

JUMMICO 0183

JUMMICO Electric Standing Desk Instruction Manual

Model: 0183 (80 x 180 cm, Brown)

IMPORTANT SAFETY INFORMATION

Please read and understand all safety instructions before assembly and operation. Failure to follow these instructions may result in injury or damage to the product.

- **Weight Limit:** Do not exceed a maximum load of 60 kg on the desktop.
- **Assembly:** Assemble the product strictly according to the provided instructions. Ensure all fasteners are securely tightened.
- **Obstructions:** Always ensure the desk's path is clear of any obstructions (e.g., chairs, cabinets, cables) before adjusting its height.
- **Children and Pets:** Keep children and pets away from the desk during height adjustments to prevent accidents.
- **Power:** Use only the provided power adapter. Disconnect power before cleaning or maintenance.
- **Overheat Protection:** The motor system includes overheat protection. If the desk stops unexpectedly during prolonged use, allow it to cool down for 20 minutes before resuming operation.
- **Anti-Collision:** The desk is equipped with an anti-collision function. If an obstruction is detected, the desk will stop and reverse slightly.

PRODUCT OVERVIEW

The JUMMICO Electric Standing Desk (Model 0183) offers a flexible and ergonomic workspace solution, allowing users to effortlessly switch between sitting and standing positions. This desk is designed to promote a healthier work environment and enhance productivity.

Image: The JUMMICO Electric Standing Desk in a typical office setup, featuring a brown desktop, black legs, multiple monitors, and a control panel with a USB port.

Key Features:

- **Electric Height Adjustment:** Smoothly adjust the desk height from 73 cm to 118 cm.
- **Memory Presets:** Two programmable height settings for quick and convenient adjustments.
- **Integrated USB Charging Port:** Conveniently located on the control panel for charging devices.
- **Anti-Collision Function:** Automatically stops and reverses if an obstruction is detected during movement.
- **Robust Construction:** Features an industrial-grade steel frame for stability and durability, supporting up to 60 kg.
- **Cable Management:** Includes cable clips and two headphone hooks for an organized workspace.
- **Quiet Operation:** Motor operates at a noise level below 40 dB.

SETUP AND ASSEMBLY

Follow these steps carefully to assemble your JUMMICO Electric Standing Desk. It is recommended to have two people for assembly.

Package Contents:

- Desktop sections
- Desk legs and crossbar

- Motor and control box
- Control panel with USB port
- Assembly hardware (screws, bolts, Allen keys)
- Cable clips and headphone hooks
- Instruction Manual

Assembly Steps:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Refer to the parts list in the included manual to identify each piece.
2. **Assemble Desk Frame:** Attach the leg columns to the crossbar using the provided screws and tools. Ensure all connections are firm and stable.
3. **Attach Desktop:** Place the desktop sections onto the assembled frame. Align the pre-drilled holes on the desktop with the frame. Secure the desktop to the frame using the designated screws.
4. **Install Control Panel and Motor:** Mount the control panel to the underside of the desktop in the specified location. Connect the motor and control panel cables to the control box, then secure the control box to the frame.
5. **Cable Management:** Use the included cable clips to neatly route and secure all power and control cables, preventing them from hanging or getting tangled. Attach the headphone hooks to the desired locations on the desk frame.
6. **Power Connection:** Plug the desk's power cable into a standard electrical outlet.

OPERATING INSTRUCTIONS

This section details how to use the various functions of your JUMMICO Electric Standing Desk.

Control Panel Overview:

Multi-Function Intelligent Keypad

Image: A detailed view of the desk's control panel, showing the LED display, 'M' button for memory, '+' and '-' for height adjustment, '1' and '2' for memory presets, a timer icon for sedentary reminders, and a USB charging port.

- **LED Display:** Shows the current desk height in centimeters.
- **Up/Down Buttons (+/-):** Press and hold the '+' button to raise the desk, or the '-' button to lower it. Release the button to stop movement.
- **Memory Presets (1, 2):**
 - a. **To Save a Height:** Adjust the desk to your desired height. Press the 'M' button; the display will show 'S-'.

Immediately press '1' or '2' to save the current height to that preset button.

b. **To Recall a Height:** Press '1' or '2' to automatically move the desk to the saved height.

- **Sedentary Reminder (Timer Icon):** Press this button to activate or deactivate the sedentary reminder function. This feature will prompt you to change your working position after a set period.
- **USB Charging Port:** Located on the side of the control panel, this port provides power for charging compatible devices.

Height Adjustment Range:

The desk offers a wide height adjustment range, from a minimum of 73 cm to a maximum of 118 cm, accommodating various user heights and preferences.

Image: Two individuals demonstrating the adjustable height range of the JUMMICO Electric Standing Desk, one sitting and one standing, with height indicators from 73 cm to 118 cm.

Anti-Collision Feature:

The desk is equipped with an advanced anti-collision system. If the desktop encounters an obstacle during upward or downward movement, it will automatically stop and reverse slightly to prevent damage to the desk or surrounding objects.

MAINTENANCE

Regular maintenance will help ensure the long-term performance and appearance of your JUMMICO Electric Standing Desk.

- **Cleaning the Desktop:** Wipe the desktop surface with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner. Avoid harsh chemicals or abrasive materials that could damage the finish.
- **Frame Cleaning:** Clean the metal frame with a damp cloth. Dry immediately to prevent rust.
- **Cable Management:** Periodically check and reorganize cables to prevent tangles, pinching, or damage. Ensure cables have enough slack for full height adjustment.
- **Fastener Check:** Every few months, inspect all screws and bolts to ensure they remain tight. Re-tighten if necessary.
- **Motor Care:** Avoid overloading the desk beyond its specified weight capacity. Do not attempt to disassemble the motor or control box.

TROUBLESHOOTING

This section provides solutions for common issues you might encounter with your JUMMICO Electric Standing Desk. If the problem persists, please contact customer support.

Problem	Possible Cause	Solution
Desk does not move.	Power cable disconnected, motor error, or desk overloaded.	Check if the power cable is securely plugged into both the desk and the wall outlet. Unplug the desk for 30 seconds, then plug it back in. Reduce the weight on the desktop.
Desk stops during adjustment.	Anti-collision system activated (obstruction), or motor overheat protection.	Remove any objects obstructing the desk's movement. If the motor is hot, allow it to cool down for 20 minutes.

Problem	Possible Cause	Solution
Height presets are not working correctly.	Presets were not saved or have been reset.	Re-save your desired height settings by following the 'Memory Presets' instructions in the Operating section.
Unusual noise during operation.	Loose connections or uneven weight distribution.	Ensure all assembly screws are tight. Distribute items on the desktop evenly.
LED display shows an error code.	Specific system malfunction.	Refer to the comprehensive manual for a list of error codes and their corresponding solutions. If unavailable, contact customer support.
