1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your SYNCWIRE MagSafe Car Vent Mount (Model SW-MPH983). Designed for secure and convenient smartphone placement in your vehicle, this mount features a flexible rotation and strong magnetic hold. Please read this manual thoroughly before use to ensure optimal performance and safety.

2. WHAT'S IN THE BOX

Upon opening your SYNCWIRE MagSafe Car Vent Mount package, you should find the following items:

- SYNCWIRE Magnetic Phone Car Mount (Carbon Fiber)
- Metal Rings (for non-MagSafe compatible devices/cases)
- User Manual

3. KEY FEATURES

- **High-Quality Construction:** Meticulously crafted from heat-resistant plastic and metal hook for stability and durability. Features an exquisite metallic paint treatment.
- **Optimal Magnetic Balance:** Equipped with 16 N52-grade neodymium magnets, providing a precisely tuned magnetic force for secure phone attachment. Magnetic force ranges from 12N (for iPhones 13-15 series) to 25N (for metal rings).
- **Genuine Carbon Fiber:** Inspired by supercar aesthetics, the mount features genuine carbon fiber material for a premium look and feel.
- **Secure Metal Hook & Anti-overtightening Design:** A solid metal hook tightens upon rotation for an exceptionally strong hold. The hook is 50% longer than standard versions, compatible with a wide range of horizontal and vertical vents. An anti-overtightening mechanism prevents vent blade damage.
- **Easy Placement & Adjustments:** A 360-degree rotatable ball joint allows for unparalleled adjustability. The rotating back knob fine-tunes tension for desired viewing angles. One-step phone placement enhances safety during driving.
- **Minimal Interference:** Circular design ensures uninterrupted signal reception, reduces vent strain, and maintains optimal airflow for heat dissipation.

High Quality and Well-Constructed

Image: Detailed breakdown of the mount's high-quality and well-constructed components.

4. COMPATIBILITY

The SYNCWIRE MagSafe Car Vent Mount is designed for broad compatibility:

- **Direct Attachment:** Compatible with iPhone 16, 16 Pro, 16 Plus, 16 Pro Max, 15, 15 Pro, 15 Plus, 15 Pro Max, 14, 14 Pro, 14 Pro Max, 14 Plus, iPhone 13, 13 Pro, 13 Pro Max, 13 Mini, iPhone 12, 12 Pro, 12 Pro Max, 12 Mini, and official MagSafe cases.
- **With Metal Rings (Included):** Compatible with non-magnetic phones (e.g., iPhone 11 and earlier series, Android phones) and standard phone cases by attaching the provided metal rings to their backs.
- **Vent Type:** Supports most horizontal and vertical car air vents. Not suitable for round vents.
- **Vent Blade Dimensions:** Hook extension range 10mm-25mm. The thickness of the vent blade must be less than 4mm.

Compatible with All Phones

Attach Directly to

iPhone 16/15/14/13/12 Series, Official MagSafe Case
Other Magnetic Cases

Work with Metal Ring (included)

iPhone 11, Xs & Earlier Models
Android Phones, Non-Magnetic Cases

5. SETUP INSTRUCTIONS

1. Assemble the Mount:

- Place the Pivot Locking Nut onto the ball joint.
- Push the ball joint into the back of the car mount and tighten the Pivot Locking Nut. Adjust the tension to achieve your desired viewing angle.

2. Prepare Your Phone (if not MagSafe compatible):

- Clean the back of your phone or phone case thoroughly using the provided wet wipe.
- Peel off the adhesive backing from one of the metal rings.
- Carefully center and firmly attach the metal ring to the back of your phone or case. Ensure it is smooth and secure.

3. Install the Mount in Your Car Vent:

- Loosen the locking knob on the mount to extend the metal hook to its longest position.

- b. Insert the metal hook into a suitable horizontal or vertical vent blade.
- c. Tighten the locking knob until it firmly grips your car's air vent. The anti-overtightening mechanism prevents damage.

6. OPERATING INSTRUCTIONS

1. Attaching Your Phone:

- a. Once the mount is securely installed, simply bring your MagSafe-compatible phone (or phone with an attached metal ring) close to the magnetic surface of the mount.
- b. The strong magnets will automatically align and hold your phone in place.

2. Adjusting Viewing Angle:

- a. The 360-degree rotatable ball joint allows you to adjust your phone to any desired viewing angle (portrait or landscape).
- b. To change the angle, gently rotate your phone or the magnetic head. If the joint feels too loose, slightly tighten the Pivot Locking Nut.

3. Detaching Your Phone:

- a. To remove your phone, simply pull it directly away from the magnetic surface. Avoid twisting or peeling to prevent accidental detachment or damage.

Non-Blocking Design

Allowing for airflow and keeping your phone cool

Does Not Affect The Signal

16 powerful N52 magnets and more stable magnetic field, no worry about affecting signal and hurt phone.

Image: Phone attached to the mount, illustrating the 360-degree flexible viewing angle.

7. MAINTENANCE

- **Cleaning:** Wipe the mount regularly with a soft, damp cloth to remove dust and grime. Avoid using harsh chemicals or abrasive materials.
- **Inspection:** Periodically check the vent hook and ball joint for any signs of wear or damage. Ensure all parts are securely fastened.
- **Storage:** If removing the mount for extended periods, store it in a cool, dry place away from direct sunlight.

8. TROUBLESHOOTING

Problem	Solution
Phone not holding securely.	Ensure the Pivot Locking Nut is tightened. If using a non-MagSafe phone, verify the metal ring is correctly attached and aligned. Check for any obstructions between the phone and the mount.

Problem	Solution
Mount is loose in the vent.	Tighten the locking knob on the vent hook. Ensure the hook is fully engaged with a vent blade. Confirm your vent type is compatible (not round).
Difficulty adjusting viewing angle.	Loosen the Pivot Locking Nut slightly to allow for easier adjustment, then re-tighten once the desired angle is set.
Phone signal interference.	The mount is designed for minimal interference. If issues persist, ensure the phone is correctly positioned on the magnetic surface.

9. SPECIFICATIONS

Feature	Detail
Brand	SYNCWIRE
Model Name	SW-MPH983
Color	Carbon Fiber
Compatible Devices	Smartphones (MagSafe compatible iPhones, Android with metal rings)
Mounting Type	Vent
Additional Features	Wireless (referring to magnetic attachment, not charging)
Weight Capacity Maximum	2.5 Kilograms
Item Dimensions	4.8 x 3.43 x 1.57 inches
Item Weight	5 Grams
Enclosure Material	Metal, Plastic, Aluminium

10. WARRANTY AND SUPPORT

Warranty: The SYNCWIRE MagSafe Car Vent Mount comes with a 12-month warranty, extendable to 24 months upon product registration. This warranty covers manufacturing defects and ensures product reliability.

Customer Support: For any questions, technical assistance, or warranty claims, please contact SYNCWIRE customer service through their official channels. Timely customer service and adequate information are provided.

You can find more information and contact details on the official SYNCWIRE website or through your authorized reseller.
