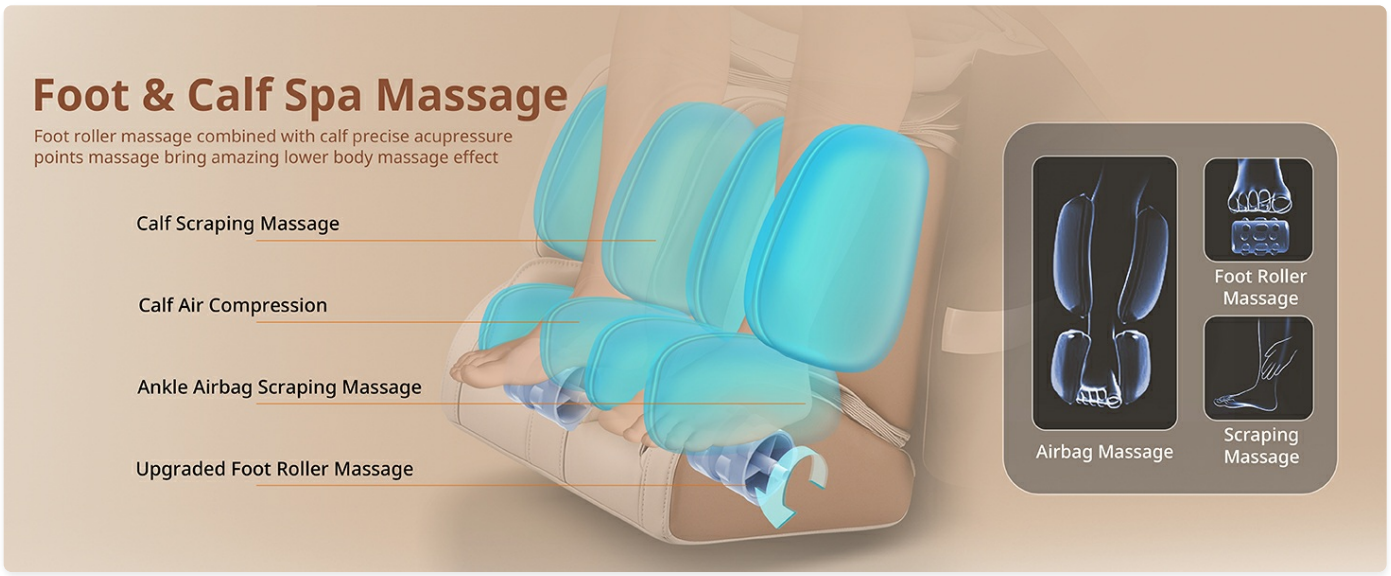

This visual illustrates the targeted heat therapy provided by the chair, specifically in the waist and shawl areas, designed to promote blood circulation and relieve muscle tension.

This image clearly depicts the integrated heating elements in the waist and shawl regions of the massage chair, providing soothing warmth for muscle relief.

Foot and Calf Massage

The foot and calf massage system includes airbags for compression, rollers for the soles of the feet, and scraping massage techniques for comprehensive lower body relief.

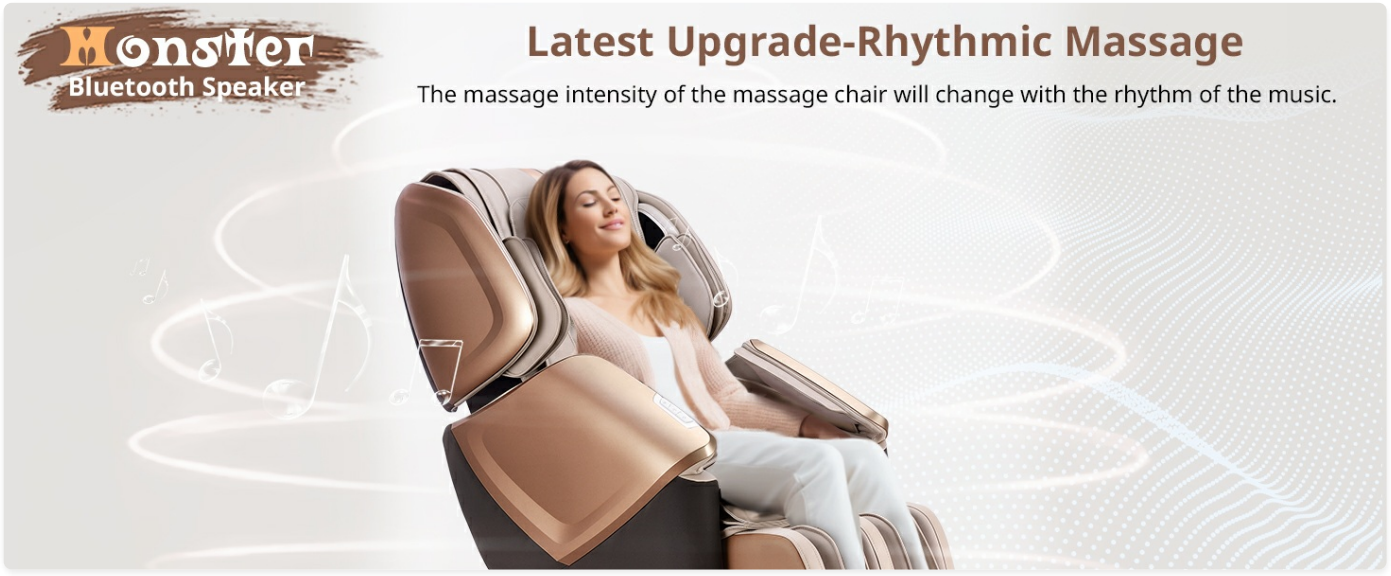

A detailed illustration of the advanced foot and calf massage system, showcasing various techniques like air compression, scraping, and roller massage for comprehensive lower body relief.

Music Sync with Bluetooth Speakers

Connect your device via Bluetooth to the chair's Hi-Fi speakers. In Music Sync mode, the chair's massage intensity and speed will adjust in harmony with the rhythm of your music, creating an immersive sensory experience.

This graphic explains the innovative music rhythm mode, where the chair's massage intensity adapts to the tempo of the music played through its Bluetooth speakers, offering a synchronized sensory experience.

This image highlights the rhythmic massage feature, where the chair's intensity adjusts in sync with music played through its Bluetooth speakers, creating an immersive experience.

Thai Stretching Function

The Thai stretching function gently extends the body, raising the thighs and calves to relieve pressure on the spine and promote deeper relaxation and flexibility.

This image demonstrates the Thai stretching feature, which gently extends the body, raising the legs to promote spinal decompression and deeper relaxation.

5. Maintenance and Care

Cleaning the Chair

- Always unplug the chair before cleaning.
- Wipe clean the surface of the chair with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- For leather surfaces, use a specialized leather cleaner if necessary, following the product instructions.
- Ensure no liquid enters the internal components of the chair.

Storage

When not in use for extended periods, store the chair in a cool, dry place, away from direct sunlight and extreme temperatures.

6. Troubleshooting

If you encounter any issues with your MYNTA 2025 4D Massage Chair, please refer to the following common problems and solutions:

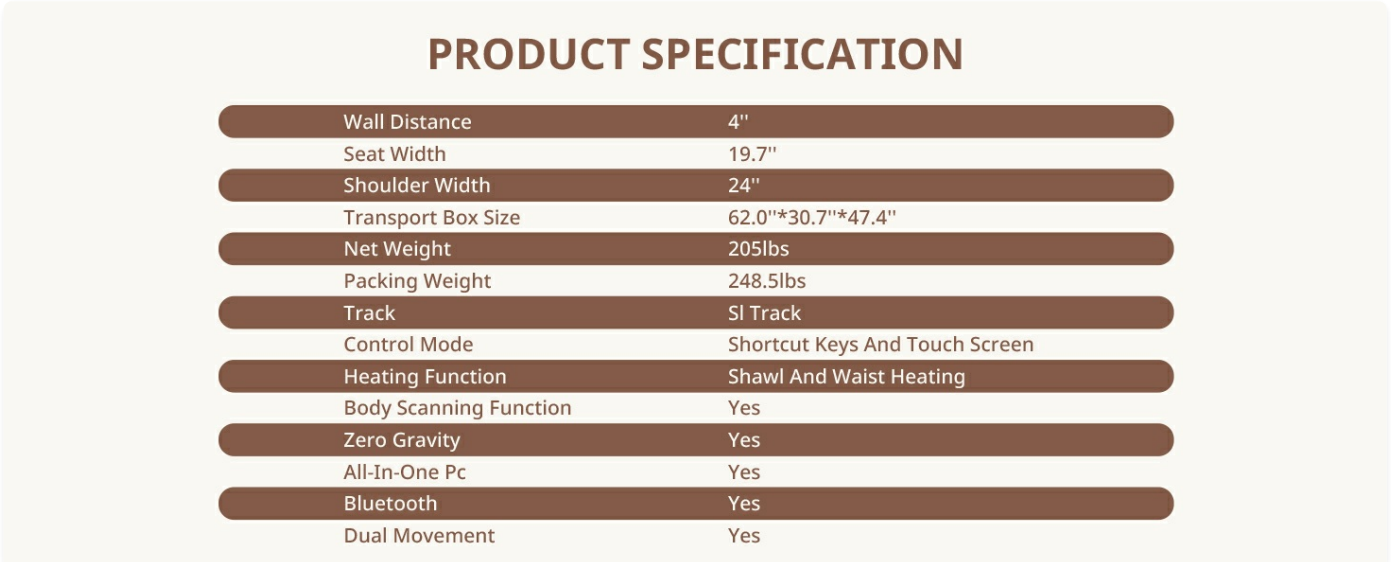

Problem	Possible Cause	Solution
Chair does not power on.	Power cord not connected, power switch off, or power outlet issue.	Ensure power cord is securely plugged in. Check if the power switch on the chair is ON. Test the outlet with another device.
Massage rollers are not moving.	Program not selected, or safety feature activated.	Select an automatic program or manual massage mode. Ensure no obstructions are present.
Airbags are not inflating.	Airbag function is off, or air hose is kinked.	Activate the airbag function on the controller. Check for any kinks in the air hoses.
Heating function is not working.	Heating function is off.	Ensure the heating function is activated on the controller. Note that heating may take a few minutes to reach full temperature.
Bluetooth connection issues.	Device not paired, or Bluetooth is off.	Ensure Bluetooth is enabled on your device and the chair. Re-pair your device with the chair.

If the problem persists after attempting these solutions, please contact customer support.
